

# University of Lucknow, Lucknow

Centre for Information, Publication and Public Relations

April 25, 2020

## Press Release

University of Lucknow has taken a step towards history today. The University has entered into a Technology Transfer Agreement with Toral Herbal Private Ltd. to begin commercial production of its indigenous sanitizer LUCHEM. LUCHEM was designed and launched in March, 2020 as a part of University of Lucknow's initiatives to fight against Covid-19, by the Department of Chemistry. This is the first such instance where the University has moved towards garnering revenue from its research output.
