The University has impeccably chosen the processes to put the systems in place. Development of new systems has to undergo a pre designed system of a given set of committees and bodies to approve various processes ensuring quality delivery and compliance of regulatory mechanisms. The University is highly responsive to the needs of the scheduled castes, scheduled tribes, other backward casts, minorities and differently able students and gives due recognition to their needs through various extension activities and infrastructural development. .

Executive Summary

The University of Lucknow has been a premier institute with its Motto “Light and Learning”. The mission of the University is, to be a University with values of diverse cultures to foster economic, social and spiritual mobility for an egalitarian society. It has a vision, to cultivate the human resource for furtherance of knowledge through teaching, research and innovation and to be amongst the top rank educational institutions of the world for better service to the humanity in general and our nation in particular.

Ever since its inception in 1921 the institution has been global in nature and established departments of various languages in vogue in different parts of the globe. Among the first departments in the University of Lucknow were, Departments of Oriental Studies in Persian and Oriental Studies in Sanskrit. The University gained stature by adding newer areas of study over time, and today it has 43 departments, 10 institutes, Lucknow University Athletic Association (as a separate body for sports activities), 5 Delegacy Centers (to look into the coo curricular Activities of the students in the city), 16 hostels (5 for girls and 11 for boys) which the University serves through two campuses within the city.

We hereby present a summary of the report under the seven points as detailed in the main report.

The University of Lucknow is a progressive University and is sensitive towards the global and regional needs. These issues are reflected in the choice of areas of study and curriculum design and development. Curriculum is an integral part of developing courses; the courses of the University are designed and developed through a strong interactive model where stakeholders are involved in the process developing curriculum. The University endeavors to create curriculums that are in tune with the needs of the markets. The curriculum development process takes place at two levels a) one at the level of developing a new course and b) secondly during improving the existing curriculums.

Curricular Aspects

The University follows a well defined method of curriculum development. The University takes in to consideration the various stakeholders involved in receiving and imparting education as well as the society at large. The University interacts with the industry and the stakeholders in the working environment to assess the requirements of specialized courses. The courses take into consideration the inputs and are developed accordingly. The courses are updated on the same inputs. Curriculum development process is facilitated in addition along the guidelines of regulatory bodies like, UGC /AICTE/ DBT and other. The UGC Model Curriculums etc are also considered at the time of developing curriculum.

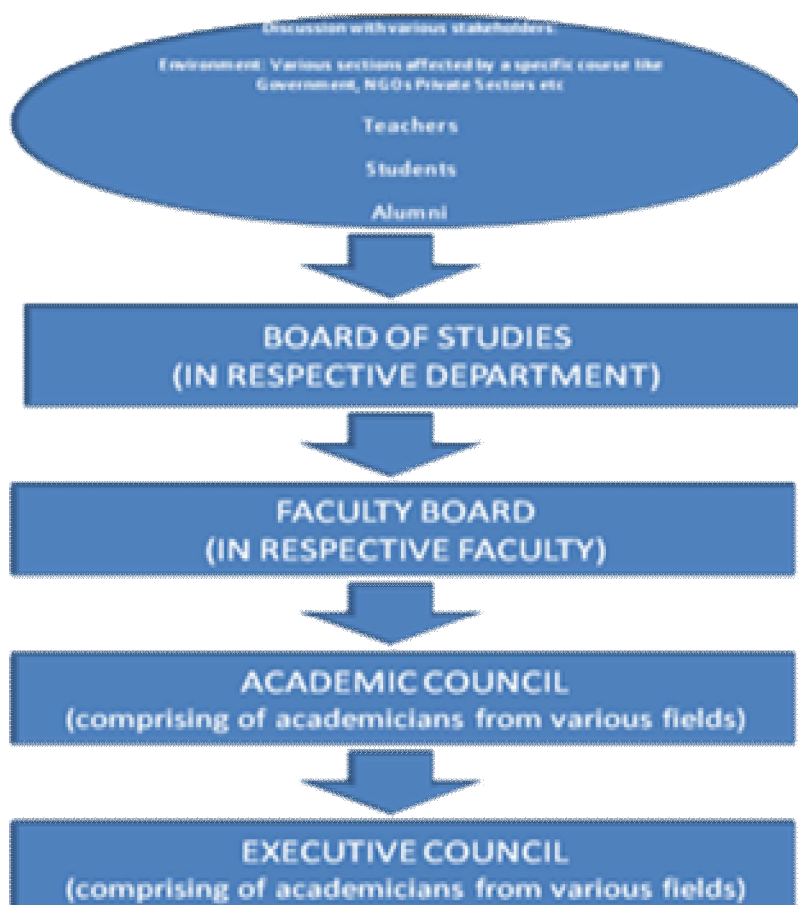

The change in the curriculum is initiated from the environmental inputs which assure that the curriculum is based on market demand. The various stakeholders that the University involves are executives from the government, non government

organizations, private sector, businessmen, social activists, alumni, students as well as courses instituted in other educational institutions.

The curriculum design has a strong research bent and has instituted research activities at various levels. Conferences, workshops, special lectures, involvement of faculty in special projects, consultancy and assignments are the mediums of interaction with various sections of the society and stakeholders. Such meetings are also used for indirect interaction to understand the needs of the industry and reflect them in the curriculum.

The University has a provision for allowing add-on need based courses in affiliated colleges. The University has always encouraged skill oriented programmes and is offering diverse courses to students.

The University has a mandate and philosophy of enriching the curriculum continuously. Revision and up gradation of syllabus is a continuous exercise in the University. The syllabus is made socially relevant, job oriented and is aimed at holistic vision of the course. Course of most of the subjects have been revised in last four years at Masters and Bachelors level. The value-added courses offered by the University are aimed at overall development of student's skills. At the level of the University, the courses could be developed in two ways, firstly either on the basis of direct intervention from the top or vice versa. The process of adopting a course is shown in the following diagram.

The courses have been designed to deliver a holistic view and develop market mapping traits.

A College Development Council has been formed for the purpose of interacting with the colleges. There is a continuous feedback from the colleges through a representation of the faculty in various academic bodies like the Board of Studies and in Departmental Committees. This democratic setup allows the development of model courses and curriculum.

Teaching-Learning and Evaluation

The University has been using the latest technology to make the admission process online and the students can make their applications and check admission notification online.

All notifications are advertised on the website of the University and a few selected newspapers as well as on the notice boards of the University. The University clearly indicates the respective department, the number of seats available in each of the courses, their fee structures, their course syllabus, duration of the courses, the respective faculty to teach the courses. Over and above this, the University clearly states the various facilities available in the University to make the aspirant aware before taking admission.

The affiliated colleges admit students of their own either on merit basis or through an open entrance examination. The University ensures the transparency in the admission process, it also ensures that the colleges do not admit student over and above the sanctioned capacity.

The University provides reservation of seats as per the government policy to the SC, STs and OBCs. Players of National repute who are at the first, second or third positions at the national level will get direct admission in the University. The University has a policy of weightage reservation for the persons with varied disabilities.

GRAPH RESEVATION

The University has a policy of running only those self finance courses which are viable and have a demand ratio of at least 0.4. The University runs remedial coaching for the SC/ST candidates to prepare them for NET/SLET exams and also for the various competitive exams for jobs.

The University has a policy to provide equal opportunity to the students belonging to disadvantageous category and it has an Equal Opportunity Cell functional for this purpose.

The advanced learners are encouraged to attend various activities of academic nature during summer vacations and some of the departments offer summer training to the students for their interaction with industries.

The University drafts an academic calendar, which is declared at the start of the session and is posted on the website. The entire department follows the academic calendar. It is ensured that norms of all the statutory bodies are well complied with.

The University has a well defined system of examinations. Appropriate panels for paper setters/examiners for the semester/annual examination are

considered by the Board of Studies of respective subjects and approved by Academic Council. The University ensures that the entire syllabus is available on the website.

The University has a policy of inviting faculty from national and international organizations. The University has decentralized the process of inviting professionals. The University has tried to make a number of classrooms having internet connectivity.

Some of the departments in the University have counselor/ mentors/ advisors appointed for the students. The University has ventured into OHP, LCD, Case Method of teaching, Industrial Visits, Webinars, Seminars, Role Play, Presentation, City Visits, Educational Tours, on the job trainings, field works and many more.

The “Sanskriti”(a body responsible for the cultural activities) is a vibrant body which takes care of extracurricular activities of students. It has many clubs which regularly organize different cultural and academic fest throughout the year.

The University is in the process of developing a e-learning portal that will enhance e-learning among the teachers. The University has one Academic staff college which regularly organize orientation, refresher, short term skill development programmes for the faculty members.

The University advertises the vacant positions regularly in the national daily and also on the University website. The qualification and eligibility conditions are at par with those provided by UGC. The applications received are thoroughly scrutinized and a statutory selection committee appoints the most suitable candidate.

The University encourages its faculty for applying in different scholarships/ fellowships available at national and international level. They are provided study leave/ privilege leave/ duty leave for availing these facilities.

Different departments of the University organize programmes for curriculum development, teaching-learning methods, and examination reforms time to time. These aspects are also discussed in the departmental committee meetings on regular basis.

The University has various schemes of academic development for faculty. With the help of such schemes, the faculty has grown in academic understanding and has adopted new methods of teaching. This has also helped the faculty to understand global competitiveness.

The University has a well designed evaluation process of students. Students and faculty members (of University and affiliated colleges) are well aware of the marks bifurcation for theory and practical exams. Notices regarding any changes in the above mentioned system are well circulated in advance so that the stake holders are well aware in advance. The process of moderation is in practice and all the question papers pass through this process before they are printed and sealed. The paper setters are required to submit a model answer papers before the start of evaluation process in order to maintain uniformity in the evaluation.

There are number of provisions like scrutiny etc. by which students can submit their representation regarding the marks obtained.

Pass marks and grace marks rules have also been made more student-friendly and simpler. The University has provided partial autonomy to

departments for paper-setting and evaluation in order to save time in declaration of results. The University results are generally declared within 45 day in the case of UG annual examinations (in UG classes results of all the affiliated colleges are also included). The PG results of semester based examinations are declared in 30 days. The PG examination answer books are coded before evaluation to maintain confidentiality. In the case of UG evaluation, a process of “Random Distribution” of answer books to evaluator is adopted. A panel of examiners are proposed by board of studies of respective departments for evaluation of M. Phil. and Ph. D. thesis, The Vice Chancellor choose two examiners out of this panel to be appointed as examiner for the evaluation of thesis.

The University has created a College Development Council and the council is in the process of bringing in the reforms. As of now, the colleges are given a title in the marksheets of the students. Hence there is always a parity treatment with colleges.

The University has gone in for massive computerization of examinations processes. The day the student enters the University, she/he is allotted a single enrolment number. The examinations system takes into consideration this enrolment number/ roll number and process the results accordingly.

University life offers up opportunities to try new ventures for the students. We have a lot of activities for the students other than lecture, labs and libraries like LUAA with its two sports fields, NCC, Sanskritiki, Gymnasium, NSS, Students Union.

The board of studies of departments meets regularly to discuss ways and means of assessing student learning. It always guides its faculty members on the design of the question paper. In the professional courses there is a internal assessment weightage of 30%. The internal assessment consists of continuous assessment, internal examination, class participations, project presentation and the likes.

The Univeristy’s mandate is to serve the students in order to uplift the citizens of its state and in the same, has extended its teaching activities through a number of colleges. The learning outcomes are always kept in mind and the University teaching in aligned to needs of the social environment.

The University has come up with model classrooms. The University is introducing new experiments in Science Streams. It also includes field visits, group discussions, role plays, webinars, seminars, conference participations etc. Moot courts are a regular activity in Law Faculty courses.

Research, Consultancy and Extension

The University has Departmental Research Degree Committees (DRC) in each subject to monitor and promotes research in the respective fields. The Head of Department is Chairperson of the committee. All the professors, two associate professors, two assistant professors and all the concerned supervisors are its members. Some time external members are also invited if required. The affiliated college teachers can collaborate with the labs and other research groups of University and carry on their research work.

Proactive mechanisms adopted by the University to facilitate the smooth implementation of research schemes/projects are, advancing funds for sanctioned

projects, providing seed money, simplification of procedures related to sanctions / purchases to be made by the investigators out of project funds and research grants, autonomy granted to the principal investigator/coordinator for utilizing overhead charges, timely release of grants, timely auditing and submission of utilization certificate to the funding authorities.

The interdisciplinary research and collaborations with national/international institutes / industries is encouraged by University. Teachers of various departments have freedom to submit research project proposals to various funding agencies, independently and / or in collaboration with their other sister departments. In addition to that the various faculty members of the University are doing collaborative research with almost all the prominent national and international universities/ institutions. The University promotes visit of eminent persons for delivering talks at various occasions and platforms. Nearly 10% of the total budget is earmarked for research and academic development during the current financial year. Governance, Leadership and Management

The executive council of the University (The apex decision making body) has a diverse representation this includes, business representatives, judiciary representatives, academicians, Chancellor's Nominee and any other stakeholder representative as deemed important.

The Executive Council is sensitive towards the cultural and cross cultural issues and always tries to draw guidelines to develop a culture of excellence in administration as well as in academics.

The University has a policy of rotation of positions in various bodies. This ensures participative leadership. All the statutory bodies like Departmental committees, Faculty Boards, Academic Council and Executive Councils are truly democratic in nature and the membership is rotatory in nature.

Departments have a democratic setup for knowledge management. The departmental committees have a statutory representation of the college academicians as well.

The departments have their own departmental research committees which take care of research at various levels. The trained manpower from the University serves the globe in varied ways.

The students of the University contribute in varied fields in the society, like, literary, academic, social, political, managerial, scientific and business areas of human activity.

The University ensures that it involves itself with various global institutions through various kinds of alliances, associations and collaborations.

The University is always trying to bring in new technologies and is marching ahead with its vision –“Strive to cultivate the human resource for furtherance of knowledge through innovation, research and teaching and to be amongst the top 100 education providers of the world for better service to the human kind”. It has a mission- “To be a University driven by values of diverse cultures to foster social, economic and spiritual mobility for a just and equitable society”.

The University has a policy to ensure quality in accordance with UGC guidelines. It has a full functional internal quality and assurance cell. The IQAC operates with a full functional boards headed by a director and nominated members.

The teachers are financially assisted through grants for attending workshops, conference and seminars within and outside India. The faculty members submit their self appraisal and employee's confidential report is submitted by their departmental heads, these are annual exercises.

The University is offering sixth pay commission for payment as salaries to its employees. The University provides academic leave to have proper

up-gradation of academic standards for a better academic life. Gender ratio statistics for students and teachers are annually collected in the University. The computerized system of computing has been designed to get such statistics. The University has 51.78% boys and 48.22% girls with a faculty representing 33% females and 67% males.

The University has been mobilizing resources from various sources. The University gets its income from the fee of regular course and self finance courses. The University also gets is grant from the State government.

The University is very conscious about the environment and has trained its botanical personnel about environmental issues. The University is going to have a Green Audit conducted every three years. The University takes into consideration natural lighting and this ensures saving of electricity. The University ensures that most of the ground space is kept open and is not cemented, this ensures rain water harvesting. The University has restricted the movement of automobiles on campus.

Innovations

The University has got its leased line commissioned through National Knowledge Network for providing internet facility to the campus. The departments and other offices in both the campuses are connected through internet facility.

The University has joined the INFLIBNET. Through this facility the University is able to provide number of journals to the research scholars and faculty members in their laboratories/ chambers directly for their academic activities. The central library of the University also houses a facility of 50 nodes for the user to get access of e resources available.

The University displays its various notices on its website. The details of all the faculty, results of every course, admission notifications, registration, administrative rules & regulations are also posted on the website.

All the hostels of the University have the networking and internet facilities for the students.

The University has all the information about the Masters and Bachelors programmes in two separate brochures on line. These have all the details about the various courses. The brochure has the number of seats and fee details. The ordinances regarding UG and PG admission are also available online.

From the current academic session, University has adopted new online system of admission for all the UG, PG course and this has lead to a hassle free transparent admission process. The University has been able to reduce the expenditure incurred and involvement of human resource for this process.

The library of the University is partially computerized and more than 50 nodes are available for the users to access e resources.

The greater element of autonomy given to the departments in their working has resulted in timely evaluation and declaration of examination results and improved student's satisfaction.

The University of Lucknow is adopting many best practices; few of them can be enumerated as follows-

Transparent Academic processes (Admission, result Declaration etc) through ICT-

The University has used ICT for making admission and examination system efficient and transparent. ICT is also used to augment learning resources for advancement of learning, teaching, and research. The use of ICT has also resulted in enhancing administrative efficiency and transparency.

Participative Curriculum Development System-

The curriculum of any University is the best reflection of its academic strength. It has to be upgraded constantly and the components related to the applicability of knowledge on actual basis must be incorporated into it. It is only possible by the interactive participation of the various stakeholders. The University of Lucknow has a complete democratic setup in its various committees responsible for this job and this particular practice of participatory development of curriculum has been very successful in evolving the syllabus of all the streams and keeps the University at par with the other top academic institutions.

Strengths, Weaknesses, Opportunities and Challenges (SWOC)

The University of Lucknow is one of the oldest universities in the northern Part of the country. During the passage of time the University is a Brand that signifies Centre of Excellence in Learning and Research. The institution is marching ahead with its vision to cultivate human resource for expanding knowledge through innovation, research and teaching for better service to the human kind. The greatest strength of the University is its highly motivated and research oriented facilities. The extra mural grants of the University are around Rs. 4,00,00,000. There is an annual addition of around 400 research projects. The

motivated faculty publishes more than 500 research papers annually in peer reviewed journals of national and international repute. The University is located in the capital city of Uttar Pradesh and is capable of attracting faculty and students from culturally diverse backgrounds. This makes the University culture, cosmopolitan.

The University is receiving large number of applicants from the students seeking admission in its research programmes. The presence of adequate number of research scholars is necessary for the timely completion of ongoing research projects in the University.

Democratic participation in the facilitation of various processes is one of the greatest strengths of this University. This falls in line with the philosophy of our country's democratic stature. Curriculum development is an integral representation of this process. The curriculum development participatory process hence holds its relevance in creating a strong human resource for the country.

The University aligning with its motto of light and learning has given strong relevance to Information Technology. The University has developed a state of the art infrastructure for information technology systems. It is noteworthy to state here that the University has shifted its focus from outsourcing to in house development of a number of processes. This year the University has processed its own results, online admission, printing of examination admit cards, student id cards etc. These processes have been developed over a period of time. The next activity in line with in house development is complete office automation throughout the University Departments. The University has created an IT Taskforce, an apex body to look into technology related issues for development and implementation.

The University is very strong in its diverse nature of academic streams and has over 44 educational departments on the main and some additional courses being offered by some colleges.

The University has a strong residential facility for the students with 16 hostels and houses for its teaching and non teaching community.

The University is located in the most populous state and it can draw on the examples from the same.

The University is well located in two campuses and has used them well; the students are given an opportunity to excel themselves in sports, co curricular and cultural activities. The University has two very well developed arms the National Cadet Core and Nationals Service Scheme. Students participated extensively in the activities organized by these arms and they participate in social and developmental activities of the country.

The University of Lucknow is a state University governed by U.P. State Universities Act – 1973 (amended and updated). The State Government has a strong role to play in the development and decision making of the University. The grants received from the Government are very meager and this has resulted in slowing down of its developmental activities.

The University of Lucknow despite being one of the longest serving University in the Country has not been given proper grants in the recent past due to lack in transparency in awarding funds. There are newer educational establishments / universities which have been sanctioned huge sums of money

whereas this University is treated unequally. This is one of the greatest weakness of this University.

Many a times the state government gives grants with appointment of some agency for the commission of tasks. This recent activity has adversely affected the quality of the work undertaken by other agencies as in most of the cases these agencies are not professionally managed and have very little experience for technically skilled jobs. The University image has also taken a beating in the recent past due to the performance of such agencies.

The University was sanctioned a number of posts in various plan proposals from time to time from central funding agencies. Invariably these new posts elapsed because the University is unable to get concurrence from the state government for the financial implications of these posts after the expiry of the plan period, which happens to be five years. This has hampered the growth as University is not able to widen its faculty base in numbers.

The University depends on state government for approval and implementation of various regulations as pronounced by different central regulatory bodies. There has always been a time lag in implementation of such schemes and regulations, this in turn causes delay in the release of grants and hampers growth.

The first campus of the University has many buildings with more than 75 years of heritage. They need regular maintenance but the University received small funds for maintenance. The University also has to manage a large data and electrical network, a computer DTP section but it is also deficient in funds for maintaining these facilities. This is a serious policy issue as it is always easy to get funds for new hardware, but rarely any grants are available for support and maintenance purposes.

The University of Lucknow can presently affiliate colleges from the District of Lucknow only. This seriously limits the Universities expansion and growth.

This era is an era of internationalization. The University looks at it as an opportunity to become a Global University by opening global campuses and using e learning route to cater the needs of various international students.

The University is seeking collaborations from various national and international institutions of repute. The faculties are always advised by their respective boards to extend collaborations and exchange programmes.

The University is in the process of creating state of art centralized Research Park for interdepartmental research. This is a new opportunity for growth of various streams of knowledge in the University.

The University is offering various courses of interdisciplinary nature to enhance the lateral movement of students in order to expand its knowledge base. The University recognizes this as a new opportunity in the process of teaching and learning.

Procurement of new funds is essential for the growth of the institution. The University looks at this as a challenge and it trying hard for this in this competitive era.

The creation of new faculty positions for widening of faculty base is a big challenge for a state run University. The University officials are constantly in

touch with government officials and the chancellor's office to address this challenge in a given time frame.

Maintenance of old buildings with small maintenance grant is a real challenge for policy makers and executioners in the University. The works department of the University develops a priority based plan and categorizes maintenance requirements as immediate, urgent and important. It rosters the task in line with the categories and availability of the funds.

Criteria Wise Analytical Report

J K Block

Criterion I

Curricular Aspects

Institute of Management Science

C. Criteria-wise Inputs

CRITERION I: CURRICULAR ASPECTS

1.1 Curriculum Design and Development

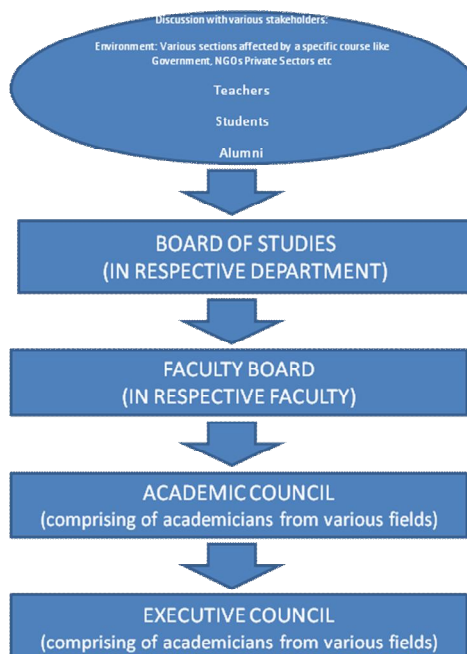

1.1.1 How is the institutional vision and mission reflected in the academic programmes of the University?

The University mission to be a University driven by value of diverse cultures to rolling social economic and spiritual mobility of students is well reflected in its academic program. Its vision of furtherance of knowledge is always driving it hard to achieve its goals. It has diversity where 43 departments and 10 institutes are actively engaged in furtherance of knowledge and learning.

1.1.2 Does the University follow a systematic process in the design and development of the curriculum? If yes, give details of the process (need assessment, feedback, etc.).

The University follows a well defined method of curriculum development. The University takes in to consideration the various stakeholders involved in receiving and imparting education as well as the society at large. The University interacts with the industry and the stakeholders in the working environment to assess the requirements of specialized courses. The courses take into consideration the inputs and are developed accordingly. The courses are updated on the same inputs. The above process is facilitated in addition to regulatory requirements as imposed by UGC and other bodies in the form of UGC Model Curriculums etc.

At the level of the University, the courses could be developed in two ways, firstly either on the basis of direct intervention from the top or vice versa. The process of adopting a course is shown in the following organogram.

