

It is to inform that Lucknow University has been accessing to E-journals and online database through Inflibnet, Gandhinagar since 2004. Till now, E resources of only 18 publishers were available to Lucknow University on Inflibnet website ([www.inflibnet.ac.in](http://www.inflibnet.ac.in)). Recently, Inflibnet has provided access to one more database, i.e. MathsciNet database. It covers all areas of pure and applied mathematics as well as the history of mathematics. MathSciNet is published by the American Mathematical Society and is the online version of **Mathematical Reviews** and Current Mathematical Publications. It is very useful database for faculty members especially belonging to Maths discipline . Therefore, faculty members are requested to access the database and promote its usage so that access to this database may be retained in future.
