

HOW TO APPLY?

Interested candidates can apply to the Course Co-Director along with duly filled registration form on or before 25th February, 2018. Registration form can also be downloaded from the university website www.lkouniv.ac.in. The candidates are required to send the registration form to the Course Co-Director by hard and soft copy duly forwarded by the MPhil/PhD/PDF supervisor and Head of the Department with following enclosures:

- Filled application form
- Brief Curriculum Vitae of the applicant
- MPhil/PhD/PDF registration/supportive documents
- Attested copy of caste/ community certificate of ST/SC/OBC/Minority (if applicable)

Candidates are required to send the filled registration form along with all the required documents both by post as well as email to the course co-director.

Note: Incomplete application forms are liable to be rejected.

ELIGIBILITY CRITERIA

Registered MPhil/PhD/PDF scholars from any recognized Indian university/research institute from any branch of Social Sciences would be invited for this training workshop. Selections once made would be final, unquestionable and irrevocable.

REGISTRATION FEE, TRAVEL ALLOWANCES AND ACCOMMODATION

There is no registration fee for the Training Program. Boarding and lodging is free. Accommodation to out station participants will be provided on sharing basis. Travelling Allowance would be payable only for sleeper class/regular bus fare as per rules.

IMPORTANT POINTS

- There are a maximum of 30 seats: 20 for out station and 10 for local participants.
- Those who have attended any such program during the last one year should not apply.
- Leave shall not be granted during the training period.
- Free lunch and refreshments for all participants shall be provided.

10 DAYS RESEARCH METHODOLOGY WORKSHOP

12th to 21st March, 2018

*Department of Geography
University of Lucknow
Lucknow*

INTRODUCTION

Research is as an activity which involves thorough study of literature to find gaps or inconsistencies in theories or mismatch realized. It aims at enhancing the capacity and analytical skills of research scholars across different disciplines. In research, various steps are involved consisting identification of research problem, formulation of hypothesis, collection of data, analyzing the facts and reaching certain conclusions either in form of solutions towards the concerned problem or specific generalizations for some theoretical formulations. The present information age facilitates the collection of data but the challenges lie in making the data meaningful and purposeful. A scholar, who is well versed with research methods and techniques, could create new knowledge, new theory, innovative practice and new model and paradigm which will be more beneficial for the societies. Today, social scientists characteristically use a large array of complementary methods for analyzing and interpreting evidence to answer various research questions. Apart from statistical and other qualitative data, social scientists also make use of several varieties of primary and secondary evidences, encompassing written materials, maps, remotely sensed data, etc. Research students, therefore, do require training in a range of advanced and modern methods. That is why present course is designed to provide a platform, where healthy discussion and interaction among researchers can take place which will enhance their research quality and capacity.

OBJECTIVES

The main objective of the course is to enhance the conceptual understanding of participants regarding datasets and various statistical methods and techniques and make them able to improve their current research knowledge and skills in the field of social sciences. The specific subthemes of the workshop are:

- Concept foundation of Research
- Fundamental of Social Science Research
- Qualitative & Quantitative Research
- Use of Computer and Internet
- Foundation of Statistical Tools (SPSS)
- Remote Sensing and GIS
- Research Reporting

ABOUT THE DEPARTMENT

The Department of Geography is a relatively new Department of the University. There was a pressing demand for opening it in the campus before its commencement. A few associate colleges of Lucknow, University were imparting education of geography up to graduation level but the subject was not available in Lucknow University Campus. Many students wishing to pursue higher education in this subject used to go back utterly disappointed. Ultimately, the Department of Geography was started in the year 2002.

The thrust area of the department is to expose students and research scholars to Remote Sensing, Geographical Information System (GIS) and statistical software to enhance their skills in research and research related activities. With an objective to ensure exposure of all students of Geography with these technologies by introduction of innovative and job oriented curriculum, this department has been running since more than a decade, undergraduate, postgraduate and research programs. Special attention is paid to the theoretical and the practical aspects of the subject that make the students familiar with modern technological skills and devices, thereby making them eligible for getting jobs in various public and private concerns.

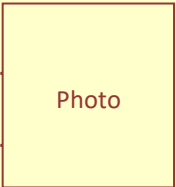

This department has produced students who are now placed in various firms and engaged in different vocations like Civil Services, GIS Expert and Teaching among various others. Apart from this, the department has an excellent record of producing 3-4 NET and 1-2 JRF every year.

IMPORTANT DATES

- Last date for the receipt of application form:
February 25, 2018
- Commencement of selection process:
February 26, 2018
- Selection to be communicated:
March 2, 2018
- Confirmation to be communicated:
March 3, 2018
- Workshop Dates:
**12th March, 2018 to
21st March, 2018**