1.1.3 How are the following aspects ensured through curriculum design and development?

- * **Employability:** As shown in the organogram above the change in the curriculum is initiated from the environmental inputs which assure that the curriculum is based on market demand. The various stakeholders that are involved executives from the government, non government organizations, private sector, businessmen, social activists, alumni, students as well as representative from courses instituted in other educational institutions. The syllabus of the University Courses are designed keeping in mind examinations like National Eligibility Test of UGC/ CSIR, SLET, JEST, GATE and other competitive examinations. This ensures employability of the students.
- * **Innovation:** The courses of the University are integrated with the requirement of industry and existing business environment. The students are continuously involved in various forms of programmes and practices on the market place. Students along with teachers understand the latest needs of the employers in this manner. This helps in innovating new areas. Teachers are engaged in continuous innovative programmes.
- * **Research:** The curriculum has a strong research bent and has instituted research activities at various levels. The faculty members of the University are working on different academic and applied problems related to the latest areas of research in all the streams and their research work has received funding from various agencies like DST, UGC, DAE, ISRO, CSIR, DRDO, ICSSR, AICTE and others. Design of the curriculum takes into account the specialized knowledge of its faculty members and tries to pass this knowledge to its pupil. Various workshops, conferences and seminars are organised from time to time and students are motivated to actively participate in these activities. Initiatives on direct research include courses like Ph.D, D.Litt, LLD etc and at the masters level the students have to develop research based projects which are a part of the curriculum. In essence the curriculum is designed keeping in view the overall employability through latest research.

1.1.4 To what extent does the University use the guidelines of the regulatory bodies for developing and/or restructuring the curricula? Has the University been instrumental in leading any curricular reform which has created a national impact?

The University rigorously follows the guidelines of regulatory authorities like UGC/ AICTE/ DBT etc. The University also takes care of considering the syllabus of National Eligibility Test of UGC/ CSIR, SLET, JEST, GATE and other competitive examinations while upgrading the curriculum of different subjects. Since its inception the University is offering unique courses in Oriental studies in Sanskrit and Oriental studies in Persian which draws attention of international community as well.

1.1.5 Does the University interact with industry, research bodies and the

civil society in the curriculum revision process? If so, how has the University benefitted through interactions with the stakeholders?

Conferences, workshops, special lectures, involvement in special projects, consultancy assignments are the mediums of interacting with various sections of the society and stakeholders. Such meetings are also used for indirect interaction to understand the needs of the industry and reflect them in the curriculum. The University has developed placement bureaus in certain departments and these departments interact with organizations for employment purposes. The University has taken up the task of improving the curriculum responsibly through participation of external experts who give a bird's eye view as an external consultant to bridge any gaps in the curricula.

The University has a strong heritage of academia and many of the academics are members of a good number of academic bodies at the national and international level with representation at University Grants Commission, All India Council of Technical Education, United Nations Bodies and many others. The learning from these research bodies is brought on board and the University benefits from such interactions.

The University is open to a number of forums on the civil society front. It has no barriers of any kind and many forums use the University as a platform for discussions on varied areas like Human Rights, Women Empowerment, Child Protection, Environmental Issues, International Peace and many other civil rights issues. It would not be a misnomer to say that the University is a strong promoter of issues concerning the civil society. These get reflected in the academic activities and curricula of the University.

1.1.6 Give details of how the University facilitates the introduction of new programmes of studies in its affiliated colleges.

The University has a provision for allowing add on need based courses in the affiliated colleges. Such courses are allowed only after undergoing a specific procedure. The procedure is as follows

The concerned college applied to the University about its intention to initiate a course through a Letter of Intention after that the University forms a committee which examines the viability on following aspects related with

1. Infrastructure
2. Adequate Teaching Staff
3. Adequate Supporting Staff

Once the requesting institution fulfils the basic criterion for initiating a course the academic council approves the course and the number of seats. The University has also constituted a College Development Council under supervision of Dean for better interaction with colleges on the recommendation of last NAAC Peer Visiting Team. CDC provides an enabling environment to all the colleges to impart quality education.

1.1.7 Does the University encourage its colleges to provide additional skill-oriented programmes relevant to regional needs? Cite instances (not applicable for unitary universities).

The University has always encouraged skill oriented programmes and has courses of varied nature. It has initiated course on various languages like

Urdu, Persian, Arabic and other which have been the need of the region. Although it is important to mention that the University has its affiliated colleges in an area of about 20 Kms and there is no regional variation in the specific needs of various colleges.

1.2 Academic Flexibility

1.2.1 Furnish the inventory for the following:

The University of Lucknow offers various undergraduate, graduate and post graduate, doctoral and post doctoral programmes in the streams of science, arts, commerce, law, fine arts and education. The programmes offered are in accordance with UGC guidelines and statutory provisions of the University. The UG courses of the University are three year programmes in which students choose three subjects for the first two years of the studies and in the third and the final year the students have the choice of a few subjects. The details of various courses are as follows.

The courses in the Masters courses are semester wise. The students have the choice of specializations in most of the courses offered by various departments.

(Annexure- 2)

- * Programmes taught on campus: Refer to the above list
- * Overseas programmes offered on campus : **None**
- * Programmes available for colleges to choose from: The University has offered a number of programmes to the colleges mostly at the bachelor's level. Although some colleges which fulfill the norms for Master programmes also offer such programmes.

1.2.2 Give details on the following provisions with reference to academic flexibility

- a. **Core / Elective options:** In most of the Masters programmes the courses have been designed to impart basic grounding on relevant issues in the first and in the final year the students have an option to opt for relevant streams and courses. There are some courses in Bachelors programmes where the students have an option to choose in the final year.
- b. **Enrichment courses:** The University has a number of enrichment courses for various stages. The University has Proficiency course in French. Department of English has developed special modules on communication for the students of allied field and these courses are extended through a language lab.
- c. **Courses offered in modular form:** Most of the courses are delivered through annual modules.
- d. **Credit accumulation and transfer facility:** The University has a policy of transfers from one institution to another. There are a number of cases where the transfers have taken place through equivalence committees. When a student applies for a transfer to the University the degree is validated by the equivalence committee of the University and once the degree qualifies the University considers the credentials for admitting the student to the respective course.

- e. **Lateral and vertical mobility within and across programmes, courses and disciplines:** The students are permitted interdisciplinary changes at the Masters level under certain specified rules relating to academic performance. A student is free to take admission in any other discipline after completing a course in one as a fresh candidate subject to his/her eligibility or merit in the other course. Bachelor's student enjoys freedom to choose two out of three subjects in the final year while in some master's courses they have freedom to choose one specialization out of available specializations.

1.2.3 Does the University have an explicit policy and strategy for attracting international students?

The University has all the programmes open to international students subject to national rules. The University promotes international students through international exchange programmes designed by India and other countries. The University looking at the need of the students has a 70 seat Hostel separately for international students.

1.2.4 Have any courses been developed targeting international students? If so, how successful have they been?

A specialized subject on International Business is designed to impart specific education in International Business to the students of Masters Courses. While designing the courses it is kept in mind that the courses can be imparted to international students hence an international perspective is at the back of all the courses. The University has also developed a Masters In International Business Management programme.

1.2.5 Does the University facilitate dual degree and twinning programmes? If yes, give details.

The University offers LLB 5 Years Dual degree programme.

1.2.6 Does the University offers self-financing programmes? If yes, list them and indicate if policies regarding admission, fee structure, teacher qualification and salary are at par with the aided programmes?

The programmes offered by the University are attached in the Annexure- 2. The University follows all the reservation policies as applicable from time to time. The contractual faculty has been pegged at par with the regular faculty. The entry level qualifications are also pegged at par with regular faculty.

1.2.7 Does the University provide the flexibility of bringing together the conventional face-to-face mode and the distance mode of education and allow students to choose and combine the courses they are interested in? If 'yes,' give operational details.

The University has a facility of Virtual Classroom and Studio for interacting with students across the University.

1.2.8 Has the University adopted the Choice Based Credit System (CBCS)? If yes, for how many programmes? What efforts have been made by the University to encourage the introduction of CBCS in its affiliated colleges?

NO

1.2.9 What percentage of programmes offered by the University follows

- * Annual System : At Masters Level 0%
- * Semester System : At Masters Level 100%
- * Trimester system : At Masters Level 0%
- * Annual system: All Bachelors Courses all except the following.
- * Semester system: BBA, B.Com (Hons.), Bachelors of Law Semester, B.A.(Hons.)

1.2.10 How does the University promote inter-disciplinary programmes? Name a few programmes and comment on their outcome.

The University promotes inter disciplinary programmes. Some of the programmes like Environment Science, Renewable Energy and Electronic etc are interdisciplinary in nature. The students are very employable and well placed after completing the programmes.

1.3 Curriculum Enrichment

1.3.1 How often is the curriculum of the University reviewed and upgraded for making it socially relevant and/or job oriented / knowledge intensive and meeting the emerging needs of students and other stakeholders?

Revision and upgrading of syllabus is a continuous exercise in the University courses. The syllabus is made socially relevant and job oriented and is aimed at holistic view of the course. Course of most of the subjects have been revised in last four years at Masters and Bachelors level and these changes take place through the procedure as in organogram in 1.1.2. The University follows a well defined method of curriculum development. The University takes in to consideration the various stakeholders involved in receiving and imparting education as well as the society at large. The University interacts with the industry and the stakeholders in the working environment to assess the requirements of specialized courses. The courses take into consideration the inputs and are developed accordingly. The courses are updated on the same inputs. The above process is facilitated in addition to regulatory requirements as imposed by UGC and other bodies in the form of UGC Model Curriculums etc.

1.3.2 During the last four years, how many new programmes at UG and PG levels were introduced? Give details.

- * Inter-disciplinary
- * Programmes in emerging areas: Electronics (M.Sc.), Renewable Energy (M. Sc.), Genomics, Biotechnology, Environmental Science.

1.3.3 What are the strategies adopted for the revision of the existing programmes? What percentage of courses underwent a syllabus revision?

The feedback from different areas is accepted and on the basis of the feedback from the various stakeholders like the society, students, employers, market etc. The courses are revised on the basis of the feedback. All the courses have been revised in the last four years.

1.3.4 What are the value-added courses offered by the University and how does the University ensure that all students have access to them?

The University offers value added courses which are disguised in the curriculum. The value-added courses offered by the University are aimed at

overall development of student's skills. The courses have been designed to deliver a holistic view to the pupil and develop traits mapped to market traits. Various courses on languages like Hindi, English Orientating, Sanskrit Basics and various Foreign Languages are delivered to develop communication (written and verbal) for personality development. The University also participates in community activities at times of need and various programmes like cleaning of Gomti, providing food and clothes to the needy blood donating helping in flood affected areas. The University also arranges programmes of National Cadet Corps which has a special office and premises allocated to it. In the same way we have a fully fledged National Saving Scheme Cell to accomplish various objectives of NSS through the University. Both these cells work as a special arm to provide various activities to the society. The students of the Law Department continuously participate in Mock Parliament.

Various laboratories in the Department of science are highly skilled and state of the art. These laboratories help the students in developing skills of handling instruments and designing specialized projects and also provide the needed training for technical / scientific careers.

Various departments of the University involve the students with case discussions, role plays, simulation, experiential learning, buzz sessions, seminars, exercises, and group discussions as learning methods for students which enhances employability of the students.

1.3.5 Has the University introduced any higher order skill development programmes in consonance with the national requirements as outlined by the National Skills Development Corporation and other agencies?

The University lays an overall emphasis on higher order skill development and every department in the University tries to do it uniquely. The University involves students in programmes with varied contents and activities encouraging students to participate in a variety of co-curricular and social activities. Students engage in brain-storming, role-plays, quizzes, budget analysis, panel discussions, conference and seminar paper presentations, management games, dumb charades and mock drills. The students also participate continuously in various cultural programmes. The University goes ahead with such event all around the year. Sanskritiki is a special cell created to coordinate and conduct the activities of the University.

All department of the University have internet facility and a computer centre. This has also been extended to the Library. Modern teaching aids like multimedia projectors, power point presentations, and internet are continuously used for teaching. These may involve video, audio or presentation skills.

1.4 Feedback System

1.4.1 Does the University have a formal mechanism to obtain feedback from students regarding the curriculum and how is it made use of? The University has developed a feedback mechanism.

The University is conducting various seminar and conference. Under the IQAC cell there are various workshops which have been conducted and a feedback is taken from the participants. The feedback is used to improve the

functioning of the University.

- 1.4.2 **Does the University elicit feedback on the curriculum from national and international faculty? If yes, specify a few methods such as conducting webinars, workshops, online discussions, etc. and its impact.**

The University continuously conducts webinars in various departments. The University promotes its faculty to go for international assignments. It also calls international faculty to conduct lectures and on seminars and conferences.

- 1.4.3 **Specify the mechanism through which affiliated institutions give feedback on curriculum enrichment and the extent to which it is made use of.**

The University promotes seminars and conference among the affiliating institutions. College Development Council has been formed for the purpose of interacting with the colleges. There is a continuous feedback from the colleges through a representation of the faculty in various academic bodies like the Board of Studies and in Departmental Committees. Members are also co-opted from various affiliating institutions.

- 1.4.4 **What are the quality sustenance and quality enhancement measures undertaken by the University in ensuring the effective development of the curricula?**

Some of the measure taken by the University in the last five years to improve the quality is -

1. University regularly assesses the curricula by analyzing feedback received from industry, alumni, academia, and other stakeholders through formal and informal channels for qualitative improvements in the courses.
2. Regular faculty board meetings are convened in order to seek suggestive inputs from the experts. The information so collected is debated and then subsequently approved by the respective academic bodies. The University also takes care to ensure that curricula so designed is in tune with the norms and standards recommended by the regulatory authorities like UGC/AICTE etc.
3. Most of the teaching departments have updated and enriched their course curricula both at the UG/PG levels in accordance with the latest developments in their respective subjects. The University undertakes this exercise at regular intervals in all the subjects. Revision of courses at the UG and PG level is taken up generally after every two years.
4. There is a statutory provision for the external members in research committees and UG/PG Boards of Studies which ensures regular improvement, comparability, and quality enhancement in curriculum development and research.
5. The University linguistic department and English department have developed some modules for communication skill development of the students. In addition to that the computer science department also runs some courses like PGDCA, BCA etc.
6. Semester system of examination has been introduced in all the PG courses.
7. The University emphasizes use of computers in teaching-learning processes. Accordingly, it has done extensive computerization and provided internet facilities on large scale, with access on the entire campus.

8. To encourage foreign students, the University has made provisions of foreign students through exchange programmes and also has an International Students Hostel.
9. The University provides flexibility to students to move from one discipline to another after completing a course in one discipline, by allowing admission in any other course/discipline as a fresh candidate subject to his/her meeting the eligibility conditions for the desired new course.

CRITERION II: TEACHING-LEARNING AND EVALUATION

2.1 Student Enrolment and Profile

2.1.1 How does the University ensure publicity and transparency in the admission process?

The University has been adopting transparency from time to time. The University in its latest efforts has been upgrading its admission process and making it state of the art with latest technology. Admission process is now online and the students can make all their applications and check their admission notification online. All the notifications are advertised on the website of the University and a few selected newspapers as well as on the notice boards of the University. The University clearly indicates the respective department, the number of seats available in each of the courses, their fee structures, their course syllabus, duration of the courses, the respective faculty to teach the courses. Over and above this the University clearly states the various facilities available in the University to make the aspirant aware before taking admission. The University declares the process of admitting the student before hand through the notifications. The applications are received for respective courses and the students are invited for counseling. In case of any discrepancy the student has the right to represent his case and the complaint is heard by the relevant authority.

2.1.2 Explain in detail the process of admission put in place by the University. List the criteria for admission: (e.g.: (i) merit, (ii) merit with entrance test, (iii) merit, entrance test and interview, (iv) common entrance test conducted by state agencies and national agencies (v) other criteria followed by the University (please specify).

The University has adopted an online process of admission to all the Masters and Bachelors courses. The academic council decides the criterion for admission to every course each year. At present the University has adopted the criterion of merit in the last course completed. The process of normalization is adopted for the purpose of arriving at the merit. The University has aligned itself with the National Tests and is admitting students by IIM CAT in its Management (Masters) courses. The University has adopted an entrance test of its own, however the aspirants who have qualified national test are exempted from such test and admitted directly as per the availability, falling under the rules of the University. The rules and weightings criterion for admission are given in Annexure 3.

2.1.3 Provide details of admission process in the affiliated colleges and the University's role in monitoring the same.

The University has formed a College Development Council, which looks after the appropriate representation in the college committee; this ensures a proper representation of the respective stakeholders. The University ensures that the colleges do not admit student over and above the sanctioned capacity, they have enough teachers to teach, they have proper facilities for the students, and they comply with the relevant rules.

2.1.4 Does the University have a mechanism to review its admission process and student profile annually? If yes, what is the outcome of such an analysis and how has it contributed to the improvement of the process?

The University provides information regarding availability of seats and rules regarding admission process well in time. The previous year trends are discussed in the admission committee and finally on the basis of deliberations at academic council the final policy of admission is decided. It is a continuous process and it contributes a lot to the development of transparent and efficient student friendly admission system.

2.1.5 What are the strategies adopted to increase / improve access for students belonging to the following categories:

- * **SC/ST**
- * **OBC**
- * **Women**
- * **Persons with varied disabilities**
- * **Economically weaker sections**
- * **Outstanding achievers in sports and other extracurricular activities**

The state of Uttar Pradesh has a number of policies for the upliftment of socially and economically weaker sections of the society. As a state University the University of Lucknow is duty bound to implement these policies in its admission process. The University provides reservation of seats as per the government policy to the SC, STs and OBCs. The University provides full exemption of fees to the SC and ST candidates, while in the case of OBCs exemption is based on their economic conditions. The fee instead is reimbursed to the University by the social welfare department.

Players of National repute who are at the first, a second or third position at the national level a direct admission is provided by the University. In addition the players who have completed intermediate courses from sports hostels and colleges are eligible to get a direct admission. The candidates who have been state players or national players but are not position holders are eligible for a 5% weightage in the marks. Women are eligible for a 5% weightage in LLB 5 years and LLB 3 year courses. The University aims at getting at least 20% girls each of the courses, this is well reflected in the current enrolled students where the enrolment of girls in nearly each of the courses hovers around 50%.

The University has a policy of weightage reservation for the persons with varied disabilities. The students with certain disabilities are also given a writer and extra time may also be given to them. The University has well developed system of ramps for students with physical disabilities. There are fully developed ramps for the students to reach every building.

2.1.6 Number of students admitted in University departments in the last four academic years:

Categories	Year 1		Year 2		Year 3		Year 4	
	Male	Female	Male	Female	Male	Female	Male	Female
SC	2665	1766	2591	1717	2513	1665	2200	1458
ST	176	119	171	115	166	112	145	98
OBC	3599	2991	3499	2908	3394	2820	2971	2469
General	3760	4625	3656	4497	3545	4361	3104	3818
Others	23	16	22	15	22	15	19	13

- 2.1.7 **Has the University conducted any analysis of demand ratio for the various programmes of the University departments and affiliated colleges? If so, highlight the significant trends explaining the reasons for increase / decrease.**

Programmes	Number of applications	Number of students admitted	Demand Ratio
UG	21500	3250	6.615385
PG	10500	4360	2.408257
Integrated Masters	-	-	
M.Phil.	123	97	1.268041
Ph.D.	2964	614	4.82736
Integrated Ph.D.	--	--	
Certificate	98	58	1.689655
Diploma	132	69	1.913043
PG Diploma	376	178	2.11236
Any other (please specify)	21500	3250	6.615385

- 2.1.8 **Were any programmes discontinued/staggered by the University in the last four years? If yes, please specify the reasons.**

The University has a policy of running only those self finance courses which are viable and have a demand ratio of at least 0.4. The University admission committee and academic council always keep a check on this pointer and some of the courses are suspended from time to time as per requirement.

2.2 Catering to Student Diversity

- 2.2.1 **Does the University organize orientation / induction programme for fresher's? If yes, give details such as the duration, issues covered, experts involved and mechanism for using the feedback in subsequent years.**

The departmental committee takes care of these issues regularly and the faculty members involved in the first year teaching are asked to interact with the students and orient them for their meaningful University life. The proctorial board of the University is very sensitive towards the issues of ragging, time to time it sends different circulars and notices to students and faculty entrusted with the job of managing

the hostels regarding ways and means of checking this. The University is very sensitive towards gender equality, the women grievance cell is fully functional and takes care of the related issues.

2.2.2 Does the University have a mechanism through which the “differential requirements of the student population” are analyzed after admission and before the commencement of classes? If so, how are the key issues identified and addressed?

We do not have any set mechanism in this regard but the faculty members are advised time to time by the faculty board/ departmental committee to look in to the special needs of the different students.

2.2.3 Does the University offer bridge / remedial / add-on courses? If yes, how are they structured into the time table? Give details of the courses offered, department-wise/faculty-wise?

The University runs remedial coaching for the SC/ST candidates to prepare them for NET exam and also for the entry in services. In addition to that University also has a minority coaching centre to impart remedial coaching to minority students for various competitive exams. The different departments also organize remedial/ extra classes on Sundays if required.

2.2.4 Has the University conducted any study on the academic growth of students from disadvantaged sections of society, economically disadvantaged, physically handicapped, slow learners, etc.? If yes, what are the main findings?

The University has a policy to provide equal opportunity to the students belonging to disadvantageous category and it has a Equal Opportunity Cell functional for this purpose. The reservation policies, other schemes of the State as well as Central government are followed in true spirit. They have been encouraged to avail the various scholarships/ research awards etc declared by various funding agencies. The University has a couple of studies in pipeline for the above issue.

2.2.5 How does the University identify and respond to the learning needs of advanced learners?

The advanced learners are encouraged to attend various activities of academic nature during summer vacations and some of the departments offer summer training to the students for their interaction with industries.

In addition to that the different departments of the University organize extension lectures and workshops/ seminars for students. “Sanskritiki” (a body responsible for the cultural activities) often organizes quiz contests debate, dumb character for the students. A detailed process of responding to the needs of the students has also been well outlined under the diagram in 1.1. The learning needs are well understood by interacting with the various stakeholders in the environment.

2.3. Teaching-Learning Process

2.3.1 How does the University plan and organize the teaching, learning and evaluation schedules (academic calendar, teaching plan, evaluation blue print, etc.)?

The University of Lucknow has Semester as well as Annual System in UG and PG courses respectively. The Semester exams are held in December and May every year. Annual examinations are held during March-April.

The University drafts an academic calendar, which is declared at the start of the session and is posted on the website. All the department follow the academic calendar. It is ensured that all norms of all the statutory bodies are well complied with.

The University has a well drafted system of examinations and appropriate panels for paper setters/examiners for the semester/annual examination are considered by the Board of Studies and approved by Academic Council. The University has a Central Evaluation System. The results are declared on time. Various facilitating bodies of the University like Internal Quality Assurance Cell, Athletic Association, Sanskritiki etc. have a well drafted calendar for the academic year at the start of the session.

2.3.2 Does the University provide course outlines and course schedules prior to the commencement of the academic session? If yes, how is the effectiveness of the process ensured?

The University ensures that the entire syllabus are available on the website, in addition to the syllabus being available in the respective departments. The students have an easy access to the entire syllabus at all times.

2.3.3 Does the University face any challenges in completing the curriculum within the stipulated time frame and calendar? If yes, elaborate on the challenges encountered and the institutional measures to overcome these.

The University has not faced any problem in completing the curriculum in the last five years. In case of any special requirement for additional inputs the University provides for extra classes through the respective departments.

2.3.4 How learning is made student-centric? Give a list of participatory learning activities adopted by the faculty that contributes to holistic development and improved student learning, besides facilitating life-long learning and knowledge management.

The University follows a well crafted system of making learning student centric. The University understands the needs of the environment and acts accordingly. At the level of initiating new courses, the University launches new courses as and when desired, not only that it also suspends a few courses if they are out of the mainstream. The syllabus is continuously upgraded as per the needs and requirements of the respective sectors.

2.3.5 What is the University's policy on inviting experts / people of eminence to deliver lectures and/or organize seminars for students?

The University has a policy of inviting faculty from national and international organizations. The University has decentralized the process of inviting professionals. The departments, faculties and

specific bodies are free to invited professionals for special lectures. There are many forums that use universities platform to conduct such specialized lectures. Dr. Anil Kakkar, Prof. A.P.J. Abdul Kalam, Dr. Montek Singh Ahluwalia, Dr. Kaushik Basu, Dr. Vijayan, Prof. J. V. Narlikar who are international personalities from India have graced numerous functions at the University. Many others have graced the University at various point of time

2.3.6 Does the University formally encourage blended learning by using e-learning resources?

The University has gone ahead with blended learning. A number of proficiency courses were used as an additional course for completing a main course. Additional courses on Information Technology literacy, e-learning methods and the like are encouraged continuously among the students and the teachers.

2.3.7 What are the technologies and facilities such as virtual laboratories, e-learning, open educational resources and mobile education used by the faculty for effective teaching?

