Webinar 4 Report

Title: Healthy India Happy India

Today, on the 18th of May, 2020, the Career Counselling Cell of Isabella Thoburn College, organized an International Webinar in association with the Counselling and Placement Cell, University of Lucknow. The theme of the Webinar was, "Healthy India Happy India."

Introducing the theme, Dr. S.Bhatia, Coordinator, CCC, ITC, observed that these are challenging times, when the whole world is grappling with the unprecedented crisis of Covid-19. The virus has brought drastic changes in the way we live, work and interact with our fellow beings. The mental health of children, adults, healthcare workers, corona warriors is at stake and there are so many cases of depression, stress and anxiety. As such, it is our sacred duty as educators to reach out to our students with some simple, practical solutions.

After the Introduction, the College Principal Dr. (Mrs.) V. Prakash and Dr. Madhurima Lal, Director, CPC, University of Lucknow welcomed the guests and the participants. Dr. Prakash, in her welcome address, deliberated on the fast changing scenario which has thrown open many opportunities to grow and enhance the quality of life. The need of the hour in these unusual times is to learn to accommodate and adjust. Dr. Lall observed that in the present times, life has come to a standstill and it is our responsibility as teachers to support our students to handle the situation.

The guest speaker Professor Anil Mishra, Department Of Chemistry highlighted the importance of happiness for our physical and mental health. Often we relate happiness with material gains, but this is a misconception as it generates a desire for more, leaving us worried and stressed. Stress weakens our immune system by releasing harmful chemicals like Thyroxin and Oxytocin. It adversely affects our health, causing diseases like hypertension, depression, heart stroke etc. Actual happiness is not dependent on these extrinsic factors. In fact it is very simple to be happy. We can manage our life by following some basic principles like Acceptance, Gratitude and Spirituality which lies in an unconditional surrender to the unknown. We can't control our destiny but we can definitely make our choices as to how we respond to a particular situation. It is also important to relax and take rest before we feel tired. We can take charge of our lives by following some easy practices like conscious breathing which is the simplest and the purest form of meditation.

The Webinar was streamed through Zoom app and witnessed the participation of more than a seven hundred students, teachers and other professionals. At the end of the session there was a question-answer session in which Prof. Mishra addressed the queries of the participants. Prof. Mishra's insightful address was much appreciated for the simple yet effective solutions to cope with the present Covid-19 crisis and for our holistic well-being. The Webinar concluded with the Vote of Thanks by Dr. Bhatia.
