

## Webinar On Increasing role of IT in Investment Banking and Operations

The TPC organized a webinar on the topic "IT in Investment Banking and Operations" in association with Mr. Syed Aseeruddin SME Treasury-(FO & Risk), Emirates NBD Banking Group, Dubai on April 24<sup>th</sup> 2020. This event was organized for all the students of Computer Science Department.

## **Objective:**

This event was organised to give students an overview about the IT industry from a totally new perspective that is the Banking Sector with an experience sharing and counseling session.

## **Highlights:**

Webinar was presided over by **Prof. R.S Gupta**, Coordinator/Incharge, *Faculty of Engineering and Technology*, who inaugurated the webinar. Introduction of the programme was given by Dr. Himanshu Pandey to the students.

As soon as Mr. Syed joined us live from Dubai the session started with the enthusiastic participants. Mr. Syed gave a detailed introduction of himself and about his company (bank). Then the different kinds of technologies and their applications and needs were discussed while explaining every small detail. Students learned about application of cloud computing, modern networking technologies, security, blockchain, artificial intelligence, big data, database management and business workings related to IT of the bank. They also got to learn how integration of technology in the banking sector is helping in automation and better consumer experience while reducing operation costs. He discussed the migration of banks towards cloud computing in thorough details while resolving queries from the students. In the second half of the webinar Mr. Syed shared his personal experiences of how to make continuous progress in the IT industry while working with a business oriented mindset. He stressed on students to improve their communication skills and focus to specialize in more than one technologies to secure their future. He also described the present scenario of the international IT industry and how middle east can lead the future job market. At last further queries from the students were resolved.