The University has a video conferencing centre which is used for various kinds of video conferencing facilities. The University is developing a e-learning portal that will enhance e-learning among the teachers. The portal is designed to impart teaching to the students. IQAC recently organized a workshop for teachers on various issues of e-learning. The portal will have open educational resources for the students. One of the class rooms in some of the departments has been developed as a multimedia classroom.

2.3.8 Is there any designated group among the faculty to monitor the trends and issues regarding developments in Open Source Community and integrate its benefits in the University's educational processes?

NA

2.3.9 What steps has the University taken to orient traditional classrooms into 24x7 learning places?

The University has tried to make a number of classrooms having I connectivity. They have internet nodes for teaching for example in the Business Administration Building of the first campus and in the second campus the building hosting management course has also been made wi-fi ready.

2.3.10 Is there a provision for the services of counsellors / mentors/ advisors for each class or group of students for academic, personal and psycho-social guidance? If yes, give details of the process and the number of students who have benefitted.

Some of the departments in the University have counselor/ mentors/ advisors appointed for the students. These committees help the students at time of consultations.

2.3.11 Were any innovative teaching approaches/methods/practices adopted/put to use by the faculty during the last four years? If yes, did they improve learning? What were the methods used to evaluate the impact of such practices? What are the efforts made by the institution in giving the

faculty due recognition for innovation in teaching?

The University has taken up into OHP, LCD, Case Method of teaching, Industrial Visits, Webinars, Seminars, Role Play, Presentation, City Visits, Educational Tours, on the job trainings, field works and many more. These have improved the delivery and understanding of the students. The students are asked for a feedback to understand how to impart education in a better way.

2.3.12 How does the University create a culture of instilling and nurturing creativity and scientific temper among the learners?

“Sanskriti” (a body responsible for the cultural activities) is a vibrant body which takes care of extracurricular activities of students. It has many clubs which regularly organize different cultural and academic fest throughout the year. The calendar of events and all the activities are regularly published on the website of the University. In addition to this organized feature the different departments also organize seminars, workshops, lectures and exhibitions to inculcate scientific temper and research orientation of the students.

2.3.13 Does the University consider student projects mandatory in the learning programme? If yes, for how many programmes have they been (percentage of total) made mandatory?

*** Number of projects executed within the University**

At the master’s level, 80% of the courses, the students have to do a mandatory project. The students in these programmes have to complete a project at the end of their masters course. Another kind of project is on the job project, and is in the form of a -on the job training. This is normally held during the summer vacations. All the above projects are also assigned marks. The faculty members guide the students during the project completion.

*** Names of external institutions associated with the University for student project work**

Most of the corporate houses in Lucknow and a number of them based in Delhi which include Banks, Reserve Bank of India, government Research institutions like IITR, NBRI, CIMAP, Sugarcane Research Institute, Pisciculture Department, Animal Husbandry Department etc and a list of many more are associated with various department of the University. The private sector public limited companies and NGOs too are associated with the University. The associations are developed each year on a student requirement basis.

*** Role of faculty in facilitating such projects**

The faculty with its experience guides the students at the time of initiation of the project. They also monitor the progress and help the students in finalizing the report of the project.

2.3.14 Does the University have a well qualified pool of human resource to meet the requirements of the curriculum? If there is a shortfall, how is it supplemented?

Yes the University has a pool of well qualified faculty members and

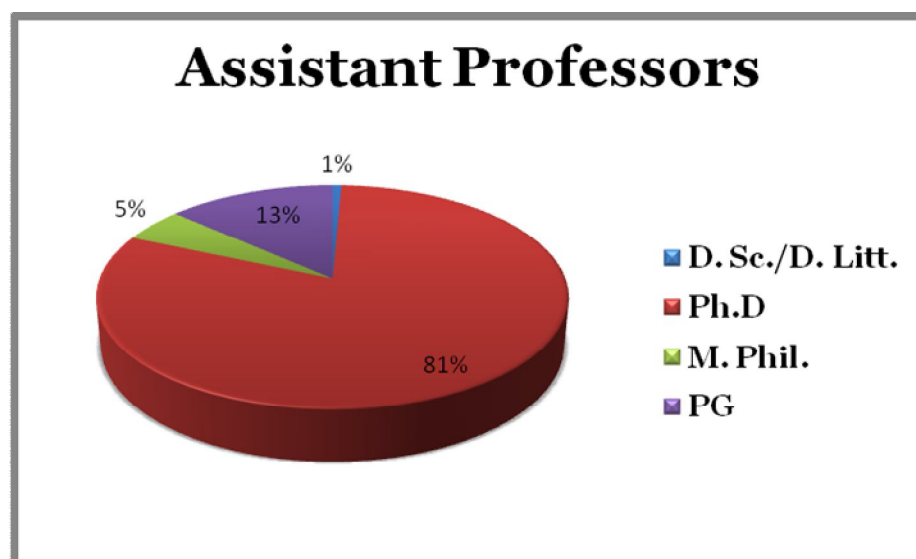

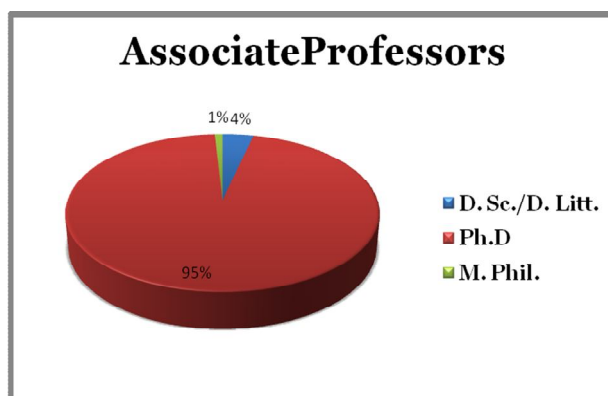

- supporting staff. Regular recruitments are done time to time as per requirement. The University also engages the retired faculty members and experts from the other institutions as guest faculty especially for the self finance courses.
- 2.3.15 **How are the faculty enabled to prepare computer-aided teaching/ learning materials? What are the facilities available in the University for such efforts?**
- Most of the departments are equipped with multimedia facilities and have at least one class room as model class room, where teaching can be imparted with the help of blended pedagogical methods.
- The University is in the process of developing a e-learning portal that will enhance e-learning among the teachers. The portal is designed to impart teaching to the students. IQAC recently organized a workshop for teachers on the issue of e-learning. The portal will have open educational resources for the students.
- 2.3.16 **Does the University have a mechanism for the evaluation of teachers by the students / alumni? If yes, how is the evaluation feedback used to improve the quality of the teaching-learning process?**
- The mechanism of the student feedback on the evaluation of teaching is presently voluntary. Many faculty members encourage students to provide feedback so that they can improve their communication with students. Different teachers adopt different methodologies for this purpose like feedback forms, feedback notes of posting feedback on their portal or email.

2.4 Teacher Quality

- 2.4.1 **How does the University plan and manage its human resources to meet the changing requirements of the curriculum?**
The University has one Academic Staff College which regularly organizes orientation, refresher, short term skill development programmes for the faculty members. The University administration encourages faculty members to attend these activities in our University as well as in other institutions.
The University is pro active in facilitating faculty members to attend/organize conferences, workshops, lecture and seminars. These activities keep the faculty abreast with the world. This also helps to meet the changing requirements of the curriculum.
- 2.4.2 **Furnish details of the faculty**

2.4.10 How often does the University organize academic development programmes (e.g.: curriculum development, teaching-learning methods, examination reforms, content / knowledge management, etc.) for its faculty aimed at enriching the teaching-learning process?

Different departments of the University organize programmes for curriculum development, teaching-learning methods, examination reforms time to time and these aspects are also discussed in the

departmental committee meetings on regular basis.

2.4.11 Does the University have a mechanism to encourage

*** Mobility of faculty between universities for teaching?**

The University has instituted a mechanism of long term leaves and a faculty is eligible to take five years of leave. This long leave could be availed for better opportunities either for national or international assignment. The University has had faculty exchange programme with STANFORD Business School, USA in the past. The University has also associations with ICTP Italy and University of Longbeach California. Respective departments leverage institutions in interrelated areas. There are a number of faculties who have been visiting many institutions in Malaysia, Thailand, Argentina, Brazil, USA, Europe.

*** Faculty exchange programmes with national and international bodies?**

As in the above the faculties continuously are involved in exchanges. The exchanges move out more to other institutions than faculties coming from other countries to this University.

If yes, how have these schemes helped in enriching the quality of the faculty?

2.5 Evaluation Process and Reforms

2.5.1. How does the University ensure that all the stakeholders are aware of the evaluation processes that are in place?

The University has a well designed evaluation process of students. Students and faculty members (of University and affiliated colleges) are aware of the marks bifurcation of different questions both in theory and practical exam. The overall marks distribution of different section of the syllabi and design of the question paper is also known of them. Notices regarding any changes in the above mentioned system are well circulated in advance so that the stakeholders are well aware in advance.

The process of moderation is in practice and all the question papers pass through this process before they are printed. The paper setters are required to submit a model answer papers before the start of evaluation process in order to maintain uniformity in the evaluation.

There are number of provisions like scrutiny etc. by which students can submit their representation regarding the marks obtained. The students are

also entitled to see their evaluated answer books and get the photocopies of them by paying a nominal fee of 300 rupees.

2.5.2. What are the important examination reforms initiated by the University and to what extent have they been implemented in the University departments and affiliated colleges? Cite a few examples which have positively impacted the examination management system.

The University has initiated various reforms in the examination system. Pass marks and grace marks rules have also been made more student-friendly and simpler. The University has provided partial autonomy to departments for paper-setting and evaluation in order that results are declared in time.

The most effective and student friendly reform has come after the implementation of RTI act. The University has now made students entitled to see their evaluated answer books and get the photocopies of them by paying a nominal fee of 300 Rupees. This single reform has improved the quality of evaluation process by making it completely transparent

2.5.3. What is the average time taken by the University for Declaration of examination results? In case of delay, what measures have been taken to address them? Indicate the mode / media adopted by the University for the publication of examination results (e.g. website, SMS, email, etc.).

The University results are generally declared within 45 day in the case of UG annual examinations (in UG classes results of all the colleges are included). The PG results of semester based examinations are declared in 30 days. The computerization of the exam and result related process has helped the University to improve the process and the results are also prepared in house by University computer centre and digital processing cell. The results are posted on the University website timely and also displayed on the departmental notice board.

2.5.4. How does the University ensure transparency in the evaluation process? What are the rigorous features introduced by the University to ensure confidentiality?

The University has adopted a system of central evaluation for both the UG and PG courses. The PG examination answer books are coded before evaluation to maintain confidentiality. In the case of UG evaluation a process of “Random Distribution” of answer books to evaluator is adopted. The examiners for practical and theory evaluation for every paper is been decided by the board of studies. The University also has a system of calling external examiner in the practical examinations.

A panel of examiners are proposed by board of studies of respective departments for evaluation of M. Phil. and Ph. D. thesis, The Vice Chancellor choose two examiners out of this panel to be appointed as examiner for the evaluation of thesis.

Moreover the University has now made students entitled to see their evaluated answer books and get the photocopies of them by paying a nominal fee of 300 Rupees. This single reform has improved the quality of evaluation process by making it completely transparent.

2.5.5. Does the University have an integrated examination platform for the following processes?

- * **Pre-examination processes – Time table generation, OMR, student list generation, invigilators, squads, attendance sheet, online payment gateway, etc.**
- * **Examination process – Examination material management, logistics, etc.**
- * **Post-examination process – Attendance capture, OMR-based exam result, auto processing, generic result processing, certification, etc.**

The University has a centralized examination department under direct control of a Controller of Examination. This department provides an integrated platform for all pre and post examination activities ranging from examination schedule generation to the declaration of the results.

2.5.6. Has the University introduced any reforms in its Ph.D. evaluation process?

A panel of examiners are proposed by board of studies of respective departments for evaluation of M. Phil. and Ph. D. thesis, The Vice Chancellor choose two examiners out of this panel to be appointed as examiner for the evaluation of thesis. If the reports are not positive then one more examiner is appointed to reevaluate the thesis. Out of those one of the examiners is invited for viva voce exam which is open to everybody.

2.5.7. Has the University created any provision for including the name of the college in the degree certificate?

With reference to evaluation and reforms, the University has always been keen in given the colleges a parity with the main campus academics. The University has created a College Development Council and the council is in the process of bringing in the reforms. As of now the colleges are given a title in the mark sheets of the students. Hence there is always a parity treatment with colleges.

2.5.8. What is the mechanism for redressal of grievances with reference to examinations?

There are number of provisions like scrutiny by thorough examination office which students can submit their representation regarding the marks obtained. The students are also entitled to see their evaluated answer books and get the photocopies of them by paying a nominal fee of 300 rupees. If there is a disparity in the marking system the students are redressed accordingly.

2.5.9. What efforts have been made by the University to streamline the operations at the Office of the Controller of Examinations? Mention any significant efforts which have improved the process and functioning of the examination division/section.

The University has gone in for massive computerization of examinations processes. The day the student enters the University, she/he is allotted a single enrolment number. The examinations system takes into consideration this enrolment number/ roll number and process the results accordingly. The process is completely computerized and the results are processed in house by the University Computer Centre. The results are posted on the University

Website for all the courses. The University in its efforts to upgrade the processes further has decided to post the admit card of the student online and the students will be able to print them on their own.

2.6. Student Performance and Learning Outcomes

2.6.1. Has the University articulated its graduate attributes? If so, how does it facilitate and monitor its implementation and outcome?

University life offers up opportunities to try new ventures for the students. We have a lot of activities for the students other than lecture, labs and libraries like two sports fields, NCC, Sanskritiki, Gymnasium, NSS, and Students Union. There are many other activities like poster competition, students clubs, e newsletters etc. and these activities are quite often managed by student clubs. The University ensures that these activities are properly managed. Teachers are involved to head these organizations.

2.6.2. Does the University have clearly stated learning outcomes for its academic programmes/departments? If yes, give details on how the students and staff are made aware of these?

The board of studies of departments meets regularly to discuss ways and means of assessing student learning. It always guides its faculty members on the design of the question paper. It also decides the contents as per the latest requirements in the respective subjects. The board also has the purview of guiding the faculty members on the process of evaluation for proper grading of the student's performance/result in accordance with his learning.

In the professional courses there is an internal assessment weightage of 30%. The internal assessment consists of continuous assessment, internal examination, class participations, project presentation and the likes.

2.6.3. How are the University's teaching, learning and assessment strategies structured to facilitate the achievement of the intended learning outcomes?

The University of Lucknow is the State University of Uttar Pradesh and the state is not very high on Per capita Income. The University's mandate is to serve the student in order to uplift the citizens of its state and in the same has extended its teaching activities through a number of colleges. The learning outcomes are always kept in mind and the University teaching is aligned with the needs of the environment. The University has a number of boards and bodies to look after the delivery of education. Each of the bodies like the Department Committee, Faculty Board and Academic Council have representation from various recognized sections as desired. All these activities help in the delivery of the above objectives.

2.6.4. How does the University collect and analyze data on student learning outcomes and use it to overcome the barriers to learning?

All the data of the results is computerized and the University analyses the data. The University also takes into consideration the performance of its students in various competitive examinations and accordingly uses these outcomes in furthering the academic processes like modifications in syllabi and evaluation.

2.6.5. What are the new technologies deployed by the University in enhancing student learning and evaluation and how does it seek to meet fresh/future challenges?

The University has come up with model classrooms. The University is introducing new experiments in Science Streams. It also includes field visits, group discussions, role plays, webinars, seminars, conference participations etc. Moot courts are a regular activity in Law Faculty courses.

Criterion III

Research, Consultancy and Extension

Liquid Crystal Research Lab

CRITERION III: RESEARCH, CONSULTANCY AND EXTENSION

3.1. Promotion of Research

3.1.1. Does the University have a Research Committee to monitor and address issues related to research? If yes, what is its composition? Mention a few recommendations which have been implemented and their impact.

The University has Departmental Research Degree Committees (DRC) in each subject to monitor and promotes research in the respective fields. The Head of Department is Chairperson of the committee. All the professors, two associate professors, two assistant professors and all the concerned supervisors are its members. Some time external members are also invited if required. These Committees meets annually or bi-annually to approve the topics of research in various subject areas.

3.1.2. What is the policy of the University to promote research in its affiliated / constituent colleges?

Yes the University has a policy to promote research in the colleges. The affiliated college teachers can collaborate with the labs and other research groupsof University and carry on their research work. They can also access the library and other resources of the University. They are invited to attend different conferences/ workshops/ seminars organized by the University. Till now the college teachers are not entitled for supervising Ph.D. thesis but the college development council formed by the University is trying to finalize the process by which the college teachers can also guide students.

3.1.3. What are the proactive mechanisms adopted by the University to facilitate the smooth implementation of research schemes/projects?

- * **advancing funds for sanctioned projects**
 - * **providing seed money**
 - * **simplification of procedures related to sanctions / purchases to be made by the investigators**
 - * **autonomy to the principal investigator/coordinator for utilizing overhead charges**
 - * **timely release of grants**
 - * **timely auditing**
 - * **submission of utilization certificate to the funding authorities**
- How is interdisciplinary research promoted?**

- * between/among different departments /schools of the University and
- * Collaboration with national/international institutes / industries.

Advancing funds for sanctioned projects: The University permits drawl of advance for the purchase of equipments, instruments, chemicals, glassware, etc. from the project funds.

Providing seed money: The University provides basic facilities for undertaking research.

Simplification of procedures related to sanctions / purchases to be made by the investigators out of project funds and research grants:

University purchase policy allows the purchase of items costing up to Rs. 20000/- without calling quotations, upto Rs. 100,000/- through a purchase committee, and at DGS&D/DS&D rates without any limit. Annual rate

contracts are finalized well in advance for all important items such as chemicals, glassware, etc.

Autonomy granted to the principal investigator/coordinator for utilizing overhead charges: The Principal Investigator has been delegated all administrative and financial powers to spend 50% of funds at his/ her own level. The University also considers additional funds from the overhead if the need is urgent.

Timely release of grants: The University administration monitors the proper and timely mobilization of funds allocated to the PIs.

Timely auditing: It is the responsibility of the account office to get the accounts audited by the govt. auditors, and records thereto are maintained by them.

Submission of utilization certificate to the funding authorities: Utilization certificates, duly audited and signed by the PI, Finance Officer and the Registrar, are regularly submitted to the funding agencies.

3.1.4. How is interdisciplinary research promoted?

- * **between/among different departments /schools of the University and**
- * **Collaboration with national/international institutes / industries.**

The interdisciplinary research and collaborations with national/international institutes / industries is encouraged by University. Teachers of various departments have freedom to independently and / or in collaboration with their other sister departments submit research project proposals to various funding agencies. The Department of Science and technology, Government of India has sanctioned funds for generating research facilities in science faculty. The University has had faculty exchange programme with Stanford Business School, USA in the past. The University has also associations with ICTP Italy and University of Longbeach California. Respective departments leverage institutions in interrelated areas. There are a number of faculties who have been visiting many institutions in Malaysia, Thailand, Argentina, Brazil, USA, Europe. In addition to that the various faculty members of the University are doing collaborative research with almost all the prominent national and international universities/ institutions

3.1.5. Give details of workshops/ training programmes/ sensitization programmes conducted by the University to promote a research culture on campus.

A list is attached as annexure 5. -

3.1.6. How does the University facilitate researchers of eminence to visit the campus as adjunct professors? What is the impact of such efforts on the research activities of the University?

The University promotes visit of eminent persons for delivering talks at various occasions and platforms. These deliberations play a major role in promoting research atmosphere in the campus.

3.1.7. What percentage of the total budget is earmarked for research? Give details of heads of expenditure, financial allocation and actual utilization.

Nearly 10% of the total budget is earmarked for research and academic development during the current financial year. Research grants are also received by the departments from external funding agencies such as UGC, CSIR, ISRO, ICSSR, DAE and DST.

3.1.8. In its budget, does the University earmark fund for promoting research in its affiliated colleges? If yes, provide details.

No

3.1.9. Does the University encourage research by awarding Post Doctoral Fellowships/Research Associateships? If yes, provide details like number of students registered, funding by the University and other sources.

Yes, many post doctoral fellow are working in different departments as D S Kothari fellow, Fast track fellowship and on other schemes.

3.1.10. What percentage of faculty has utilized the sabbatical leave for pursuit of higher research in premier institutions within the country and abroad? How does the University monitor the output of these scholars?

University records the information provided by the research in annual report of researcher.

3.1.11. Provide details of national and international conferences organized by the University highlighting the names of eminent scientists/scholars who participated in these events.

The list is attached as annexure- 5

3.2. Resource Mobilization for Research

3.2.1. What are the financial provisions made in the University budget for supporting students' research projects?

Not Yet

3.2.2. Has the University taken any special efforts to encourage its faculty to file for patents? If so, how many have been registered and accepted?

The University encourages its faculty to file patents on their research outcome.

The list is as follows-

(1) "DESIGN AND FABRICATION OF A NEW OPTO-ELECTRONIC REFRACTOMETER SENSOR AND ITS USE IN THE DETERMINATION OF ADULTERATION IN PETROL"

Pat. No.232779, Appl. No.968/DEL/1999

(2) "DESIGN AND FABRICATION OF A PRISM BASED OPTO-ELECTRONIC REFRACTOMETER WITH SENSITIVITIES APPROACHING THEIR THEORETICAL LIMITS OVER A WIDE RANGE REFRACTIVE INDICES"

Pat. No.242376, Appl. No.1100/DEL/2002

3.2.3. Provide the following details of ongoing research projects of faculty:

The list is attached as annexure- 6

3.2.4. Does the University have any projects sponsored by the industry / corporate houses? If yes, give details such as the name of the project, funding agency and grants received.

As given in 3.2.3

3.2.5. How many departments of the University have been recognized for their research activities by national / international agencies (UGC-SAP, CAS;

Department with Potential for Excellence; DST-FIST; DBT, ICSSR, ICHR, ICPR, etc.) and what is the quantum of assistance received? Mention any two significant outcomes or breakthroughs achieved by this recognition.

10	UGC – DRS
02	UGC – CAS
03	DST - FIST
01	PURSE DST
15	Centre of Excellence (State Govt.) PURSE Scheme

3.2.6. List details of

- a. research projects completed and grants received during the last four years (funded by National/International agencies).**
- b. Inter-institutional collaborative projects and grants received**
 - i) All India collaboration**
 - ii) International**

As given in annexure - 6

3.3. Research Facilities

3.3.1. What efforts have been made by the University to improve its infrastructure requirements to facilitate research? What strategies have been evolved to meet the needs of researchers in emerging disciplines?

The University encourages its faculty members to generate research facilities by writing research projects to the different agencies in the emerging fields. In addition to that University also approach different agencies/ organizations to generate research funding. The University has received grants under PURSE scheme of DST and the ONGC has also committed Rs. 10 crores grant for establishing a centre of interdisciplinary research.

3.3.2. Does the University have an Information Resource Centre to cater to the needs of researchers? If yes, provide details of the facility.

The University is having a leased line of 8 mbps bandwidth and almost every department has access to internet through this leased line. The various journals are available in the departments through INFLIBNET scheme of UGC. The central library also has a facility of 30 nodes for the research scholars and faculty members to access information resources available.

3.3.3. Does the University have a University Science Instrumentation Centre (USIC)? If yes, have the facilities been made available to research scholars? What is the funding allotted to USIC?

The University has a centralized computer center which looks after the need of the computer and networking related issues of the whole of the University. We have a mechanical and electronics workshop at the department of physics and a glass blowing unit at department of chemistry. Recently the ONGC has also committed Rs. 10 crores grant for establishing a centre of interdisciplinary research with advanced instruments.

3.3.4. Does the University provide residential facilities (with computer and internet facilities) for research scholars, post-doctoral fellows, research associates, summer fellows of various academies and visiting scientists

(national/international)?

The hostels of the University have computer with internet connection in the common room readily available to the inmates. We also have internet connectivity at its guest house.

3.3.5. Does the University have a specialized research centre/ workstation on-campus and off-campus to address the special challenges of research programmes?

The University has a plan to develop research development council to address all these issues.

3.3.6. Does the University have centres of national and international recognition/repute? Give a brief description of how these facilities are made use of by researchers from other laboratories.

Nearly all the departments of the science faculty have vibrant research groups with state of the art facilities for experimental work. The University also houses a computer cluster for data analysis. Many departments of social science and management have collaborative research with leading organization and corporate.

All these facilities are available to the researchers coming from to other institutions.

3.4. Research Publications and Awards

3.4.1. Does the University publish any research journal(s)? If yes, indicate the composition of the editorial board, editorial policies and state whether it/they is/are listed in any international database.

Few departments of the University and faculty members publish some research journals like Bhartiya Ganit Parishad Journal, Lucknow Journal of Science, Lucknow Journal of Social sciences etc.

3.4.2. Give details of publications by the faculty:

- * Number of papers published in peer reviewed journals (national / international) 2882
- * Monographs 22
- * Chapters in Books 155
- * Books edited 98
- * Books with ISBN with details of publishers 49
- * Number listed in International Database (For *e.g.* Web of Science, Scopus, Humanities International Complete, EBSCO host, etc.)
- * Citation Index – range / average
- * SNIP
- * SJR
- * Impact Factor – range / average (1- 5)
- * h-index more then 60

3.4.3. Give details of

- * **faculty serving on the editorial boards of national and international journals**
- * **faculty serving as members of steering committees of international conferences recognized by reputed organizations**

/ societies

Many faculty members of the faculty are actively involved as editorial members of various journals of national and international repute. Most of the senior faculty members are invited as speakers in national and international conferences and also nominated as member of organizing committee, steering committees.

3.4.4. Provide details of

- * **research awards received by the faculty and students**
- * **national and international recognition received by the faculty from reputed professional bodies and agencies**

Yes, a number of teachers from various University teaching departments have received recognition and awards from various national and international bodies, and they are active members of various academic/administrative bodies. Some of them are young scientist awards by Indian Science Congress, State government, Central government, BOYCAST fellowships, UGC research award, Hambolt Fellowship etc.

3.4.5. Indicate the average number of successful M.Phil. and Ph.D. scholars guided per faculty during the last four years. Does the University participate in *Shodhganga* by depositing the Ph.D. theses with INFLIBNET for electronic dissemination through open access?

2 per faculty member.

3.4.6. What is the official policy of the University to check malpractices and plagiarism in research? Mention the number of plagiarism cases reported and action taken.

The University is very sensitive about the issue of plagiarism in research. The University has a mechanism to deal such cases and it forms a committee of experts to look into cases of plagiarism in order to take appropriate decisions and action

3.4.7. Does the University promote interdisciplinary research? If yes, how many interdepartmental / interdisciplinary research projects have been undertaken and mention the number of departments involved in such endeavors?

The University encourages interdisciplinary research and collaborations with national/international institutes & industries, and therefore, the teachers of the same and different departments submit research projects to various funding agencies

3.4.8. Has the University instituted any research awards? If yes, list the awards.

As mentioned in 3.4.4 and details are given in departmental profiles.

3.4.9. What are the incentives given to the faculty for receiving state, national and international recognition for research contributions?

None at present.

3.5. Consultancy

3.5.1. What is the official policy of the University for Structured Consultancy? List a few important consultancies undertaken by the University during the last four years.

The faculty members of the University are normally involved in the honorary

consultancy to the various government and non government organisation. The faculty members of economics department and management department are consultants to the state planning commission, central government organisation, World Bank, United Nation programmes etc. and are invited to draft policy documents. The Institute of Development Studies has prepared State Development Report of Tripura for planning commission of India. The Institute of Development Studies also prepare a model budget every year. Department of Psychology through its project on AIDS awareness provide counselling as a free service.

The University is now working on a plan to provide consultancy services in the areas of data acquisition systems, entrepreneurship, market research, personality development, failure analysis, strategic planning, disaster management and other related area.

3.5.2. Does the University have a University-industry cell? If yes, what is its scope and range of activities?

The Department of Business Administration has a Industry Institute Partnership Cell and the University has also formulated a industry consultancy cell to create a better liaison with the University.

3.5.3. What is the mode of publicizing the expertise of the University for Consultancy Services? Which are the departments from whom consultancy has been sought?

Please take reference to 3.5.1 & 3.5.2.

3.5.4. How does the University utilize the expertise of its faculty with regard to consultancy services?

The University is organising seminars, workshops, open sessions, and interactive dialogue sessions as its social commitment for providing consultancy services to a wide spectrum of community groups. The Institute of Development Studies has prepared State Development Report of Tripura for planning commission of India.

Department of Psychology through its project on AIDS awareness provide counselling as a free service.

3.5.5. List the broad areas of consultancy services provided by the University and the revenue generated during the last four years.

The faculty members of the University are normally involved in the honorary consultancy to the various government and non government organisation. The University departments receive funds in the form of project to provide free consultancy to the various sections of the community. This adds up to the extra mural grant of the University.

3.6. Extension Activities and Institutional Social Responsibility (ISR)

3.6.1. How does the University sensitize its faculty and students on its Institutional Social Responsibilities? List the social outreach programmes which have created an impact on students' campus experience during the last four years.

Departments and IQAC of the University organize lectures and other activities on the days like AIDS awareness day, Earth Day, Anti tobacco day, science day etc to disseminate information and sensitize the students and faculty

members on the issues of global and national importance. The faculty is also actively involved in dissemination of knowledge and information not only in their respective academic interest areas, but also in areas of national and global importance.

In addition to that the NCC and NSS units of the University are very active and they provide a platform to sensitize the student for their social responsibility by organizing blood donation camps, tree plantation, organization of Youth Parliament at National level, many National Integration Campus, large scale literacy drive, youth festivals, construction of roads, Vande Mataram programme, communal harmony week, development of parks, nurseries, historical places, aids awareness programmes, pulse polio drop drive, Blood donation, Tree plantation, Anti Polythene drive, awareness on women issues, child labor, water prevention, etc. numerous contemporary problems are being taken up by NSS Cell in the continuous manner. (Detailed list is attached as annexure -7)

3.6.2. How does the University promote University-neighborhood network and student engagement, contributing to the holistic development of students and sustained community development?

The University promotes the neighbourhood network through its full-fledged NSS office. These volunteers run cleanliness and other social service campaigns in both rural and urban areas from time to time. The details of NSS enrolment and programme officers are as follows-

3.6.4. Give details of social surveys, research or extension work, if any, undertaken by the University to ensure social justice and empower the underprivileged and the most vulnerable sections of society?

The Women Study Centre and some of the departments of the University like social work, conduct workshops and seminars, and also hold awareness campaigns on domestic violence, gender sensitization, declining sex ratio, and legal education etc.

3.6.5. Does the University have a mechanism to track the students' involvement in various social movements / activities which promote citizenship roles?

The NSS coordinator and NCC officer of the University keep a record and track of students active in the social activities(refer to 3.6.1- 3.6.3). In addition to that the University has an Alumni Association. The outgoing students are encouraged to register as members of the Association. The conference of the Association is held annually. The records of the members of Association are maintained by its office. This association also promote engagement in the social movements and activities

3.6.6. Bearing in mind the objectives and expected outcomes of the extension activities organized by the University, how did they complement students' academic learning experience? Specify the values inculcated and skills learnt.

The University promotes the inculcation of moral and social values in the students to develop them as good human being and responsible citizens besides delivering subject knowledge for their career development. The University embeds in them the right type of values so that they can contribute to make India a better country to live. Their participation in these extension activities create positive development in them like tolerance, importance of team work, eradication of social evils such as female foeticide, honour killing, untouchability, etc. They also become sensitive towards environmental protection, national integration, social activity like blood donation etc. They also develop a temperament for general welfare of the society and deprived class.

3.6.7. How does the University ensure the involvement of the community in its outreach activities and contribute to community development? Give details of the initiatives of the University which have encouraged community participation in its activities.

The University contribution in the social and community service is well reflected in the activities like Blood Donation, Tree Plantation, Environment Day rally, AIDS Awareness Day Rally, National Literacy Day, Poster Competition & Slogan Writing, Sanitation Campaign, Cornea Donation Awareness Camp, Election Duty, Gomti River Cleaning, Cycle Rally to mark special days, formation of human chain etc. the University is also planning to encourage greater community participation in its activities by organizing open day.

3.6.8. Give details of awards received by the institution for extension activities and/contributions to social/community development during the last four years.

Several awards and honors are received by NCC, NSS officers and students. They include best NCC officer awarded by UP directorate of NCC, 2011 and two Vivekananda Award for community services to NSS officers.

3.7. Collaboration

3.7.1. How has the University's collaboration with other agencies impacted the visibility, identity and diversity of activities on campus? To what extent has the University benefitted academically and financially because of collaborations?

Almost all the University teaching departments have research collaborations with every national institutions and University of eminence. The University also have collaboration with Long beach University, California under student exchange programme, Federation agreement with International Centre for Theoretical Physics, research collaborations with Korean University in 2007 in the areas of economics, management & development studies, MOU with Urban Centre of the University for support and training to urban local bodies, UNDP has provided Grant to the urban centre. The University also has linkages with the United Nations, The World Bank, International Labor Organization, USAID, State Planning Commission, Planning Commission, Ministry of Finance, IIM–Lucknow & Bangaluru, SGPGI & CSMMU, Lucknow etc. and 15 collaborations with the international institutions/universities.

In addition to these the individual faculty members also have collaboration and linkage with eminent research groups.

3.7.2. Mention specific examples of how these linkages promote curriculum development.

The linkages with the academic and research institutions enable the faculty to keep abreast with the latest developments in their respective areas of interest/specializations. It helps the faculty to benchmark their course curricula with those of the other leading institutions.

Internship: The linkages with the academic and research institutions enable the students to complete their projects and provide opportunities to the students of the University to work with leading scientists in their respective areas of research interest.

On-the-job training: In some cases provision of on-the-job training is incorporated in linkages with the institutions with which University has

entered into academic and research collaborations. All professional courses offered by the University have in-built element of on-the-job training.

Faculty exchange and development: The collaborations and linkages help in generation and dissemination of knowledge both qualitatively and quantitatively. All the current institutional linkages with the University primarily entail collaborative research. Accordingly, the faculty comes across newer ideas and techniques to improve their teaching skills and research endeavours.

Research: Faculty visiting advanced labs and research institutions gets exposure to the latest research techniques and trends. It help the faculty members to do better research work and access to latest resources, research tools and instruments of research. It has also increased the number of interdisciplinary research going on in the campus.

Publications: The publication profile of the University faculty has improved qualitatively and quantitatively by the linkages developed with the peer institutions. These have helped the researchers to get access on sophisticated equipments, statistical tools, database etc., which otherwise may not have been possible. This interaction has produced quality research, resulting in research publications finding space in the leading international journals.

Consultancy: This is one area which still has a lot of scope and could be developed in future.

Extension activities: The extension activities have been improved broadly by the linkages established. As per regional and social requirements, the University faculty collaborates with NGOs and other institutions for creating awareness on various issues of social concern, as also for providing vocational training.

Student placement: By the linkages developed by University departments they have established direct contact with the prospective employers. Therefore students on passing out their respective courses of study are able to find gainful employment in reputed institutions/organizations on their own. Departments offering professional programmes have established linkages with the industry.

- 3.7.3. **Has the University signed any Mous with institutions of national/international importance/other universities/ industries/corporate houses etc.? If yes, how have they enhanced the research and development activities of the University?**

Capacity Building: frequent organization of seminars, conferences, corporate interactions, and guest lecturers has improved the University-Industry interface. This has resulted in increased exposure to new knowledge and skills in the emerging areas specific to different courses of study. Corporate interactions have enhanced dynamic thinking and idea generation.

- Faculty makes frequent use of electronic gadgets and other ICT tools in the classroom delivery thus replacing the traditional mode of teaching to the advantage of improved learning. There is now more deliberations through presentations, interactive sessions, quizzes and other extra-mural activities. These practices have greatly improved quality and overall learning environment.

- The quality of research at doctoral level has been improved by the introduction of entrance test and compulsory pre-registration course work.

- Association of experts from other specialized institutions with the Boards of Studies / Departmental Research Committees / Faculties / Academic Council has helped improve the social relevance of courses of study.

- Representation of members of different disadvantageous groups and setting up of a Equal Opportunity Cell has ensured equal opportunity for everyone.

- Each faculty member is required to fill up a Self Appraisal Form which reports the overall research work and other academic work done during a given academic session.

- Overall strengthening of infrastructure, raising of new teaching blocks to provide required space for expansion, purchase of needed equipments for laboratories, recruitment of new faculty, etc. have started showing results in terms of larger output and better quality research publications, more research projects awarded, and better placements of students.

- The greater element of autonomy given to the departments in their working has resulted in timely evaluation and declaration of examination results and improved student's satisfaction.

7.2. Best Practices

7.3.1. Give details of any two best practices which have contributed to better academic and administrative functioning of the University.

FIRST BEST PRACTICE:

Title of the Practice: Transparent Academic processes (Admission, result Declaration etc) through ICT

Objectives: The University has used Information and communication technologies (ICT) for making admission and examination system efficient and transparent. ICT is also used to augment learning resources for advancement of learning, teaching, and research. The use of ICT is also helpful to enhance administrative efficiency and transparency.

Context: The powerful and potential tool of ICT has changed the face of the world. Use of ICT has enhanced access to knowledge resources exponentially, which otherwise was very limited earlier. It has also affected the pedagogy and knowledge delivery very effective and sharpened research techniques and therefore tremendously enhanced administrative efficiency and transparency.

Practice: The University considers ICT infrastructure as an important component, and is committed to ensure its equitable access to students, teachers and non-teaching staff for learning, teaching, research, and administrative activities. The University is augmenting its ICT infrastructure to match its growing academic and administrative needs. The University has used the ICT for the process of admission and examination. The admissions process is now totally online and anybody in the world, even the students sitting in remote places are now not required coming personally to complete the process. They can fill the form online and submit the fee even by internet. Then the merit list is displayed on the website and other formalities can be completed. The verification of various certificate is also online and this leads to a completely transparent and efficient system. Similarly the results preparation and their display on the website is also become very efficient and transparent by the use of ICT. Similarly the University is also using ICT resources for campus networking, E governance, virtual classroom etc.

Evidence of Success: The successful impact of ICT is quite clear from the timely declaration of results and online admission process this year. The online admission has drastically reduced the students rush on the campus. This transparent system has also ensured lesser number of admission related litigation as compared to previous years.

Use of ICT in classroom teaching in terms of effective knowledge delivery has also been very successful.

Problems & Resources: Shortage of manpower skilled in the use of the ICT and financial resources were the major constraints. Shortage of skilled manpower has been overcome by organizing training programmes in ICT by different University bodies. The University, over a period of time, has developed good ICT infrastructure out of its own funds and financial assistance provided by UGC and other funding agencies.

Second Best Practice:

Title of the practice- Participative Curriculum Development System-

Objectives of the Practice – The objective of this practice is to constantly upgrade the University curriculum and syllabus and keep it up to the mark with the latest trends in the subjects and need of applicability in the field.

The Context – The curriculum of any University is the best reflection of its academic strength. It has to be upgraded constantly and the components related to the applicability of knowledge on actual basis must be incorporated into it. It is only possible by the interactive participation of the various stakeholders.

The Practice - The University follows a well defined method of curriculum development. The University takes in to consideration the various stakeholders involved in receiving and imparting education as well as the society at large. The University interacts with the industry and the stakeholders in the working environment to assess the requirements of specialized courses. The courses take into consideration the inputs and are developed accordingly. The courses are updated on the same inputs. The above process is facilitated in addition to regulatory requirements as imposed by UGC and other bodies in the form of UGC Model Curriculums etc.

Evidence of Success – This particular practice of participatory development of curriculum has been very successful in evolving the syllabus of all the streams and keeps the University at par with the other top academic institutions. In addition to that the participation of external experts also keeps our faculty at par with level of knowledge and demand of the market.. The change in the curriculum is initiated from the environmental inputs which assure that the curriculum is based on market demand. The various stakeholders that we involve are executives from the government, non government organizations, private sector, businessmen, social activists, alumni, students as well as courses instituted in other educational institutions. The syllabus of the University Courses are designed keeping in mind examinations like National Eligibility Test of UGC/ CSIR, SLET, JEST, GATE and other competitive examinations. This ensures employability of the students.

Innovation: The courses of the University are integrated with the industry and environment. The students are continuously involved in various forms of market programmes and practices and students alongwith teachers understand the latest needs of the employers. This helps in innovating new areas. Teachers are engaged in continuous innovative programmes.

Problems Encountered and Resources Required – Some time it is difficult to arrange participation of external members in the regular meetings of the statutory academic bodies due to lack of their availability. Financial constraints also sometime create difficulty to invite renowned experts. But the University overcome these problems by its own resources and the resources provided by other agencies and successfully continuing the practice of participatory curriculum development.

Annexure 1: Assessment Report

NAAC for quality and excellence in Higher Education

Assessment Report for Institutional Accreditation of Lucknow University, Lucknow, Uttar Pradesh

Section 1: Preface

Lucknow University, established in 1921, is one of the oldest universities of north India and occupies a prominent position in imparting higher education in this region. It is carved out of the Canning College. It came under the preview of Uttar Pradesh Universities Act in 1973. Starting with about 11 departments initially, the University has now 9 faculties, 34 P.G. Departments, 32 associated colleges, 3 constituent colleges (Medical college, Ayurvedic college and Fine Arts college), 10 P.G. training Centers and has recognised 4 Research Centres. The University is spread over two campuses of 165 acres of land (main campus of 90 acres and satellite campus of 75 acres). It is an urban University with its jurisdiction restricted to Lucknow city.

The University has statutory bodies like Executive Council, Academic Council, Finance Committee, Board of Studies and other statutory bodies. The administrative set up of the University consists of the Vice-Chancellor, Pro-Vice-Chancellor, Deans of Faculties, Proctor, Dean of Students Welfare, Registrar, Controller of Examinations, Finance Officer, Director of IPPR, Director Development and Planning Board, Superintendent of Works and Heads of Departments.

Over the years many teachers / students of this University have been honoured with decorations like; Padmavibhusan [2], Padmabhusan [4], Padmashri [17] S.S Bhatnagar award, & Commonwealth awards and fellowships of other National and International organisations.

NAAC for quality and excellence in Higher Education

within an average span of 5-8 years. Approximates 10% to 20% of the members of the BOS are from outside the University. University takes ordinarily one year to introduce a new Programme / Course after it is conceptualized.

The self-financing courses have brought innovation in curriculum design and encouraged inter-disciplinary collaboration. Certain degree of academic flexibility with regard to course option exists. The programme option does not encourage horizontal mobility.

Criterion II: Teaching – Learning and Evaluation

Admission to the various programmes are done through counseling. Students to management, education and Law are admitted through special Entrance Tests. At the Under-graduate, level admission is done on the basis of academic records at the qualifying examination. Total number of working days of the university is 282 days and the total number of teaching days is 180-190. Ratio of teaching staff (375 permanent and 70 part time teachers) to non teaching staff (800) is nearly 1:2 and the ratio of students to teachers is very high. Over 85% of the faculties have at least one step higher qualification than the mandatory minimum level. 90% of the classes are taught by full time regular faculties. In self-financing courses bulk of the teaching is carried out by the guest faculty. The teaching and learning process in the class room is mostly traditional. More use of modern teaching techniques and computers in class room teaching is desirable.

The University conducts examination for over one-lack students and declares more than 180 results annually. For professional courses semester system of teaching and examination is followed. System of evaluation is primarily door evaluation by a single examiner. Occasionally central valuation is conducted. There is no provision for reevaluation. After a span of two decades, the

NAAC for quality and excellence in Higher Education

University was able to conduct academic programmes, examinations and declare the results in time. Question paper pattern needs improvement. Selection of examiners and paper setters is done on the recommendation of Board of Studies.

The teachers have been encouraged to attend seminar orientation and refresher courses. It may be beneficial to obtain feed back from students to improve teaching learning process.

The University has just introduced the Unit-Based curriculum by splitting the entire syllabus into units and asking the candidates to answer questions from each unit. Revaluation and re-examinations are not in vogue though re-totaling of marks and Back paper provision exists.

Criterion III: Research, Consultancy & Extension

The University has a strong research base. Approximately 90% of the faculty are actively involved in research. Four Departments are participating in COSSIST Program and 10 Departments are recognized as DSA / DRS / SAP Departments of UGC. Major research facilities established include in the areas of geology, economics, archeology, genetics, virology, plant nutrition, coordination chemistry, medicinal chemistry, lasers, macromolecular physics, solid state physics, optics, population and demographic research, development studies, marketing and fiscal management.

During the last 3 years teachers of the University have published more than 1452 research papers in national and internal journals (National-1186 & International-266). More than 75 teachers have received National / International awards & recognitions for their research works.

NAAC *for quality and excellence in Higher Education*

The total out-lay of the ongoing research projects undertaken by the teachers, mostly in science Departments exceeds Rs. 7 crores. These are funded by DST, CSIR, ICAR, UGC etc. Research is monitored by a separate Research Committee.

During the period from 1998-2000, 365 Ph.D degrees have been awarded. About 400 students are enrolled for Ph.D programme. University doesn't publicize the expertise of the faculties although there is a PRO. Hence consultancy has not been institutionalized though some teachers undertake consultancy assignments at individual level. There is no university-industry interaction centre. Recently, however the University has entered into an understanding with CII to publicize the expertise and infrastructural facilities available among the member industries, and to facilitate placement.

Much of the extension work is organized by the N.S.S., Dept of Social Work and the Departments of Education. N.S.S. undertakes community welfare programmes in the slums of Lucknow on issues like Environmental conservation, AIDS awareness, Literacy, Communal harmony, National integration, Hepatitis-B camps, etc. The University has also entered into an understanding with CII & Charities Aid Foundations (U.K) for ensuring a better teaching-learning environment in 154 Government Primary schools of Lucknow. The University has also an Adult Continuing Education Centre. Dept of Social Work has been recognized by the Social Welfare Board, New Delhi, as a Nodal Agency for identifying NGOs for funding and for monitoring the functioning and evaluation of the programmes of such NGOs. The Department is also entrusted with the responsibility of organizing Orientation training and Refresher programmes for family counselors in U.P.

Criterion IV: Infrastructure and Learning Resources

University has two campuses, the main campus over an area of 90 acres and the satellite campus over an area of 75 acres of land. The University has good general facilities with several ancient buildings to accommodate various departments, library, central facilities, sports and physical education facilities. Besides UGC and State Government funding, University is also contemplating to increase its infrastructure from its own resources generated through self-financing programmes and donations. A Works Department headed by a Superintendent of works and supported by an Executive Engineer and supporting staff take care of the University infrastructure. The maintenance cost is primarily met by the University from its own resources besides the occasional maintenance grants received from the State Govt.

Central Library has a large collection of books i.e. 5.25 lacs, 10000 theses, & 4000 manuscripts & subscribes to nearly 398 journals annually. An Advisory Committee monitors functioning of the Library. The facilities available in the Central library are Inter -Library exchange of books, INFLIBNET, Book Bank, reprography, Computers, Internet, Audio & Video cassettes. Cooperative lending library with one lac books is also active. The Library opens from 9.00 AM to 5.00 PM.

Central computer center has above 80 computers with various software packages, multimedia facility and training facility for Undergraduate students. They also conduct PG diploma course. The Centre is opens from 9.00 a.m. to 8.00 p.m. In addition there are around 250 computers available in the departments.

The University Health Centre provides both Allopathic as well as Homeopathic treatments. The health centre has 5 doctors with adequate

NAAC *for quality and excellence in Higher Education*

paramedical staff. Adequate health care facilities are provided to the employees. The facilities for Naturopathy and Yoga are also made available to the employees and students.

In sports and physical education, the infrastructural facilities available are a gymnasium, playgrounds and kits for Cricket, Lawn tennis, Badminton, Football, Hockey, Volley ball and Basket ball. Other facilities are swimming, cycling & rowing. Sports are encouraged by giving incentive to students who represent the University in National & Inter-national events. Students participating in International events are given direct admission. Due weightage is given to participants of national events. Last Year University bagged 1 gold, 3 silver & 3 bronzes at the National level.

The University has 10 boys' hostels & 2 girls' hostels to accommodate nearly 2500 students. Hostels are provided with facilities like hostel library, T.V., phone. The other activities in the hostels include reading room, indoor & outdoor games, conduct of competitions, cultural functions etc.

Criterion V: Student Support and Progression

The University has an enrollment of nearly 30,000 students in its programmes. Students are mostly from within the state of Uttar Pradesh. A fairly good number of foreign students and NRI students study in the University.

The dropout rate is between 8% to 11% at UG and between 8% to 10% at PG level. Similarly the success rate is 80% in UG and 85% in PG classes. The rate of first class passing out of the University is 11% at UG level and 9% at PG level.

NAAC for quality and excellence in Higher Education

The University has distinguished alumni who have brought laurels. Good number of alumni are in ONGC at Dehraudun where they have an alumni association. University is trying to strengthen the alumni association in a more coordinated and effective manner.

Students are provided with financial aid from Central Govt., State Govt. and other scholarships such as Bursary scholarships, Alpasankhyak loan scholarships, and scholarships instituted through endowments. Last year about 3200 students were provided with financial aids. University has an Information and employment guidance bureau providing information to students on various scholarships, competitive examinations and placement opportunities.

At the time of admission concerned Faculties conduct academic counseling of the students. Counseling goes on through out the year. To promote career and personality development, the University has entered into an understanding with HLS (Human Learning Systems) India, which conducts career counseling and personality development workshops for the students. It is noteworthy that HLS India conducts such workshops free of cost as an "Alumni contribution" to the University.

Criterion VI: Organisation and Management

The University is managed as per the U.P. Universities Act and Statute. The organizational structure is Chancellor, Vice-Chancellor, Pro-Vice-Chancellor, Executive Council, The Court & Academic council. Other supporting bodies are Finance committee, Development Planning Board, Proctorial Board, Admission Committee, Examination Committee.

For efficient functioning, University has introduced automation in admission, Library, Examination and some segments of administration. Administration is

NAAC for quality and excellence in Higher Education

regulated as per the Act and the Statutes. Reservation policy is strictly followed. Confidential report of the administrative staff is maintained. Six cases of violation of code of conduct were recorded during the last three years.

Besides the usual state Govt. & Central Government grants (UGC) the University generates large sums from its self-financing courses (13.63 crores) and donations (14.90 lacs). Interest accrued from research projects (11.22 crores) is an additional grant generated by the University. University efforts to revise the fees in consultation with the students and Students' Union effecting an increase of fees by 300 to 500% is a welcome step towards augmenting the revenue of the institution. There is an internal audit mechanism.

Criterion VII: Healthy Practices

2 Eligibility Rules for Admission in the Faculties of Arts, Science, Commerce and Education to the M.Phil./Post-Graduate Courses (except Professional Courses)

- 2.1 A candidate will be eligible for Admission to Postgraduate Courses if he/she has completed B.A./B.Sc./B.Com. with 10+2+3 system from any University recognized by University Grants Commission and has secured a minimum 45% of marks at graduate level. However for SC/ST candidates minimum pass percentage of marks will be 40%. For admission to LL.M. the minimum requirement is 50%(48% for SC/ST) in LL.B. examination.
- 2.2 The admission to the Post-Graduate Courses in the faculties of Arts, Science, Commerce and Education shall be on the basis of merit of marks obtained in the Graduation/Qualifying Examination.
- 2.3 The percentage shall be calculated upto three figures after decimal point.
- 2.4 Candidate shall be entitled to weightage (if any) on the merit index.
- 2.5 Of the total number of seats in any subject, 80% candidates passing the graduate/qualifying examination from the Lucknow University shall be admitted.

- 2.6 For the remaining 20% seats, graduates from the Universities other than Lucknow University shall be admitted, provided that the merit of the candidates of other Universities is not below the merit of the last candidate admitted from Lucknow University. The seats remaining vacant under category (6), shall also be filled up with the graduate of Lucknow University in order of merit index. The candidate who after passing his/her LL.B. examination from the other University, has been pursuing any other course in Lucknow University shall not be treated as graduate of Lucknow University for admission in LL.M.
- 2.7 In case where number of available seats is less and candidates secure same marks (percent) at the graduate/qualifying level examination, the admission of the candidate will be based upon securing higher marks in the relevant subject of the final year of the qualifying examination.
- 2.8 A candidate's choice of the subject in M.A./M.Sc./M.Com. shall be restricted to one of the subjects taken in the part-III examination for the Bachelor's Degree.
- 2.9 In the Faculty of Arts the requirement of subject of study at graduate level for admission to various subjects (except Mathematics and Statistics) shall stand waived off in case of candidate having obtained 55% or more marks at qualifying examination. Admission of such candidates in any subject shall not exceed 10% of the total number of seats. The graduate of the Faculty of Arts will be eligible for admission to M.A. I in Mathematics and Statistics. Science Graduates shall not be eligible for admission to M.A. I in Mathematics and Statistics.
- 2.10 Those candidates who have passed the graduate degree examination of this University and passed their Part I or Part II Examination from other Universities, their merit shall be prepared on the basis of marks obtained in the BA part III/qualifying examination of Lucknow University.
- 2.11 A candidate can not pursue two Postgraduate courses simultaneously.
- 2.12 A candidate who has already completed Postgraduate course in one subject will not be eligible for the second Postgraduate course except professional course.
- 2.13 Final Merit list shall be available in the concerned Departments and same will be available on the University website.

ORDINANCE FOR UNDERGRADUATE ADMISSION

IMPORTANT INSTRUCTIONS

- 1.1 The instructions related to the online admissions are given here, which are authorized under the Act, Ordinances, Rules & Regulations of the University.
- 1.2 Gap Certificate: If there is gap in taking admission after Intermediate, then a certificate by the Notary on Rs. 10.00 Stamp paper has to be submitted at the time of admission.
- 1.3 If you want benefit of reservation or zero fees, then give the details of the related certificates during the filling of the Online application form. No candidate will get the permission for any change in weightage or reservation after the form is submitted.
- 1.4 The detailed information of the admission procedure will be displayed on the University website. Candidates are advised to check for updates regularly on the University website.
- 1.5 After declaration of the merit list a copy of the list will be displayed on the University website. The candidate himself/herself will find his/her merit number from the merit list. The merit list will not be published in the newspaper.
- 1.6 The Scheduled Castes/ Scheduled Tribes and Other Backward Classes candidates originally belonging to Uttar Pradesh will be given the benefit of reservation. Scheduled Castes/ Scheduled Tribes and Other Backward Classes candidates of other states will be treated as general.
- 1.7 All fees deposited at the time of registration will not be refunded under any circumstances.
- 1.8 As directed by the Hon'ble Supreme Court, action will be taken against the students who indulge in incidence like ragging during studentship.
- 1.9 Reservation and income certificates shall be verified on internet.

2 GENERAL INFORMATIONS

- 2.1 The University reserves the right to change or amend the admission rules at any time without prior notification.
- 2.2 If any candidate gets admission on the basis of false information/improper means or on the basis of false marksheet his/her admission will be treated cancelled from the beginning and legal action will be taken against him/her under IPC.
- 2.3 Order of Merit will be determined as follows:-
- 2.3.1 In the Faculties of Arts, Commerce Law, and Science, Under Graduate students for the Session 2013-14 shall be admitted on the basis of marks obtained in the qualifying examinations.

- 2.3.2 In order to remove disparity that exists between the marks awarded to the candidates by different examining authorities/boards in the country, a system of "Normalization" will be adopted. Under the normalization procedure statistically the first rank student of one board will be equal to that of the first rank of the other board. As such the first rank student of each board will be considered to have obtained 100% marks and the aggregate marks of all other students from that board will be normalized with reference to the aggregate marks obtained by the first rank student of the board. For example, if the aggregate marks of the first rank student of a board is 94%, his normalized aggregate is 100% and if a student from the same board has obtained 88% marks, then his normalized percentage will be $(88 \times 100) / 94 = 93.61\%$. The University shall procure on its own the percentage of marks obtained by first rank student of the Central Board of Secondary Education, Council of Indian School Certificate and U.P. Board. All other Boards will be treated at par with I.S.C. for the purpose of normalization of marks.
- 2.3.3 The percentage shall be calculated up to three figures after decimal point.
- 2.4 If two or more candidates have secured equivalent marks/rank in the merit Index, then the merit for admission will be determined as follows:-
- 2.4.1 If the Intermediate marks are same in such cases first preference will be given to the candidate who secures higher percentage of marks at High School or equivalent examination.
- 2.4.2 If the marks obtained at the Intermediate and High School or equivalent examination are the same, then in that case the older candidate will be given priority.
- 2.5 The candidate shall be entitled to weightages (if any) on the merit.
- 2.6 The reservation shall be given as permissible under the Uttar Pradesh Government / University Rules.
- 2.7 In case of students seeking admission to the Faculty of Law, he/she shall not be allowed to simultaneously register for a Law degree program with any other graduate or post graduate degree/diploma or even a certificate course run by the University of Lucknow or any other University or an Institute for academic or professional learning.
- 2.8 University reserves the right to cancel any admission at any stage.
- 2.9 If the candidate has passed out from Hindi Sahitya Sammelan, Prayag, Allahabad or Nadwa College, Lucknow and has not passed Intermediate with English language then he/she will not be eligible for admission.
- 2.10 All foreign students seeking admission in the University are compulsorily required to have knowledge of Hindi or English language. Medium of study in University is Hindi and English.
- 2.11 Weightage: The final merit of the candidates bearing the Outstanding sports person/ N.C.C "B" certificate will be determined in the merit list by adding 5% of the total marks obtained by him/her in the combined merit.
- 2.12 For admission to the Faculty of Law
- 2.12.1 For admission to L.L.B. (Hons.) course, the candidates belonging to the General category and OBC should not be above 20 years of age as on 1st July of the year of the admission. However SC/ST candidates should not be above 22 years of age.
- 2.12.2 For the students taking admission to the L.L.B. (Hons.) course there shall be no lateral entry on the plea of graduation in any subject or exit by way of awarding a degree splitting the course at any intermediary stage of the course.
- 2.12.3 The relevant UGC/BCI rules (as amended from time to time) shall be binding.

- 2.13 All disputes regarding interpretation of provision of Ordinance related to the admission shall be referred to the Vice-Chancellor/Admission Committee of University of Lucknow and whose decision shall be final.
- 2.14 All the legal matters pertaining to the admission shall be subject to Lucknow Judicature only.

Lucknow University, LucknowAnnexure-1Our Notes on Accounts on Balance Sheet As at 31st March 2010 & Income & Expenditure A/C & Receipt & Payment Accounts for the year ended on the same date.

- 1 The Accounts of university has been prepared on the basis of Single entry System. However we strongly feel & recommend that the accounts should be prepared on the basis of Double entry system which is more logical & practical looking into the size & magnitude of the transactions of the University.
- 2 The accounts of the University are generally maintained on Cash basis except various advances given to departments, agencies & employees which were adjusted in the expenditure on the basis of submission of final bills by them.
- 3 The provisions of outstanding expenses are not made in the balance sheet as at 31.03.2010 which is in accordance with the university policy of 'Payments as per budget'.
- 4 The University has generally maintained separate Cash Book for different Funds but the Income/ Receipt side are either not filled or filled incorrectly. Hence these figures have been generally ignored & not considered for the preparation of financial statements. However the Bank Deposit book maintained by the Cashier office has been taken as base for Receipt side. Further several other deposits, which were not mentioned in bank book but duly supported by proper deposit slips & other deposit proofs, were considered, to the extent possible, on the basis of best judgment.
- 5 Page no.515 & 516 is missing in the Deposit register of old campus. As per software report, receipt of 12/08/09 and 13/08/09 (expected on page no 515 and 516) were of Rs. 55.61 Lacs. Hence the total Income of Rs.55.61 Lacs is considered as income in the year 2009-10. Due to non-availability of pages of Deposit register, correct bank account, where these receipts were deposited, could not be ascertained; hence the same has been shown in Suspense account.
- 6 The cashbook/bank deposit book does not give details of head wise income. Although the head wise income/ receipt are maintained in separate software, the details available in the reports generated/ produced before us were not sufficient to consider the figures for preparation of financial Statement.
- 7 The Expenditure / Payment side of the cash book has been considered for preparation of various financial statements. However, in the cash book, the expenditures have not been categorized in between the Revenue Expenditure & Capital nature expenditure. Moreover several heads of account, mentioned in the expenditure side of Cash book are incomplete. In the light of the above the categorization of Head of accounts of Expenditure & segregation of expenditure in between Revenue & Capital nature, have been made, to the extent possible, on the basis of best judgment.

- 8 The bank balance shown in the different Receipt & payment a/c's & Balance sheet as at 31.03.2010 are subject to pending entries in Bank reconciliation statement as on 31.03.2010.
- 9 The following transactions were generally not recorded in the concerned Cash books/ Bank Deposit book :-
- Funds transferred from one bank a/c to another bank a/c's
 - Bank Charges & Bank Interests applied/ paid by the bank in the respective a/c's
 - Amount Directly deposited by the employees & students in the bank a/c's of University
 - Cheques returned by bank / Represented/ Re deposited in bank for clearing
 - RTGS transfers
- 10 The grant received from UP Government, Central Institutions, UGC & CSIR has been taken from the different grant registers been maintained by the university.
- 11 The separate Dead stock/ fixed assets register were not maintained by the University. Hence the opening balance of the different assets has been taken on the basis of historical cost shown in the last year's balance sheet.
Moreover the assets purchased during the year were not separately mentioned in the concerned cash books. Hence, as per the past practice, the additions made during the year 2009-10 in the furniture, Land & Building, Equipments, Books, Vehicles & other assets have been made on the basis of explanations, Information & best assessment of the concerned cash books. Due to this the possibility of showing few capital expenditures in Revenue expenditure can not be ruled out. We strongly feel that the physical verification of fixed assets including Books of library is required.
- 12 The Value of Land & building has been taken on the basis of historical cost as shown in the last year's balance sheet as at 31.03.2009. No additions were made in the land & building during the year. In this reference it may be noted that several advances amounting to Rs 1191.25 Lacs in General & Other funds has been given to different agencies for construction of different buildings of the university. However in absence of any completion certificate from these agencies, the same are considered to be under construction & not capitalized during the year.
- 13 The Investments in Fixed deposits were not properly accounted by the University. No separate register /working for FDR's were maintained .However the amounts of FDR were taken on the basis of Fixed Deposit Receipts produced before us.
- 14 As per the practice of university, the advances given to different departments & employees, pending adjustments, are shown in the Balance sheet as advances. The adjustments of advances are not accounted in the Cash book. Hence the adjustments have been shown directly in the Income & expenditure a/c on the basis of D&C registers of different fund. However in absence of proper maintenance of cash book, the booking of few advances directly in the expenditure head could not be ruled out.
The old advances' still pending for adjustments needs immediate attention & adjustments.
- 15 The Companies Act 1956 Or Income tax Act 1961 are not applicable on university, hence depreciation suggested in these Act's are not provided for in the financial statements.

16 Grant of Rs.1 crore received through State Govt. dated 31.03.10 which has been directly deposited to A/c no.2481 during 2010-11. Hence the same has not been considered in the grants of the year 2009-10.

17 The separate Balance sheet, Income & Expenditure Account & Receipt & Payments Account of the Art College & self finance courses are also prepared & consolidated with the other funds of the university as on 31.03.2010. These statements are also subject to all the notes & references mentioned above in note no 1 to 16.

In addition to above the Balance sheet, Income & Expenditure Account & Receipt & Payments Account as on 31.03.2010 is prepared by us on the basis of information, clarifications & explanations given to us & records produced before us.

Strengths	<p>1. Space for expansion: As shall be clear from VI(1) above, the Department is facing a shortage of lecture halls/rooms with only 06 lecture halls/ rooms for teaching 17 sections (10 at UG level, 07 at PG level).</p> <p>2. In recent years, the work of conducting PG examinations and evaluation of A/Bs has been entrusted to the respective departments. Our Department has no space available for carrying out confidential work related to the PG semester examinations.</p> <p>3. Human Resource: The Department has the largest number of students (with Sociology and Hindi), but has only 14 teachers, one class III employee and four class IV employees. We therefore, require additional human resource, as under:</p> <p>(a) Faculty: 02 assistant professors (one specializing in epigraphy and palaeography; one specializing in art and architecture).</p> <p>(b) Non-teaching staff: 01 office assistant 01 surveyor/draftsman 01 library assistant 01 lab assistant 01 driver</p> <p>4. Vehicle: The department has done a lot of field work in recent years but undertaking more extensive field work would become easier with the availability of a vehicle.</p> <p>5. Audio-visual room: The department urgently requires a well equipped, air conditioned audio-visual room to organize workshops, seminars, conferences, lectures, etc. Room no. 40 may be developed as such after getting the estimate prepared by a competent agency, and making funds available from some source.</p>

52. Future plans of the department.

Activities planned in the future:

1. Seminar: The department has sent a proposal to the State Government for financial assistance to organize a three days National Seminar on Science and Technology in Ancient India in the session 2012-13.
2. R.K. Mookerji Endowment Lectures: The department also plans to organize the Radha Kumud Mookerji Endowment lectures in the session 2012-13. These lectures should be organized every two years but could not be organized for the past several years due to certain unavoidable circumstances.
3. Journal: The Department started a Puravritta, Journal of Ancient Indian History, in 2000-01 but so far only one number could come out due to unavailability of funds to publish further issues. The Department plans to bring out the next number of the journal in 2013 if financial assistance is forthcoming.

Strengths	Our Department has a bright history it is one of oldest department of university. Faculty and programme wise it was one of largest Arabic departments of India. It's pass-outs are playing important role in shaping our society and serving in all major academic institutions of INDIA As per employment rate it is noteworthy that our pass out is are largely appointed as interpreters in Arab world. But at present it faces acute shortage of faculty as well as infrastructure facility. As a foreign language department it is without internet and E- library that is very important.
------------------	---

Weaknesses	<ul style="list-style-type: none"> ➤ Shortage of Infrastructure in the classrooms. ➤ Shortage of Manpower (Teaching & Non Teaching) ➤ Shortage of Space in Departmental Library. ➤ Renovation of Office, Teacher's and HOD Room. ➤ Rack, Almirah, AC for Departmental Library ➤ Water Cooler/AC for teacher's room
Opportunities:	1. Possibility of inter continental collaborative academic programme all over the globe.
Challenges:	<ol style="list-style-type: none"> 1. Establishment of language lab. 2. E Library for the research scholars.

52. Future plans of the department.

In future the Department is planning to establish a language lab and E-library and to start a course in colloquial Arabic.

- 40. Number of post graduate students getting financial assistance from the university:** Around 40 percent students get fee concession & many also get scholarships
- 41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology :** Yes, we gradually incorporate in our teaching method and gradually in syllabus also if possible
- 42. Does the department obtain feedback from:**
- a) faculty on curriculum as well as teaching-learning-evaluation? If yes how does the department utilize the feedback? :** Yes, we get feedback from the faculty members from time to time. Such feedbacks are incorporated in the syllabus as much as possible keeping other factors into account.
- b) students on staff, curriculum and teaching-learning-evaluation and how does the department utilise the feedback? :** Feedback from students or staff is also used and discussed with our faculty members and we try to accommodate in various ways such feedbacks either in terms of materials to be supplied or in terms of syllabus or in terms of teaching methods or in any other way.
- c) alumni and employers on the programmes offered and how does the department utilize the feedback? :** Again we discuss with our colleagues and try to avail from such feedbacks as much as possible.
- 43. List the distinguished alumni of the department (maximum 10):**
1. Professor T.S. Papola (Renowned economist)
 2. Professor A.K. Singh (Renowned economist)
 3. Professor Rajiv Kumar (Institute of Foreign Trade, New Delhi)
 4. Professor VP Bharadwaj (Senior economist in Gujarat)
 5. Professor Rudra Prasad Upadhyaya (Head, Department of Economics, Tribhuvan University, Kathamandu, Nepal)
 6. Professor Khan Masood Ahmad, Jamia Milia, Delhi
 7. Ms Praveen Talha (Member, Union Public Service Commission)
 8. Mr Prashant Trivedi (Senior IAS officer with the government of Uttar Pradesh)
 9. Mr Atul Chandra (Earlier Resident editor of the Times of India at several locations and now working as free lance journalist)
 10. Professor Rakesh Shah, Finance, Montana State University, USA
 11. Ms Shammi Abidi (IAS)

- 44. Give details of student enrichment programmes (special lectures / workshops/ seminar) involving external experts. :** Special lectures are organized from the experts in the field within our limited resources. Sometimes our own faculty members deliver special lectures if they are working on new issues of research. Besides, some workshops are also arranged. Seminars are also organized where students have easy access over the emerging issues and details.
- 45. List the teaching methods adopted by the faculty for different programmes:** Usual traditional teaching methods
Modern electronic gadgets
Seminar classes to develop the confidence among the students
Group interactions
- 46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? :** Through personal interaction with students, faculty members, other stakeholders
- 47. Highlight the participation of students and faculty in extension activity:** We use informal discussions and try to use our resources from the benefits of the students and provide them the needed support to link with their desired goals.
- 48. Give details of “beyond syllabus scholarly activities” of the department. :** We have been organizing workshops on emerging issues and besides, we have been organizing Research Methodology Course for Ph.D. students which are being attended by the students from various other universities across the country.
- 49. State whether the programme/ department is accredited / graded by other agencies? If yes, give details. :** Based on the strength of the Department, Uttar Pradesh government has awarded it the Centre of Excellence Scheme which is running since November, 2012.
- 50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :**

Generally, faculty members are engaged in the applied research as is the general trend in developing economies where there is ample scope and demand for the applied research.

- 51. Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.**

Strengths	<ul style="list-style-type: none"> • Well trained and motivated faculty members • We get good proportion of quality students • Even though located in the Hindi belt, we get large number
------------------	--

	<p>of students who are English medium</p> <ul style="list-style-type: none"> • Our students do well in competitive exams • We have the rich tradition of quality education
Weaknesses	<ul style="list-style-type: none"> • We lack in terms of quality infrastructure • We are short of faculty members as one-third of the positions are lying vacant for several years • There is inconsistencies arising due to the twin systems like annual for the UG and semester for the PG students • We do not have any funding agency for Ph.D. students as is the case in the Central Universities • Due to financial hardships in the University, our department also feels that this is a serious problem to our growth.
Opportunities:	<ul style="list-style-type: none"> • Since there is possibility of attracting good quality students, we may take advantage of this. • By inducting new faculties, we may diversify and consolidate our activities for brighter future start papers with specialization as per needs of market & industry. • More funding for growing activities like computerization, publication of journal and other such activities would be helpful. • There is possibility of inviting foreign students for master and Ph.D.
Challenges:	<ul style="list-style-type: none"> • We are working under the twin system of annual system of exam for UG and semester system for PG. This is costing huge time and energy. • Shortage of the faculty even within the sanctioned strength. Instead there is need for strengthening the department by creating more new positions for specialized areas. • Our Ph.D. students do not get stipend as is the case in Central universities to sustain their interests and commitments. • Placement of students

52. Future plans of the department.

- To impart quality education & research as per requirements of market & industry and facilitate placements.
- Creation of faculty positions:

Professor – 01 (Environment Economics)

Associate Professor – 02 (Econometrics – 01; Public Policy – 01)

Assistant Professors – 03 (Environmental Economics – 01; Econometrics -01; Mathematical Economics – 01)

- To develop data bank and research hub centre related to the Economy of Uttar Pradesh. For this we need:

Research Associates – 02

Computer Assistant/programmer – 01

- To develop departmental library of high end requirements and it would require funds and one librarian.

| <p>44. Give details of student enrichment programmes (special lectures / workshops/ seminar) involving external experts. :</p> | <p>The department is organizing annual film fest called 'Vibgyor' since 2007 to give platform to budding students who have shown their interest in short film making. Many such creative short films on relevant social issues are screened during this film festival. Many of them can be viewed on Youtube also.</p> |

| <p>50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :</p> | <p>Movie making workshops on burning topic for sensitization of masses, teaching the students the proper usage of social networking sites.</p> |

Faculty is engaged in delivering lectures in UGC-ASC and a short term course on ICT was co-ordinated by Dr. Mukul Srivastava from 5-12 November 2012.

- 51.** Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.

Strengths	<p>a. Department makes at least twenty socially relevant short films every year. As of now 90 exceptionally good films which can be used as a resource for any NGO or government to educate and inform people.</p> <p>b. Strong alumni network almost in every leading news organization which is helpful in placements of the student.</p> <p>c. All teaching assignments are online(after first semester)</p>
Weaknesses	<p>d. Department is functioning without Head of the department since January 2010 and The dean, Faculty of Arts is the officiating Head. Because of non-availability of Head in the department a lot of time gets consumed in paper work and co-ordination.</p> <p>e. Dearth of faculty is one of the major problems. With only one permanent faculty strength the efficient functioning of the departmental and co curriculum activities becomes very difficult and running of the courses is often compromised.</p> <p>f. Dearth of permanent supporting staff.</p> <p>g. Major portion of the earnings from the courses ends up in financing the salaries of the employees. Hence, the department is unable to provide better teaching and research facilities to the students.</p> <p>h. Lack of money is also affecting the studies. Audio/video studio is in a bad shape as funds are not available. Equipments as well as all computers in lab are outdated.</p> <p>i. Reckless granting of affiliation is an added burden. Since the conduct of exams is to be managed by the sole faculty of the department.</p> <p>j. Departmental publication ‘ Kul-Sandesh’ a Bilingual training newspaper and Sanchar-Shree Quarterly Bilingual Research Journal are on hold due to financial crunch since 2008.</p>

- 52.** Future plans of the department.

- We desire to provide the students with the best of practical training in Various Disciplines, including Journalism, Mass Communication, Public Relations, Advertising, Communication Research, Information Technology, News Photography, Video Production, etc
- Start of Community Radio
- Start Electronic media production center
- Up gradation of computer lab so as to update the students and faculty with latest technology.

52. Future plans of the department.

Every language is a repository for the culture and worldview of its speakers. The disappearance of any language minor or major / small or big not only the language is lost but also its cultural heritage and its worldview. By allowing languages to die out we are destroying what deserves to be preserved. Responses to this problem include local language maintenance and revival programmes, and language documentation. To fulfil this need of the hour the Department is planning to establish a Language Documentation lab.

48. Give details of “beyond syllabus scholarly activities” of the department. :

49. State whether the programme/ department is accreditèd / graded by other agencies? If yes, give details. :

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

51. Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.

Strengths	<ol style="list-style-type: none"> 1. Highly qualified, scholarly, dedicated and professionally competent faculty, who have strong academic and professional networking with peers and institutions at the national and international level. 2. The curriculum is innovative, holistic and modern, addressing global, national and regional needs. It is revised every three years. 3. Aware of the paradigm shift in teaching methodology, the faculty has made learning student- centric. The teaching-learning experience is inspirational, pleasurable, exciting, interesting and ICT enabled. The dormant latent capacities of the students come alive. 4. Strong leadership, focused vision, democratic, flexible and supportive environment in the department. The faculty and staff mutually share unusual/rare warmth and camaraderie. 5. The Department and its Faculty enjoy a good reputation and are recognized and highly rated in academic circles and among their stakeholders.
Weaknesses	<ol style="list-style-type: none"> 1. Over the years the increase in seats by the State government and the influx of students from rural and semi-urban backgrounds with their low levels of language competency and lack of exposure to computers and other high end infrastructure. 2. Proficiency in English Language, Communicative Skills and Personality Development is very poor in almost fifty percent of the students admitted. 3. The class is highly stratified because of varying levels of competencies– social, cultural, regional and educational backgrounds of the students. 4. Student failure and dropout rate is about fifty percent in PG classes. 5. Campus placement, skills development, computer literacy and language proficiency development efforts are not adequate to meet the needs of all students.
Opportunities:	<ol style="list-style-type: none"> 1. Situated in the heart of the Hindi belt surrounded with Bhojpuri, Awadhi, Braj bhasha and such dialects and other regional languages like Urdu and a strong student community drawn from it; validates the setting up of an Advanced Resource Centre for Retrieval, Preservation, of Cultural Texts and Translation of Indian Literatures

	<p>through State Government funding. Central funding can be sought to develop this into a National level Resource Centre.</p> <ol style="list-style-type: none"> Engaging Undergraduate and Postgraduate students in research related activities using their competencies in regional languages and dialects through projects in the areas of Cultural Studies and Translation Studies as part of their curriculum. Launching of online add-on courses for students of the University and degree colleges in the area of Soft-skills development, Language proficiency, remedial courses for slow learners and new courses for advanced learners. Increase research output of Faculty in areas specific to the Literature, Language, Culture and Traditions of the region involving students other than research scholars from UG and PG levels, thus increasing teacher-student one to one interface. Develop and strengthen foreign languages teaching-learning/ research for all university and degree college students and the school going students and citizens of Lucknow.
Challenges:	<ol style="list-style-type: none"> Cater to the regional aspirations of the people and bring regional/ Cultural Studies Centre stage in the academia, internationally. Keep the students' motivation level high, introduce remedial teaching classes and curb/ reduce the failure / dropout levels to ensure good student progression. Evolve more effective and culture-specific innovative pedagogy for classroom teaching to cater to large numbers and multilayered complexion of the classes. As a quality sustenance measure- develop globally competent value added components which are ICT enabled to the new add-on courses for UG and PG students of the university and degree colleges. Institutionalize and ensure campus placements, career-counseling, personal counseling and strong student support system at the level of the department.

52. Future plans of the department.

- Set up a National level Resource Centre for Advanced Research in Cultural Texts, Records and Translation of Indian Literatures.

2. Launch courses through e-learning- with faculty designing and developing e-content and Open Educational Resources (OER).
3. Formalize International- collaborative teaching programmes as part of the curriculum. Seek funding for International Collaborative Research.
4. Introduce career oriented courses like- MA in Theatre Studies, MA in Translation Studies, MA in Film Studies, MA in Cultural Studies- all these courses would have a very strong hands on/ practical component. MPhil to become a two-year programme.
5. Ensure strong student support system in the Department to achieve higher levels of student progression.

 - Evaluation of traditional Indian medicines for the anti diabetic potential
 - Defining the cellular redox status from the point of view of redox homeostasis and signaling.
51. **Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.**

Strengths	1) Well recognized world- wide International and national fundings. 2) Performance of pass out students 3) Research output as evident from extra-mural funds
Weaknesses	1) Requirement of Animal House facility and cold room. 2) No trained staff for library and chemical store.
Opportunities:	The current explosion networked science programs demand distinct positioning of our workforce. The Department has a trained manpower that can stand up to the challenges presented today.

Challenges:	Current research is extremely money driven and demands extensive funding to back acquisition of advanced instrumentation and research infrastructure.

52. Future plans of the department.

The Department of Biochemistry has earmarked the following areas under which work components would be organized. These programs are in consonance with the research activities of the departmental faculty members and also employ and complement the already existing facilities of core biochemistry, molecular biology, cell biology and bioinformatics.

The proposed areas of research are strongly backed by the research expertise as well as the research interests of the faculty members. The following areas of research have been identified as research agenda:

❖ **Biotechnological modification of lignin biosynthesis:**

All vascular plants, including herbaceous species, contain lignin as an integral cell wall constituent along with cellulose and hemicellulose. Lignin provides rigidity and strength to the plant as well as it protects cellulose microfibrils from the physical, chemical and biological attack. However, presence of lignin in plant materials is one of the greatest obstacle for the optimal use of the biomass for various purposes such as pulping industry, nutrition of cattle and new technologies concerned with the biodegradation of lignocellulosic materials. Therefore, reduction in lignin contents, through genetic engineering approaches, is desirable in both woody and herbaceous plants.

In this direction, we have successfully developed transgenic plants of tobacco and *Arabidopsis*, exhibiting inhibition of lignin, by expression of a heterologous antisense gene construct specific to caffeic acid / 5- hydroxyferulic acid O-methyltransferase (OMT), a key enzyme in regulating lignin biosynthesis. Furthermore, we have developed a transformation system for *Leucaena leucocephala* using *Agrobacterium tumefaciens* mediated DNA transfer. *Leucaena leucocephala* (subabul) is a nitrogen fixing legume adopted to and widely distributed throughout the tropics and subtropics. In India almost 40% of the paper is manufactured using *Leucaena leucocephala* wood.

Currently, we are working on to clone a number of genes of lignin biosynthesis pathway and to produce transgenic plants of *Leucaena leucocephala* with reduced lignin contents which are desirable traits for its use in paper and pulp industry.

In addition to the applied work we also propose to carry out basic studies on structure - function relationship of these enzymes. Thus, the clones of these genes will be expressed in *E.coli* and the expressed proteins will be purified and characterized. (**Biotechnol. Prog. 22, 609-616. 2006; The Haworth Press, Inc., Binghamton, NY, U.S.A. 317-329, 2008**)

❖ **Biochemistry and Molecular Biology of fruit ripening:**

Fruit ripening is a tightly controlled and highly complex developmental process involving novel gene expression and the coordination of a number of biochemical and physiological processes that culminates in dramatic changes in fruit firmness, colour, flavour, aroma and overall texture of fruit. Flavour and fruit texture become the major quality attributes according to the consumer's perception and therefore have received much research attention. Phenylpropanoid pathway, which supplies building blocks for lignin, also contributes to various phenolic compounds, found in many fleshy fruits during ripening. In addition, lignin biosynthesis and cellulose hydrolysis is a meticulously coordinated and regulated during fruit ripening. Studies have suggested that the increase in fruit firmness involves a coordinated regulation of lignin biosynthesis and cellulose hydrolysis. However, the interaction between lignin and cellulose deposition is still not clearly known. The complexity of lignin biosynthetic pathway has made analysis of lignin polymerization mechanisms a challenging topic. An integrated approach on lignin, monolignol precursors, associated enzymes and genes, would provide a consistent model of lignifications during fruit ripening. But, in recent years, results based on transgenic approach have led to proposition of newer concepts to classical lignin biosynthesis pathway.

There are several genes which are involved in lignin biosynthesis pathway but we propose the biochemical and molecular study of only following candidate genes, namely *O*-methyltransferase (*omt*), cinnamyl alcohol dehydrogenase (*cad*) and peroxidase (*pod*) that are considered to have a potential role in fruit ripening and flavonoid biosynthesis. Role of these enzymes/genes in fruit ripening is a matter of recent investigation and there is still dearth of

information on the relationships between lignin biosynthetic pathway and fruit ripening process. (**J. food sci. 2010, Journal of Molecular Catalysis B: Enzymatic, 68 (2) 2011, pp. 117-128**)

❖ **Role of lysosomal proteases in disease: Regulation of the misfolded protein response:**

Recent interest in the lysosomal proteinases like Cathepsins B, H and L originates in the discovery of their possible roles in prohormone processing, inflammatory and pathological diseases (e.g. tumor invasion, metastasis, muscular dystrophy emphysema and arthritis) and cellular differentiation. Despite their several roles in protein catabolism, exact mechanism of action of each enzyme is not known. Also, there is inadequate information on their natural substrates and conditions of action *in vivo*. Since these enzymes are very sensitive towards temperature and have acidic pH optimum, their involvement in protein degradation under physiological conditions, where the pH is maintained between pH 7.0 – 7.5, have been questioned. Thus, our knowledge of the significance of the existence of these analogous enzymes is still incomplete. Therefore, to understand the role of each proteinase in a variety of biological processes and to identify with confidence the specific catalytic reactions, we need detailed information on the catalytic site properties of each enzyme.

Our group has studied some properties of Cathepsin B purified from mammalian species and it has been found that the enzyme could indeed play a role in intracellular protein degradation. The unfolding-refolding behavior and mechanism of inactivation by urea of Cathepsin B have also been studied which indicate the presence of multi-domain structure in the enzyme. **These finding have been published in pioneer journals like Biochem. J., J. Biochem., J. Biosci., IJBB, Biochem. Int., Cell. Mol. Biochem., (2010) etc.** However, to understand the role of each proteinase in a variety of biological processes and to identify with confidence their specificity, detailed information is required on the action of each enzyme on various protein substrates and peptides, and the relation of structural changes induced by intra- and extra-cellular modulators.

❖ **Biochemistry of diabetes & associated secondary complications:**

Diabetes mellitus is one of the major clinical concern and cause of morbidity in developed as well as in developing country. Degenerative changes occur in heart, kidney, brain and other neural

tissues during diabetes. Cardiomyopathy, nephropathy, neuropathy and cataract are common complications of diabetes mellitus. Several studies had demonstrated that oxidative stress due to hyperglycemia resulted in free radical generation and contributes to progression of diabetes-related complications. In addition to insulin a large number of anti-diabetic formulations are available in the market but due to unwanted side effects the efficacies of these compounds are debatable and there is a demand for new and safe compounds for the management of diabetes. Several natural products such as *Momordica charantia*, *Trigonella foenum graecum*, *Syzygium cumini*, *Azadirachta indica*, *Gymnema sylvestre*, *Pterocarpus marsupim*, *Coccinia indica*, , *Allium sativum*, and *Ocimum sanctum* etc are being used in India as well as other parts of the world for the management of diabetes and to overcome secondary complications of diabetes. These plants based formulations are found to be effective, their low cost and minimal side effects have increased the interest of researchers to explore this area.

For past few years, our lab is trying to understand the biochemistry of diabetic complications and to evaluate the potential of different medicinal plants (*M. charantia*, *Trigonella foenum-graecum*, *S. cumini* etc) to manage hyperglycemia and associated complications. Our initial findings have demonstrated the cardio-protective potential of MC and TFG extracts. The anti-hyperglycemic and anti-oxidative activities present in aqueous extracts of *M. charantia* (MC) and *Trigonella foenum-graecum* (TFG) are the two different activities associated to different constituents present in these plant extracts. The administration of these plant extracts resulted in improved oxidative stress status was not due to achievement of normoglycemia. In MC extract these activities are attributed to peptide(s) present. We have been able to isolate these peptides and their further characterization such as amino acid sequence and molecular mass will help us to understand their mode of action at cellular level. The active constituents from other plants will also be isolated/purified, characterized and evaluated for their anti-diabetic potential. We are also attempting to understand the mechanism of secondary complications of diabetes such as cataract. We have been able to partially purify and demonstrate the role of a calcium independent protease in progression of diabetic cataract. We have reported that kaempferol, a flavonoid, inhibited the activity of aldose reductase in osteoblast cells. Role of aldose reductase have been implicated in progression of secondary complications of diabetes in tissues where glucose up-take is insulin independent. Attempts will be made to test the effect of these plant – isolated products (which are mainly alkaloids, proteins/peptides and flavonoids) to delay/cure the secondary complications (cataract, atherosclerosis and nephropathy) of

diabetes. Some of these findings have been already been published in peer reviewed journals like **Proteomics, 2010; IJBB, 2010; Oxidative Medicine & Cellular Longevity, 2009; and Phocog. Res., 2009.**

❖ **Oxidative stress related mechanisms in cell injury**

Work in another major research group has been going on, on the role of oxidative stress in the toxicity caused by various hepatotoxins such as rotenone and ethanol on isolated rat liver cells and the protective effects of various naturally occurring and synthetic antioxidants. Rotenone is a plant product and is a known inhibitor of mitochondrial respiratory electron transport chain. Both rotenone and ethanol decreased the viability of isolated rat liver cells prepared through the collagenase perfusion technique in a concentration dependant manner. This was found to be reversed by antioxidants such as Vitamin E, reduced Glutathione (GSH), superoxide dismutase (SOD) and catalase to varying degrees.

Further studies are currently underway to observe the synergistic effects of carbonyl iron overload and ethanol *in vivo*. Quantification of parameters related to oxidative stress, such as lipid peroxidation is being carried out in liver homogenates. Research is currently underway to evaluate the phototoxicity of hair dye ingredients by measuring the reactive oxygen generation by the hair dyes under different irradiation conditions (Natural sunlight and Ultra violet radiation). Skin photosensitization, potential DNA photodamage and Linoleic acid photooxidative potential of the selected hair dye ingredients will also be screened. **The experimental findings have been published in journals like Ind. J. Exp. Biol., Toxicol. Intl. etc.**

❖ **Prospecting for new paradigms in plant development-New players, new targets:**

One of the groups working in the area of plant biochemistry has identified a novel Ca^{2+} activated protease that appears to be critical in initiating the cleavage of storage proteins in germinating seeds. The protease has since been purified to homogeneity and has been observed to express in a number of varieties of mungbean, pigeon pea and urdbean, as well as black gram seeds. However, this protease is absent from other pulses and non-grain legumes. This points to a very important relationship, crafted through evolution, between the storage proteins, the ionic environment of its

hydrolysis and the type of protease initiating the mobilization process. Ca^{2+} binding studies vis-à-vis the conformational changes that bring about activation of this enzyme have to be worked out. This group has also developed a new protocol for determining cell wall chelated ion concentration, ***but the same has to be validated through ICP analysis. As the next logical step, the protease has to be identified and sequenced and the information regarding its expression unravelled.***

Separately, considerable preliminary work has been done on tracing the oxidative damage trail from the elongating plant axis to the storage organs (in this case, the cotyledons). The reluctance of the plant axis to contain ROS produced by the high rates of respiration appears to confirm the hypothesis that these ROS are being used for signalling to the storage organ for mobilization of reserves. Treatment of the germinating seeds with edaravon, a potent lipophilic ROS scavenger and by hydroxyurea, a cell-cycle stalling chemical, results in failure of reserve mobilization, strongly hinting at the “ROS as signalling species” theory. Additionally, Protein conformational changes subsequent to oxidative amino acid residue modification yields altered states of hydrophobicity, triggering a signalling cascade, which can be probed with 2D-PAGE and multiplexing as well as with LC-MC and CD spectroscopy.

Much work remains to be done by quantifying ROS gradient as well as the status of intracellular signals like Ca^{2+} and cGMP. Recent work has been published in journals like **J. Plant Physiol.**(2010), **Z. Phytopath.**(2010), and **Ind. J. Biochem. Biophys.** (2010)

❖ **Studies in photosynthesis:**

There are two groups studying photosynthesis. These two aspects are mentioned below:

- a. Photosystems are embedded in a lipid matrix and are subject to stoichiometric as well as small organizational changes that bring about small to large changes in activity and help in acclimation. One of the several ways in which systems modulate photosynthetic energy conversion is alteration of the lipid environment in the immediate vicinity of the photosystems. Analysis of the lipid microenvironment in thylakoids from differently adapted chloroplasts may yield useful information that could relate this microenvironment to functional changes and possibly to structural alterations in peptide arrangement or covalent modification. This would involve isolation of PS II complexes and analysis of thylakoid lipidome. The lipid composition would be determined and lipids identified using the LC-MS and these would be functionally related to PS II activity after fluorescence (pulse

amplitude modulated) analysis. Recent publications are in **Photosynthetica (2009)**, **Biol. Plant. (2010)**, **Life Sci. (2010)**.

Nutrient deficiencies result in the lowered expression of proteins using metal cofactors. Such proteins include components of energy transducing electron transport systems as well as redox enzymes with metal centres. Metal homeostasis in general, and particularly in the context of redox systems is an emerging field of study. One of the proposed components of the research agenda is to probe the relative expression of photosynthetic electron transport components, quantify the ROS produced in conditions of trace element deficiency and lastly to study the expression levels of ROS scavenging enzymes that themselves employ metal centres. This would lead to valuable insight into the redox control of metal homeostasis and the control of gene expression in times of stress. The work elements would involve the study of photosynthetic rates, measurement of fluorescence parameters (using PAM fluorimeter), measurement of CO₂ fluxes using the Infra Red Gas Analyzer, western transfer mediated quantitation of the redox/ROS scavenging components and finally, transcript levels of the same. Initial work has been published in **J. Plant Physiol. (2007)**.

26. Faculty serving in a) National committees b) International committees c) Editorial Boards d) any other (please specify):

Faculty	National/International Committees	Editorial Board
Prof. RN Pathak	Members of Indian Chemical Society Member of Research Degree Committee, GBTU	
Prof. Prem Raj	Member, Indian Science Congress. Member, Irish Chemical Society	
Prof. (Ms.) S. Jain	President, Association of Chemistry Teachers, Homi Bhabha Center for Science Education, TIFR, Mumbai	Associate Editor, Indian Perfumers, Delhi
Prof. Naveen K. Khare	Secretary, Association of Carbohydrate Chemists & Technologists of India	Editor, Trends in Carbohydrate Research
Prof. V.K. Sharma	Member of five scientific societies, National & International	
Dr. Desh Deepak	-	Editor, J. Biol. Chem. Res.
Dr. Joy Sarkar	Member of two scientific societies	

27. Faculty recharging strategies (UGC, ASC, Refresher/ orientation programs, workshops, training programs and similar programs):

- a** Prof. RN Pathak, Prof. NK Khare & Dr. Arun Sethi have coordinated Refresher Courses in Chemistry at Lucknow University.
- b.** Prof. Anil Mishra, attended a training workshop on "Introduction to Gaussian: Theory and Practice" co-hosted by Gaussian, Inc., SCUBE Scientific Software Solutions, the Green Chemistry Network Centre, the University of Delhi, and the Royal Society of Chemistry London (North India Section) held in New Delhi, India from December 17th through 21st, 2012.
- c.** Dr. Joy Sarkar, Dr. (Mrs.) Indu Saxena, Dr. (Mrs.) A. Srivastava, Dr. (Mrs.) S. Srivastava, Dr. Ashok K. Singh, Dr. N.K. Singh, Dr. Abhinav Kumar have attended the Refresher Course in Chemistry held at the Academic Staff College, Lucknow in January 2012. Dr. Abhinav Kumar has attended the Orientation course last year. He has also attended the refresher course in chemistry held in Mumbai in October 2012.

28. Student projects

- ❖ **Percentage of students who have done in-house projects including** All PG students are given suitable topic related to their syllabus to submit a project in their

inter-departmental projects :

Semester IV and required to give seminar which is evaluated by the faculty. The students of M.Sc. Pharmaceutical Chemistry are also required to submit projects in all the four Semesters and required to give seminar which is evaluated as part of their curriculum.

❖ **Percentage of students doing projects in collaboration with other universities/ industry/ institute :**

The students of M.Sc. Pharmaceutical Chemistry are also required to do Project work as per their curriculum of at least three months in any National Institute/laboratory/pharmaceutical company in Semester IV which include Literature search, Laboratory work, Dissertation and Viva.

29. Awards/ recognitions received at the national and international level by:

Designation	Name of Person	Name of the award
Faculty	Prof. PC Srivastava (Retd. on 13.04.2012)	Best Faculty (researcher) of Science faculty of Lucknow University award in year 2010
		Shiksha Shri Samman, State Govt., U.P., 2011
	Prof. AKS Chauhan	Order of Merit for Best Teacher Award by the Chemical Research Society of India (CRSI) on July 21, 2012 at Mid Year Meeting held at CDRI, Lucknow.
	Prof. Naveen K. Khare	Order of Merit for Best Teacher Award by the Chemical Research Society of India (CRSI) on July 21, 2012 at Mid Year Meeting held at CDRI, Lucknow.

30. Seminars/ Conferences/ Workshops organised and the source of funding (national/ international) with details of outstanding participants, if any :

- a. XX Carbohydrate Conference, Nov. 2007.
- b. Seminar on “Application of Analytical Techniques for the Characterization of Biomolecules” organized by ISAS, Aug. 2008
- c. Seminar on Organometallic Chemistry funded by SAP (UGC), March 2010.
- d. Seminar on Supramolecular and Organometallic Chemistry funded by SAP (UGC), March 2011
- e. Seminar on Natural Product and Organic Synthesis funded by SAP (UGC) & PURSE (DST), March 2012
- f. International Conference & Humboldt Kolleg (Jan., 2012) on “Recent Aspects of Organic / Organometallic Compounds and their usefulness in Materials and Industries funded by Alexander Von Humboldt foundation Germany.

31. Code of ethics for research followed by the departments:

Continuous consideration of the students of UG, PG and Research Scholars is done during the lab work to let them know about the ethics followed in Chemical education and research.

32. Student profile programme-wise:

Name of the Programme (refer to question no. 4)	Applications received [@]	Selected		Pass percentage [#]

B.Sc. [@]				
M.Sc. Sem .I	82.50	17.50	0	0
[@] This information can be had from the Coordinator of UG and PG Admissions.				

34. How many students have cleared Civil Services and Defense Services examinations, NET, SET, GATE, and other competitive examinations? Give details category- Wise :

NET= 30%, GATE & others = 15%.

- Many students have cleared the Civil Services and Defence Service examinations, NET, SET, GATE and other competitive examinations.
- Display of Spectacular Experiments of Chemistry and Research Showcase of chemistry Department, Lucknow University” was held in November, 2010 under the guidance of Prof. RN Pathak and other faculty members during convocation week.
- Eighteen students got job placement (Research Associate) in R&D sector of Jubilant Chemsys Industries located at NOIDA (UP) in 2011.

35. Student progression

Student progression	Percentage against enrolled
UG to PG	150/80
PG to M.Phil.	NIL
PG to Ph.D.	60/20
Ph.D. to Post-Doctoral	20/03
Employed	
• Campus selection	18
• Other than campus recruitment	N.A.

36. Diversity of staff

Percentage of faculty who are graduates	
Of the same university	66
From other universities within the State	30
From universities from other States	4
From universities outside the country	NIL

37. Number of faculty who were awarded M.Phil., Ph.D., D.Sc. and D.Litt. during the assessment period: One. Dr. Abhinav Kumar

38. Present details of departmental infrastructural facilities with regard to:

- a) **Library:** A big library facility for staff, research scholars and PG Students.
- b) **Internet facilities for staff and students:** LAN Lab is available for research scholar
- c) **Total number of class rooms:** 6
- d) **Class rooms with ICT facility:** 1
- e) **Students laboratories:** 10
- f) **Research laboratories:** 12

39. List of doctoral, post- doctoral students and Research Associates:

- a) from the host institution/ university: Doctoral 40,
Post Doctoral 03
- b) from other institutes/universities: Doctoral 15,
Post Doctoral NIL

40. Number of post graduate students getting financial assistance from the university: Nil

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology : None

42. Does the department obtain feedback from:

a) faculty on curriculum as well as teaching-learning-evaluation? If yes how does the department utilize the feedback? : No

b) students on staff, curriculum and teaching-learning-evaluation and how does the department utilise the feedback? : No

c) alumni and employers on the programmes offered and how does the department utilize the feedback? : No

43. List the distinguished alumni of the department (maximum 10):

- i. Prof. Kamal Kant Dwivedi, Science Adviser, GOI, Former VC, APJ University.
- ii. Prof. MC Mohan, Founder of Indian Science Congress
- iii. Dr. Zaheer Husain, Former DG, CSIR
- iv. Dr. AK Saxena, Director, DMSRD, Kanpur
- v. Prof. RP Rastogi, Former VC, Gorakhpur University

vi. Dr. KC Pant, Ex Minister, GOI

vii. Dr. Ms. Sudha Shrotia, Ex Secretary, GOI

viii. Justice Rajiv Sharma, High Court, Allahabad

ix. Prof. SN Bose, Ex Chairman, NCERT

x. Prof. AC Chatterji, Ex Chairman, UP Olympic Association

44. Give details of student enrichment programmes (special lectures / workshops/ seminar) involving external experts. :

- Prof. Richard Ernst, Noble Laureate delivered lecture on “Usefulness of Nuclear Magnetic Resonance (NMR) spectroscopy” in Malviya Hall of Lucknow University.
- Prof. Dr. Dr. h. c. mult. Herbert W. Roesky, (Ex) Director Institute für Anorganische Chemie der Universität Göttingen, Germany delivered lecture in Chemistry Department on “Interstellar molecules guides for new chemistry” jointly organized under the auspices of SAP (UGC) of Chemistry Department and NASI Lucknow Chapter.
- Prof. P.K. Das delivered lecture on “Non Linear Optical Properties of Materials” in Chemistry Department.
- Prof. R.K. Sharma, Delhi University delivered lecture on “Green Chemistry education for sustainable future” in Chemistry Department.
- Dr. Arvind Kumar Saxena, Director, DMSRDE, Kanpur delivered lecture on ‘Silicon Carbide Chemistry’ in Chemistry Department.
- Dr. S. L. Kelkar Professor of Chemistry (Retd.) University of Pune delivered lecture on the microscale experiments suitable for Chemistry Practical sessions of UG and PG students.

45. List the teaching methods adopted by the faculty for different programmes:

Faculty members use several methods for teaching. Some of them use overhead projectors while others use the LCD projectors. However the traditional methods also have been adopted by faculty members.

46. **How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? :** Through theory and practical examination, evaluation and results.
47. **Highlight the participation of students and faculty in extension activity:** Students of PG are encouraged to participate in various poster and oral presentation during these Conferences/Symposia. The best presentations are awarded.
48. **Give details of “beyond syllabus scholarly activities” of the department. :** Organization of National & International Conferences/Symposia.
49. **State whether the programme/ department is accredited / graded by other agencies? If yes, give details. :** No.
50. **Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :**
- N.A.
51. **Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.**

Strengths	Old and spacious department with precious library. Specialized faculty with quality publications in National & International journals of repute.
Weaknesses	Acute shortage of teaching staff and supporting staff as well as lack of funds.
Opportunities:	Many students have cleared the Civil Services and Defense Service examinations, NET, SET, GATE and other competitive examinations. Display of Spectacular Experiments of Chemistry and Research Showcase of Chemistry Department, Lucknow University” was held in November, 2010 under the guidance of Prof. RN Pathak and other faculty members during convocation week in 2011 besides five conferences were held in last five years. Eighteen students got job placement (Research Associate) in R&D sector of Jubilant Chemsys Industries located at NOIDA (UP) in 2011.
Challenges:	Appointment of new faculty to cover up the adverse teacher taught ratio as well as the future plans of the department given below.

52. Future plans of the department.

- i. Syllabus Update of UG & PG Classes**
- ii. Encourage students to be regular & punctual in their respective classes**
- iii. No class should be left untaught**
- iv. To ensure that all teachers should get computers with internet facility**
- v. Renovation & Upgradation of all lecture rooms as well laboratories**

Annexure 1

Research Programs of Chemistry Department:

1-SAP (Special Assistant Program), UGC (DRC-1) (In 2009–2010)

Rs. 45.75L + Rs. 20L = Rs.65.75 L Plus 2 Project Fellows

Ist Inst. = Rs.27.75 L+ Rs. 20L = Rs.47.75 L Plus 2 Project Fellows

2-PURSE (Promotion of University Research and Scientific Excellence), DST (In 2012) =Rs.165 L

Ist Inst. (2011–12) : Flexible Rs. 13.00L + Fixed Rs.7.30L=Rs.20.30 L

3-To celebrate International Year of Chemistry (2011-12) = Rs.1L

4- Chemistry Department was declared centre of excellence (state Govt, U.P.) (2012) = amount unknown.

Note:- The charge of these programs is with Prof. P.C. Srivastava who was retired on 13th April 2012. He has not handed over any charge to new Head so far. In this condition I am not in a position to give the present status of above programmes of Chemistry Department.

Evaluative Report Department of Botany

1. **Name of the Department :** Botany
2. **Year of establishment :** 1921
3. **Is the Department part of a School/Faculty of the university:** Faculty of Science
4. **Names of programmes offered :** UG, PG, M.Phil., Ph.D., Integrated Masters; Integrated Ph.D., D.Sc, D.Litt, etc.
5. **Interdisciplinary programmes and departments involved :** In P.G programme in Microbiology, Environmental Science and Plant Science the departments of Physics, Biochemistry, Geology of Lucknow University and other Research Institutes are involved.
6. **Courses in collaboration with other universities, industries, foreign institutions, etc:** Summer training and final semester project work carried in collaboration with other Universities, Institutes and Industries.
7. **Details of programmes discontinued, if any, with reasons :** M.Phil. - University decision
8. **Examination System :** At UG level - Annual
At PG level - Semester
9. **Participation of the department in the courses offered by other departments:** M.Sc. Biotechnology Programme in Biochemistry Deptt., L.U.
Academic Staff College, L.U.

| 50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. : | |

The department has expertise in different major sub-disciplines of Botany/Plant Sciences such as Algology, Bryology, Cytogenetics and Plant Breeding, Plant Virology/Microbiology, Gymnosperms, Palaeobotany, Mycology and Plant Pathology, Mineral Nutrition and Plant Physiology. Such rare combination is hardly available in any University of the country.

The Department, through four PG Courses, has contributed immensely towards M.Sc. teaching in Botany, Plant Sciences, Environmental Sciences, and Microbiology.

Advanced research in all the above-mentioned areas is being actively pursued as is evident from the number of major research projects sanctioned to the department, and publications resulting thereof. The Department has the unique distinction in having the following four thrust areas in the UGC-SAP programme:

- (i) Mineral Nutrition and Plant Physiology
- (ii) Cytogenetics and Plant Breeding

(iii) Plant Virology and Microbiology

(iv) Bryology.

Besides these major thrust areas researches are also being done in other important disciplines such as Algology, Gymnosperms, Pteridophytes, Mycology, Taxonomy and Morphology of Angiosperms.

- 51.** Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.

Strengths	Diversity in sub-disciplines Dedicated faculty High quality research Sponsored projects Four PG-level Courses
Weaknesses	Infrastructure Faculty shortfall Readily unavailability of funds
Opportunities:	Diversity Collaborations through faculty Movement of students from four different PG-Courses
Challenges:	Raising faculty number to its full strength Providing greater financial autonomy to Head of the Department Providing greater autonomy to the project Principal Investigators Modernizing infrastructure for teaching and research

- 52. Future plans of the department.**

Due to population blast and continuous industrialization and urbanization, the available cultivable space is being decreased every day. The immense loss of plant growth and yield due to disease spread, the plant yield is also going down. Intensive cultivation, erosion caused by wind and water, and ecological alterations have caused significant soil degradation that has led to an adverse impact in the agriculture arena, which will continue unless addressed. Some of the soil properties that have been lost include organic matter, soil structure and nutrient availability etc. The populations of micro-fauna and micro-flora have been reduced. The Green Revolution focused on increasing staple crop productivity without considering impacts on human diets and nutrient intake, that has exacerbated human nutrient deficiencies of Fe, Zn, I etc. while intensive cropping has decreased the capacity of soils to supply Zn, B, Mo, Mn, Cu to crops. Enhancing substances (e.g. ascorbic acid, S-containing amino

acids etc.) that promote micronutrient availability or decreasing antinutrient substances (e.g. phytate, polyphenolics etc.) that inhibit micronutrient bioavailability, are both options that could be pursued. Plant viruses cause immense losses in yield of infected plants and thus acquire significance in the economic scenario since plants infected by them are both crop plants as well as ornamentals. The problem acquires greater proportions on account of viruses being unresponsive to chemicals. There is very compelling global human health and nutritional evidence to convince plant breeders, plant physiologists, soil scientists, pathologists, virologists etc. for sustained researches to combat these situations. Based on the current situation the present studies are proposed to increase the nutrition value of main food plants, protecting the plant health from any kind of diseases so as to have better yield.

Plant Physiology & Plant Nutrition

1. Micronutrient needs of economically important plants.
2. Role of micronutrients in oxidative stress in plants.
3. Active vs inactive iron metabolism in plants.
4. Molecular expressions of adaptive nature in response to nutrient and heavy metal stress.
5. Assessment of emerging nutrient disorders in soil and development of modern techniques for their amelioration.
6. Biofortification of food crops with iron and zinc.
7. Phytoremediation of heavy metals.

Cytogenetics and Plant Breeding

1. Genetic diversity (ultrastructural and molecular) evaluation of oil seed *Brassica* and *Vigna* group of pulses for formulating further improvement strategies.
2. Improvement in quality traits and their assessment using amino acid profiling and fatty acid analysis in pulses and oil seeds respectively.
3. Development of resistance/ tolerance to various biotic and abiotic stresses in *Brassica*, *Vigna*, *Sesbania* and *Amaranthus*.
4. Assessment of generated variability to be conducted by *per se* performances, cytological and biochemical methods for efficient utilization of novel genetic variability.
5. Micropropagation of *Gerbera*, *Vigna*, *Sesbania*, *Hibiscus* and *Papaya* to be intensified.
6. Genotoxicity assessment, amelioration and phytoremediation work to be pursued for heavy metals, pollutants and pesticides.

Plant Virology & Microbiology

1. Molecular characterization of systemic antiviral resistance inducing protein genes, their expression and construction of transgenic plants for constitutive virus resistance.

2. Cloning and expression of genes coding for the systemically induced protein, the virus inhibitory agent.
3. Mass expression/production of resistance inducing, as well as induced virus inhibitory protein in bacteria.
4. Search for signal transduction in systemic induced resistance.
5. Characterization and use of rhizobacteria for plant virus disease control.

Bryology

1. *In vitro* studies and multiplication of some selected, rare endemic and endangered taxa of liverworts and hornworts, their in situ and ex situ conservation.
2. Morphotaxonomy and ultrastructure of some important liverwort taxa.
3. Assessment of biodiversity in the liverwort flora.

Other Areas

Taxonomy and morphology of freshwater, terrestrial and tertiary algal builders.

Molecular characterization of biocontrol agents (yeast, *Chaetomium*, *Gliocladium* etc.).

Pollen morphology of Gymnosperms and Angiosperms including SEM studies and biodiversity.

Morphology and systematic study of medicinal plants.

Studies on Vetiver vis-a-vis scoring of natural histo-morphological diversity to facilitate identification of root ideotype for specific environmental applications (bio-efficient and non-invasive vetiver).

52. Future plans of the department.

To organize a meeting of local mathematicians and scientists working in the area of mathematical modeling and related topics for full interaction and to create awareness about duty and applications of mathematical thoughts under PURSE programme.

To explore the possibility of establishing a Centre of mathematical modelling and its applications in Biosciences with the help of DST and CSIR.

Some faculty members have written projects for financial assistance from various funding agencies.

To organize training camp for B.Sc. students of various colleges for better understanding of Mathematics.

a) faculty on curriculum as well as teaching-learning-evaluation? If yes how does the department utilize the feedback? : We regularly evaluate teaching- learning within the faculty and take corrective measures.

b) students on staff, curriculum and teaching-learning-evaluation and how does the department utilise the feedback? : We regularly evaluate teaching- learning within the faculty and take corrective measures.

c) alumni and employers on the programmes offered and how does the department utilize the feedback? : We regularly evaluate teaching- learning within the faculty and take corrective measures.

43. List the distinguished alumni of the department (maximum 10):

1. Padma Sri Prof. K.S. Valdiya ^{FNA}, Former Vice Chancellor, Kumaun University, Nainital
2. Sri Ravi Shankar Former Director General Geological Survey of India
3. Sri N.K. Verma, Director, exploration ONGC,
4. Dr. Avinash Chandra, Former, Director General Hydrocarbons, New Delhi,
5. Sri S.K. Srivastava, CEO, Oil India & Former, Director General Hydrocarbons, New Delhi
6. Prof. Ashok Sahni, ^{FNA} Former, Chairman CAS in Geology, Panjab University, Chandigarh.
7. Sri D. C. Garg, CMD, Western Coal Fields Limited
8. Sri S.K. Chaturvedi, Former CMD, Power Grid Corporation of India
9. Sri Satish Bhatnagar, ^{IAS} Former Chief Election Commissioner, Govt. of Bihar
10. Shri Y.B. Sinha, Former Director exploration, ONGC
11. Dr. P.B.Maithani, Former Director, Directorate of Atomic Minerals, Govt. of India

44. Give details of student enrichment programmes (special lectures / workshops/ seminar) involving external experts. :

Invited lectures from eminent geoscientists from various fields are held from time to time. Students are encouraged to actively participate in the various National and International seminars and workshops being held regularly in the department.

45. List the teaching methods adopted by the faculty for different programmes:

The faculty members take regular classes using the conventional Black board technique. Power point presentations, video clipping of various significant geological processes and student interactive seminars are held as per requirement.

- 46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? :**
- All the faculty members regularly meet and discuss the progress of various issues during the departmental committee meetings.
- 47. Highlight the participation of students and faculty in extension activity:**
- 48. Give details of “beyond syllabus scholarly activities” of the department. :**
- 49. State whether the programme/ department is accredited / graded by other agencies? If yes, give details. :**
- The departmental performance including teachers and research activities are being regularly evaluated yearly by Experts of UGC & DST for the last swash years. On the basis of our performance we were rated Excellent by DST in the year 2007.
- 50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :**
- The Department carried out research in areas of Quaternary and Precambrian stratigraphy, palaeontology, stratigraphy and sedimentology.
 - Especial emphasis has been for the study of interplay of climate and neo-tectonics on the geomorphic evolution of Ganga Plain and Himalaya.
 - Multi-proxy data has been used to understand the climate change during Holocene in the lake deposits from Ganga plain and Himalaya and its effects on palaeo- vegetation.
 - Studies of glaciers of Himalaya relate to the morphotectonic evolution and chronology of glaciations in the central Himalayan region while those of Ny-Alysund (Spitizbergen, Norway) show that most of the glaciers are receding at a fast rate.
 - Environmental investigation of Ganga plain, namely pollution of surface and ground water show high level of heavy metal and other pollutants.
 - Systematic studies of Vindhya, Marwar supergroup and Lesser Himalayas (Late Proterozoic) show unique development with well preserved biotic elements. The biotic elements exhibit much morphological diversity, complex biotic features in microscopic and megascopic life.
 - Investigations in the Tertiary sediments of northeast and Kachchh basin has helped in precise age determination and palaeoecological reconstruction. Miocene rocks of Mizoram show evidence of delta sedimentation.
- 51. Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.**

Strengths	<ul style="list-style-type: none"> • There is a very healthy relationship and interaction between the teachers and the taught. The students are encouraged to have open discussions with the faculty members. • The faculty members also have a very informal interaction amongst themselves throughout. • In spite of decreasing numbers of faculty members, almost all the theory as well as practical classes are taken as per the schedule. • Many of the retired faculty members have been assisting in regular teaching on Honorary basis. • Based on our publications, we have been funded under various programmes like CAS- Phase I and II (UGC); Special Grant for Infrastructure (UGC); FIST- Phase I and II; PURSE (DST); Centre of Excellence (U P Government). Apart from this individual projects to faculty members have been regularly granted from DST, CSIR, DOAE, ISRO etc.
Weaknesses	<ul style="list-style-type: none"> • Because of the reduction in the numbers of faculty members, it is becoming extremely difficult to cope up with the teaching schedule • Field days have been reduced • Field excursion days of UG & PG students are being cut short because of the tight teaching, scheduled, faculty members are not get enough time for quality research.
Opportunities:	Our students are getting selected in GSI, ONGC, Coal India, and other organization.
Challenges:	To keep the pace of research and upgradation of syllabus at par with top institutes.

52. Future plans of the department.

It is a firm belief of all the faculty members that the department will grow further by imparting better education to the students as well as by undertaking research of international standards. **It is planned to carry out research on following important aspects**

- ❑ *Climate change and landform evolution using high resolution data derived from various proxy records of Late Pleistocene and Holocene*
OSL dating, geochemical, environmental, magnetic and palynological studies of sediments in selected segments would provide a high-resolution database
- ❑ *Geoenvironmental and sustainable development in the Ganga plain and the Himalayan region*

Detailed geoenvironmental studies in some selected areas of Ganga plain and in the Himalayan region are proposed to be carried out. This include groundwater and surface water pollution, soil pollution, identification of Ground water potential zones and ground water harvesting sites, slope instability studies etc. Remote Sensing and GIS applications in high resolution surface processes.

❑ ***Glaciological Studies***

High resolution glacio-geomorphic mapping of some selected glaciers along with the study of a number of paleoclimatic proxies (sedimentological, palynological, and magnetic) are proposed to be carried out. Such studies supported by ^{14}C , T/L, OSL dates will help in a better understanding of the chronology of glaciation and deglaciation vis-à-vis past climatic changes.

❑ ***Palaeobiology of Proterozoic Sedimentary Basins***

The available Proterozoic palaeobiological data of the Vindhyan and Marwar sedimentary basins suggest that these basins have great potential in contributing to the evolution of megascopic life, particularly the time of emergence of animal clade and invasion of terrestrial life. A systematic study of the Vindhyan and Marwar and coeval basins of Peninsular India and Lesser Himalayan Sedimentary basins is therefore proposed to be carried out to understand the Microbially Induced Sedimentary Structures (MISS) and evolution of macroalgal fossils.

Evaluative Report Department of Statistics

1. **Name of the Department :** Statistics
2. **Year of establishment :** 1958
3. **Is the Department part of a School/Faculty of the university:** Yes, Faculty of Science
4. **Names of programmes offered :** UG, PG, Ph.D.
5. **Interdisciplinary programmes and departments involved :** Total Quality Management Program
6. **Courses in collaboration with other universities, industries, foreign institutions, etc:** None
7. **Details of programmes discontinued, if any, with reasons :** PGDMR & M.A./M.Sc. Biostatistics (Differed for the current year)
8. **Examination System :** Annual for Under Graduate Semester in Post Graduate
9. **Participation of the department in the courses offered by other departments:** Nil

10. Number of teaching posts sanctioned, filled and actual (Professors/ Associate Professors/ Asst. Professors/ others)

17. **Number of faculty with ongoing projects from a) national b) international funding agencies and c) Total grants received. Give the names of the funding agencies, projects title and grants received project-wise:**

Name of the teacher	Title of the project	Duration	Funding Agency	Amount (Rs. in lakhs)
Prof. R.K. Singh, P.I. (Retired) & Prof. Sheela Misra, Co-P.I.	Some efficient statistical sampling strategies in agricultural, medical or biological sciences	3 Years	UGC	10,92,000

18. **Inter-institutional collaboration projects and associated grants received a) National collaboration b) International collaboration :**
- Prof. S.K. Pandey is associated with UPRTOU, Allahabad
 - Prof. G.G. Agarwal, is associated with INCLEN running at KGMU, Lucknow

- 19. Departmental projects funded by DST-FIST; UGC-SAP/CAS, DPE; DBT; ICSSR, AICTE, etc.; total grants received. :**
- DST (PURSE) : (2011-14) : Grant received during 2011-12 Flexible Component – Rs.20.32 lakh, Fixed Component – Rs.4.50 Lakh;
 - SAP (DRS-1) : (01.04.2012 – 31.03.2017), Grant received during 2012-13 Recurring – Rs.5.30 Lakh; Non-Recurring – Rs.16.00 lakh & Rs.20.00 lakh for Infrastructure in terms of Power supply, water supply, safety equipment, laboratory working table etc.
- 20. Research facility / centre with**
- **State recognition :**
 - **National recognition:**
 - **International recognition :** Internationally acclaimed research facilities available in the department
- 21. Special research laboratories sponsored by / created by industry or corporate bodies:** None
- 22. Publications**
- ❖ **Number of papers published in peer reviewed journals(national / international) :** 43
 - ❖ **Monographs :**
 - ❖ **Chapters in books**
 - ❖ **Edited books**
 - ❖ **Books with ISBN with details of publishers :**
 - ❖ **Number listed in International Database (For e.g. Web of Science, Scopus, Humanities International Complete, Dare Database – International Social Sciences Directory, EBSCO host, etc.)**

- ❖ Citation Index – range / average
- ❖ SNIP
- ❖ SJR
- ❖ Impact Factor - range / average :
- ❖ h-index

23. Details of patents and income generated: Nil

24. Areas of consultancy income generated : Nil

25. Faculty selected nationally / internationally to visit other laboratories / institutions / industries in India and abroad:

Nil

26. Faculty serving in a) National committees b) International committees c) Editorial Boards d) any other (please specify):

Senior faculty members of the department are members of national/international committees

27. Faculty recharging strategies (UGC, ASC, Refresher/ orientation programs, workshops, training programs and similar programs):

The faculties of the Department are actively engaged in various programmes conducted by ASC (Lucknow University)

28. Student projects

- ❖ Percentage of students who have Nil
done in-house projects including
inter-departmental projects :
- ❖ Percentage of students doing Nil
projects in collaboration with
other universities/ industry/
institute :

29. Awards/ recognitions received at the national and international level by:

Designation	Name of Person	Name of the award
Faculty	Nil	
Doctoral/post doctoral fellows	Nil	
Students	Nil	

30. Seminars/ Conferences/ Workshops organised and the source of funding (national/ international) with details of outstanding participants, if any :

“Recent Trends in Official Statistics” during October 13 & 14, 2012 funded by DST(PURSE)

31. Code of ethics for research followed by the departments:

Nil

32. Student profile programme-wise:

36. Diversity of staff

Percentage of faculty who are graduates	
of the same university	100%
from other universities within the State	-
from universities from other States	-
from universities outside the country	-

37. Number of faculty who were awarded M.Phil., Ph.D., D.Sc. and D.Litt. during the assessment period: None

38. Present details of departmental infrastructural facilities with regard to:

- a) **Library:** Available
- b) **Internet facilities for staff and students:** Available
- c) **Total number of class rooms:** 5
- d) **Class rooms with ICT facility:** Nil
- e) **Students laboratories:** 1
- f) **Research laboratories:** 1

39. List of doctoral, post- doctoral students and Research Associates:

- a) from the host institution/ Nil
university:
- b) from other institutes/universities: Nil

40. Number of post graduate students getting financial assistance from the university: NA
41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology : Nil
42. Does the department obtain feedback from:
- a) faculty on curriculum as well as teaching-learning-evaluation? If yes how does the department utilize the feedback? : Nil
- b) students on staff, curriculum and teaching-learning-evaluation and how does the department utilise the feedback? : Nil
- c) alumni and employers on the programmes offered and how does the department utilize the feedback? : Nil

49. State whether the programme/ department is accredited / graded by other agencies? If yes, give details. : The department is accelerated/graded by DST (PURSE) scheme in 2011-12 & UGC SAP(DRS-1) program in 2012-13
50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. : Nil
51. Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.

Strengths	1. Department is well equipped with the basic infrastructure. 2. Highly qualified and dedicated workforce.
Weaknesses	1. No emphasis on consultancy services. 2. Lack of recognition in terms of awards.
Opportunities:	1. Huge departmental allumani for extra help and resource person. 2. Collaboration with other research institutions and universities.
Challenges:	1. Procurment of more funds from different agencies in the form of projects and departmental schemes.

52. Future plans of the department.

The details of year wise tentative plan of work proposed to be done in the best academic and public interest is as under:

2013	Three week Training Programs for statistical computing (Application of Statistical software like SPSS and SAS)
2013	Refresher Course in Statistics
2013	A three days National Seminar on THEORY AND APPLICATIONS of Statistics
2013	Introduction of certificate and Diploma course in Statistical Computing
2014	An International Conference in Statistics
2014	A Research Methodology Program
2015	A Separate unit will be established to study the statistics of the University and drawing inference for the development of the University
2016	Establishment of Institutes of Total Quality Management, Biostatistics, Bayesian Statistics

	DST-PURSE (2011-2014)	~100.0 L

20. Research facility / centre with

• **State recognition :**

Centre of Excellence in “Biocontrol & Pest Management”

• **National recognition:**

UGC-SAP-DRSI, DST-FIST, DST-PURSE, DST-IRPHA.

• **International recognition :**

21. Special research laboratories sponsored by / created by industry or corporate bodies:

NA

22. Publications

- ❖ **Number of papers published in peer reviewed journals(national / international) :** 262
- ❖ **Monographs :**
- ❖ **Chapters in books** >35
- ❖ **Edited books** >30
- ❖ **Books with ISBN with details of publishers :**
- ❖ **Number listed in International Database (For e.g. Web of Science, Scopus, Humanities International Complete, Dare Database – International Social Sciences Directory, EBSCO host, etc.)**

24. Areas of consultancy income generated : NA

25. Faculty selected nationally / internationally to visit other laboratories / institutions / industries in India and abroad:

- Invited talks in national and international conferences given by several faculties.

26. Faculty serving in a) National committees b) International committees c) Editorial Boards d) any other (please specify):

- Jurnal of Applied Bioscience, Exec. Editor Prof.Omkar
- Indian Journal of Helminthology (new series), Editor Prof.N.Agarwal.
- Lucknow Journal of Science, Editor Dr.A.M.Saxena
- Senior faculties are member editorial boards of several National Journals.
- Prof. N.Agrawal & Prof. S.P.Trivedi have been member in Executive Council/Committee of Indian Science Congress Association (ISCA) and Prof. Omkar have been recorder.

27. Faculty recharging strategies (UGC, ASC, Refresher/ orientation programs, workshops, training programs and similar programs):

- a) Refresher Course in Zoology held from 16 January 2012 to 06 February, 2012.
- b) Seminar cum Training for College Teachers on “Recent Techniques in Molecular & Cell Biology” held from Feb 27-29, 2012.
- c) Refresher Course in Zoology is going to be held from 15, Jan. - 05 Feb., 2013.

28. Student projects

- ❖ **Percentage of students who have done in-house projects including inter-departmental projects :** Students complete “in house projects” both at UG & PG levels.

- ❖ **Percentage of students doing projects in collaboration with other universities/ industry/ institute :**
- ❖ On annual basis 3-4 students from other university come to the department to complete their Project Works.
- ❖ Six Final year PG students were sent to CDRI, Lucknow for hands-on training under UGC-DRS Programme.
- ❖ Department has collaboration with Local National Research Laboratories like CDRI, NBFGR, IITR, KGMU, SGPGI, CISH, Lucknow etc.

29. Awards/ recognitions received at the national and international level by:

Designation	Name of Person	Name of the award
Faculty	Prof. Nirupama Agrawal	Recorder 2000-2002, president, Section of Animal, Veterinary and Fishery Sciences 2005-2006, Member Executive Council 2002-2003, 2003-2004, Member Executive Committee 2004-2005, 2005-2006 ISCA.
		G.K. Manna Award, ISC 2010.
	Prof. A. K. Sharma	Best Paper Award, Indian Science Communication Congress at Varanasi organized by NCSTC, DST, Govt of India.
		Fellow of Applied and Natural Science Foundation (FANSF) 2012.
		Fellow of Zoological Society of Kolkatta, 2012.
	Prof. Madhu Tripathi	Gold Medal (2011) by International council for Man & Nature in National Seminar on Environmental Management & Biodiversity Conservation, Haridwar.
		Fellow, Academy of

		Environmental Biology, India.
		Member of Executive Council of Academy of Environmental Biology (2006-09).
		Prof. P.N.Pandey Award, Zoological Society of India, 2011.
		Fellow of Applied and Natural Science Foundation (FANSF) 2012.
		Fellow of Zoological Society of Kolkatta, 2012.
	Prof. Omkar	Fellow, Zoological Society of India.
		Executive member, Vice President, International Society of Applied Biology, Lucknow.
		Elected Executive Member, Aphidological Society, India.
		Elected Recorder, Executive Member, Zoology, Entomology & Fisheries, ISCA.
		Executive Editor, Journal of Applied Bioscience.
		Fellow, Entomological Society of India.
		Fellow, Society for Biocontrol Advancement.
		Fellow, Academy of Environmental Biology.
	Dr. S. P. Trivedi	“J. S. Dutta Munshi Medal”

		(2007) for outstanding contribution in Fish & Fisheries, conferred by The Zoological Society of India.
		“Scientist of the Year 2008”, conferred by Bioved Research Society, Allahabad.
		Elected Recorder for the Section- Animal, Veterinary and Fishery Sciences, of the Indian Science Congress Association for 96th (2008-2009) and 97th (2009-2010) Sessions.
		“Dr. B. S. Chauhan Gold Medal” (2008) for outstanding contribution to the field of Zoology by the Zoological Society of India.
		“Environmental Science Gold Medal” (2009) conferred by the Indian Academy of Environmental Sciences, Haridwar.
	Dr. Sangeeta Rani	Member, Editorial Board, Newsletter (Indian Society for Chronobiology).
		Faculty in the DST-sponsored School in Chronobiology.
	Dr. Amita Kanaujia	Gold Medal by Zoological Society of India.
		Fellow, Zoological Society of India.
	Dr. Monisha Banerjee	2011-13: Elected Treasurer of Executive Committee of Indian Society of Cell Biology.
		2009-10: Reviewer in Journal of Applied Bioscience, International J of Immunogenetics.
		2009: Life member of

		Indian Society of Cell Biology (ISCB), Indian Society of Human Genetics (ISHG), Indian Science Congress (ISC).
Doctoral/post doctoral fellows

30. Seminars/ Conferences/ Workshops organised and the source of funding (national/ international) with details of outstanding participants, if any :

- A Seminar under UGC-DRS Programme was regularly held in the department on annual basis. In 2008 a National Seminar was held on Helminthology. Further a Symposium on Functional Biology: Comparative Aspects In conjunction with Second meeting of the Indian Sub Continent branch of the International Neuropeptide society and Annual UGC-SAP (DRS) Seminar on Chronobiology of Birds/Biological clocks and seasonal breeding in 2009. Another symposium on Recent Advances in Helminthology under the auspices of Indian Science Congress Association (Kanpur Chapter) and Helminthological Society of India, Lucknow on 2010.
- National Symposium on Modern Approaches to Insect Pest Management under the Centre of Excellence programme of the department was also held in March 2010.
- A workshop/seminar on the “Intellectual Property Rights & its Protection” by (IPR cell) was held on

28 March, 2011 in the department.

- All India Congress of Zoology & National Seminar on “Recent Advances in Biological Sciences: Biodiversity and Human Welfare” held from December 29-31, 2011.
- Seminar cum Training for College Teachers on “Recent Techniques in Molecular & Cell Biology” held from Feb 27-29, 2012. Funded by Indian Society of Cell Biology and DST PURSE of Department of Zoology.
- Wildlife week celebration w. e. f. October 1st to 7th, 2009, 2010, 2011 & 2012 at Regional Science Centre, Lucknow. Funded by UP State Govt.

31. Code of ethics for research followed by the departments: Yes

32. Student profile programme-wise:

Name of the Programme (refer to question no. 4)	Applications received	Selected		Pass percentage	
		Male	Female	Male	Female
B.Sc.	1000	300 (Appr.)		90%	
M.Sc.	200	50 (Appr.)		95%	
Ph.D.	100 (Appr.)	25 (Appr.)		100%	

33. Diversity of students:

36. Diversity of staff

Percentage of faculty who are the graduates	
of the same university	48%
from other universities	42%
from universities from other States	12%
from universities outside the countries	-

37. Number of faculty who were awarded M.Phil., Ph.D., D.Sc. and D.Litt. during the assessment period: 01**38. Present details of departmental infrastructural facilities with regard to:**

- a) **Library:** Books ~ 11500), Journals ~ 8000)
- b) **Internet facilities for staff and students:** Internet facility to individual faculty member rooms and laboratories.
- c) **Total number of class rooms:** 09
- d) **Class rooms with ICT facility:** 5 Class rooms with ICT facility
- e) **Students laboratories:** 08 with Intercom & other Lab. facility
- f) **Research laboratories:** Internet connectivity, Intercom facility

39. List of doctoral, post- doctoral students and Research Associates:

- a) **from the host institution/ university:** See Annexure 1
- b) **from other institutes/universities:** See Annexure 1

- 40. Number of post graduate students getting financial assistance from the university:**
- Under UGC-DRS Programme Six (6) PG students got financial assistance of Rs. 5000/- each for completing project from CDRI, Lucknow.
- 41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology :**
- Required essential assessment exercise was undertaken to start development of New Programmes like:
- a) A vocational UG programme in Genetics & Genomics.
 - b) DRS-I programme of UGC-SAP, New Delhi.
 - c) FIST programme of DST, New Delhi.
 - d) Centre of Excellence programme of Govt. of U.P.
- 42. Does the department obtain feedback from:**
- a) faculty on curriculum as well as teaching-learning-evaluation? If yes how does the department utilize the feedback? :
- Yes, the feedback is used in revision of curriculum at UG/PG levels. Syllabus revised in 2011-2012.
- b) students on staff, curriculum and teaching-learning-evaluation and how does the department utilise the feedback? :
- Feedbacks are used in adopting teaching learning evaluation methods, curriculum development & also on staff requirement.
- c) alumni and employers on the programmes offered and how does the department utilize the feedback? :
- Feedbacks from alumni & employers are utilized to improve upon academic programmes.
- 43. List the distinguished alumni of the department (maximum 10):**
- : Prof. K.N.Bahl
 - : Prof. G.S.Thaper
 - : Prof. M.B.Lal
 - : Prof. P.D.Gupta
 - : Prof. R.Rakshpal
 - : Prof. B.K.Tandan
 - : Prof. B.Dev

: Prof. K.C.Pandey
: Prof. S.P.Gupta
: Prof. M.L.Bhatia
: Prof. V.Dandha
: Prof. G.S.Dogra
: Prof. S.M.Das
: Prof. Premvati
: Prof. S.C.Baugh

44. Give details of student enrichment programmes (special lectures / workshops/ seminar) involving external experts. : Regular student enrichment programmes involving external experts from Lucknow and other parts of India are being done by organizing special lecture and other academic activities.
45. List the teaching methods adopted by the faculty for different programmes: (i) Computer aided instructions, LCD Projection
(ii) Overhead Projector assisted teaching
(iii) Seminars
(iv) Regular Lectures
(v) Lab work and demonstration
(vi) Hands-on training
46. How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? : We regularly discuss with the faculty involved with the programme to insure that objectives are constantly met and learning outcomes are monitored.
47. Highlight the participation of students and faculty in extension activity: Students & faculty – Science Day, Wild-life Week, Youth festivals, Annual Day, Sparrow Day & other academic activities.
48. Give details of “beyond syllabus scholarly activities” of the department. : Students participate in Rangoli, Essay writing, debates, Skits etc.
49. State whether the programme/ department is accredited / graded by other agencies? If yes, give details. : For getting Centre of Excellence status for research the programme was evaluated by experts from Govt. of U.P. and for UGC-DRS Programme usual assessment is done.
50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. : Training in Modern Biology, Teachers training programme, Development of two centre of excellence – programme in Biological control of insect Pest and DST sponsored programme under IRPHA.

51. Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.

Strengths	<ol style="list-style-type: none"> 1. Leading academic centre of Teaching & Reserches in India. 2. Department is getting financial support for Teaching & Reserch from: <ol style="list-style-type: none"> a) UGC-SAP, DRS-I & II b) DST – FIST. c) DST – PURSE. d) Centre of Excellence from State Govt. of U.P. e) Centre of Excellence from DST - IRPHA. 3. Department has funding from various agencies worth approx. Rs. 7 Crore in last 5 years including individual Research Projects of the faculty. 4. Our Museum is best in any Indian universities having rich collection of specimens, models, skeletons etc. 5. Our Department has (a) Intercom & Internet facility to all the faculties room/lab, class room, Library, Auditorium, well equipped Central Instrument Lab. etc.
Weaknesses	<ol style="list-style-type: none"> 1. Shortage of Teaching faculty as per UGC norms as well as non-teaching staff. 2. Lack of well equipped Animal House for Research. 3. Our library is not connected to Internet. So WI-FI is also required. 4. Shortage of space for class room, laboratories and faculty room.
Opportunities:	<ol style="list-style-type: none"> 1. Generating skilled human resourse for Teaching & Research. 2. Providing Training to teachers under Refreshers Courses and other programme. 3. Our library is rich in collection and its used by other Department/Institute. 4. We may begin a vocational educational programme in the areas of expostive of the Department. 5. Few interdisciplinary colleberative work is going on; but need to enhanced & strength.
Challenges:	<ol style="list-style-type: none"> 1. Lack of few Important costly equipment like – sequences analyser, flow-cytometer, SEM, Atomic Abosorption equipment etc. 2. In less space to work for academic (Teaching & Research). 3. To work with less Teaching as well as Non-teaching staff.

	4. To work for experiment or animal; we have to go to CDRI & Internal University. 5. Uninterrupted power supply is needed.

52. Future plans of the department.

This department since its inception has been regarded as one of the leading lights in Zoology not only in teaching but also in research. The department hopes to continue to make its indelible mark on the world map. Some highlights of Future plans are:

- (1) To provide world class education and to contribute in quality research. For this we are developing equipped & advanced Central Instrumentation facilities.
- (2) To encourage students to enjoy zoology and to innovate, improvise, think for themselves and raise questions and to instil in students the urge to excel in their chosen spheres of life and become good citizen.
- (3) To develop a standard modern animal house for teaching & research.
- (4) Our unique museum need to be upgraded and equipped with advanced infra structure for display of rare & best collection of animals, models & skeletons.
- (5) Upgradation of our Auditorium and Committee room for Seminars, Workshops, Viva-voce presentation and other academic extra curricular activities.

The future research Plans of various thrust areas are as follows:-

Helminth Taxonomy & Parasitology:

- ☐ Helminth fauna of Indian circarie, Fish trematodes etc.
- ☐ Life cycle studies of monogeneans and digenean worms
- ☐ Phylogenetical studies of monoogeneanworms at molecular level.
- ☐ Statistical analysis of data on monogenean & Digenean worms.
- ☐ Studies on pathogenic and non-pathogenic protozoans with special reference to amphizoic amoebae causing meningitis and keratitis.

Entomology and Pest Management:

The following are the objectives for next five years-

- ☐ Study life history traits of ladybirds for identification and standardization of parameters resulting in the mass production of ladybirds.
- ☐ Study prey-predator interactions to help in targeted release of ladybirds on specific prey, thereby allowing successful biological control.

☐ Study predator-predator interactions for identification of non-interfering predatory complexes with a synergistic predatory action.

☐ Study sexual selection in ladybirds to explore the evolutionary reasons behind the existence of such behaviour.

Fish Biology and Toxicology:

☐ Aquaculture with special reference to the effect of fluoride on edible fish.

☐ Fish Genetic Resources.

Physiological and Molecular screening of Ichthyotoxicants & to establish Bioremedial measures against them.

Chronobiology of Birds & Reproductive Biology:

☐ To understand basic clock properties in animals living in diverse and disturbed habitats using behavioural and endocrine markers.

☐ To understand the physiological basis of clock function using state of art methods and technologies.

☐ To develop a curriculum for biological clocks for use by other institutions of higher education for teaching.

☐ To forge collaboration amongst scientists working in different parts in order to address larger question of temporal ecology of biological organisms.

Molecular Genetics and Endocrinology:

☐ To study effects like DNA damage and oxidative stress caused by toxic substances like chromium and other industrial wastes on factory workers so that genotoxic and oxidative stress biomarkers could be developed.

☐ To study the association of gene polymorphisms and their effects on

expression levels in complex disorders such as type 2 diabetes, cancer, osteoporosis and chronic obstructive pulmonary disease (COPD).

☐ To establish various cell lines in the laboratory for developing in vitro test systems for antiosteoporotic, antidiabetic and anticancerous agents.

22. **Publications**
 ❖ **Number of papers published in peer reviewed journals(national / international) :** 380
 ❖ **Monographs :** -
 ❖ **Chapters in books** -

- ❖ Edited books -
- ❖ Books with ISBN with details of publishers : 4
- ❖ Number listed in International Database (For e.g. Web of Science, Scopus, Humanities International Complete, Dare Database – International Social Sciences Directory, EBSCO host, etc.)
- ❖ Citation Index – range / average
- ❖ SNIP
- ❖ SJR
- ❖ Impact Factor - range / average : Ranging from 1-3
- ❖ h-index More than 25

23. Details of patents and income generated: Patents- 2

24. Areas of consultancy income generated : Renewable Energy

25. Faculty selected nationally / internationally to visit other laboratories / institutions / industries in India and abroad:

- About 60% of the faculty members visited abroad.

26. Faculty serving in a) National committees b) International committees c) Editorial Boards d) any other (please specify):

- i) National committees Prof. P.K. Rath, Prof. P. Jha, Prof. P. Tandon
- j) International committees Prof. P.K. Rath
- k) Editorial Boards - Most of the faculty members are referee to International journals.
- l) any other (please specify) -

27. Faculty recharging strategies (UGC, ASC, Refresher/ orientation programs, workshops, training programs and similar programs):

- Academic staff of the university organizes refresher course regularly in the department.

28. Student projects

- ❖ **Percentage of students who have done in-house projects including inter-departmental projects :** M.Sc. (Electronics) students have project as a part of their curriculum.
- ❖ **Percentage of students doing projects in collaboration with other universities/ industry/ institute :** 15% of Ph.D. students.

37. Number of faculty who were awarded M.Phil., Ph.D., D.Sc. and D.Litt. during the assessment period:

One

38. Present details of departmental infrastructural facilities with regard to:

- a) **Library:** One PG library for PG and Research students
- b) **Internet facilities for staff and students:** Staff and Research students
- c) **Total number of class rooms:** 05+01 (Smart Class) + One Auditorium
- d) **Class rooms with ICT facility:** Two
- e) **Students laboratories:** 08 for UG+ 08 for PG students
- f) **Research laboratories:** 16

39. List of doctoral, post- doctoral students and Research Associates:**(Total 98 Ph.D., 8 Post Doctoral students)****a) from the host institution/ university: 80%****b) from other institutes/universities: 20%****40. Number of post graduate students getting financial assistance from the university: -NA****41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology :** Through board of studies and other educational bodies.**42. Does the department obtain feedback from:****a) faculty on curriculum as well as teaching-learning-evaluation? If yes how does the department utilize the feedback? :** Yes, the syllabus is revised on regular basis every 2-3 years where the inputs from various faculty members are incorporated.**b) students on staff, curriculum and teaching-learning-evaluation and how does the department utilise the feedback? :** Yes, though the feedback from the students is not taken on any given proforma but because of the small size of the class each student has enough opportunity.**c) Alumni and employers on the programmes offered and how does the department utilize the feedback? :** Yes, obtained through regular alumni meetings and incorporated in the syllabus and teaching methodology.**43. List the distinguished alumni of the department (maximum 10):**

- Sri. S.V.M. Tripathi (Former D.G.P., U.P.)
- Sri. M.C. Dwivedi (Former D.G.P., U.P.)
- Sri. Atul Chaturvedi (Senior, IAS)
- Dr. Akhilesh Gupta (UGC, Secretary)
- Dr. Anil Bharadwaj (S.S. Bhatnagar Awardee)

(The list is not exhaustive)

44. **Give details of student enrichment programmes (special lectures / workshops/ seminar) involving external experts. :** The department organizes lectures of eminent personalities through the support of individual faculty members regularly.
45. **List the teaching methods adopted by the faculty for different programmes:** Classroom teaching, Powerpoint presentation, Demonstration, Practical and other pedagogical techniques.
46. **How does the department ensure that programme objectives are constantly met and learning outcomes are monitored? :** These issues are discussed and resolved in board of studies.
47. **Highlight the participation of students and faculty in extension activity:** NA
48. **Give details of “beyond syllabus scholarly activities” of the department. :** The students of the department participate in various educational and extracurricular activities organized by different universities.
49. **State whether the programme/ department is accredited / graded by other agencies? If yes, give details. :** -NA
50. **Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :**
-
51. **Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.**

Strengths	<ol style="list-style-type: none"> 1. Highly qualified, scholarly, dedicated and professionally competent faculty, who have strong academic and professional networking with peers and institutions at the national and international level. 2. The curriculum is innovative, holistic and modern, addressing global, national and regional needs. It is revised every three years. 3. Aware of the paradigm shift in teaching methodology, the
------------------	--

	faculty has made learning student- centric. The teaching-learning experience is inspirational, pleasurable, exciting, interesting and ICT enabled. The dormant latent capacities of the students come alive.
Weaknesses	<ol style="list-style-type: none"> 1. Over the years the increase in seats by the State government and the influx of students from rural and semi-urban backgrounds. 2. Shortage of Infrastructure in the classrooms. 3. Shortage of Manpower (Teaching & Non Teaching) 4. Shortage of Space in Departmental Library.
Opportunities:	<ol style="list-style-type: none"> 1. We have good and learned Faculty Members. 2. Grants received under various research projects by faculty members.
Challenges:	<ol style="list-style-type: none"> 1. Maintenance of old building. 2. Up keep of the laboratories. 3. Renovation of workshop facility

52. Future plans of the department.

1. To start Innovative interdisciplinary courses and M. Phil. Programme.
2. Devising Collaboration/exchange Programmes with other Universities and Research Organizations both within country and abroad
3. Development of state of art experimental facilities at central place.
4. Making the Departmental Library more equipped in terms of journals and e-books and e-journals.
5. Expansion of building of the department to cater the needs of the future.
6. Expansion of ICT facility for students.
7. Renovation of the laboratories and class rooms.

39. List of doctoral, post- doctoral students and Research Associates:

- a) **from the host institution/ university:** One Post Doctoral
Doctoral (List Attached) (See Annexure 2)
- b) **from other institutes/universities:** NA

40. Number of post graduate students getting financial assistance from the university: NA

41. Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology : Yes (Methodology- Survey followed by workshops)
42. Does the department obtain feedback from:
- a) faculty on curriculum as well as teaching-learning-evaluation? If yes how does the department utilize the feedback? : Yes
- b) students on staff, curriculum and teaching-learning-evaluation and how does the department utilise the feedback? : Not at present
- c) alumni and employers on the programmes offered and how does the department utilize the feedback? : Not at present
43. List the distinguished alumni of the department (maximum 10):
- Prof. S.P.Chaube
 - Prof. R.S.Pandey
 - Prof R. J. Singh
 - Prof. Devki Tewari
44. Give details of student enrichment programmes (special lectures / workshops/ seminar) involving external experts. :
- Special Lectures by eminent educationists
 - Celebrations of birth and death anniversaries of great thinkers
 - Visit to Important Libraries
 - Visit to distinguished Institutions
 - Organising Talent Hunt Week
 - Educational Excursion
 - Village Camp
 - Education Plus (Personality Development and Computer literacy)
45. List the teaching methods adopted by the faculty for different programmes:
- Brain Storming
 - Case Study
 - Collaborative Teaching
 - Computer Assisted Instruction
 - Demonstration
 - Dissertation

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

The Department of Commercial Art is well known in the country for producing high class students who are the leaders in the market in Advertising, Photography & Animation fields. The products of this department are highly placed in Govt. & private sectors. The department still emphasizes on practical hand work combining it with state of the art technological training which is rare in other institutions thus the products of this departments have better practical and theoretical knowledge than others there by helping them to have an upper hand over the others.

51. Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.

Strengths	<ul style="list-style-type: none"> ➤ Practical & state of the art technological know-how. ➤ All the faculties are practicing experts in their respective fields. ➤ Photography section has an unparalleled record of producing students who have excelled even at International level competitions frequently. ➤ Awareness of current trends in the field. ➤ Photography section is rated as number one in country.
Weaknesses	<ul style="list-style-type: none"> ➤ Number of teaching faculty is far less than required. ➤ No Internet facility for students or faculty. ➤ Upgradation and modernization of photography studio, computer lab not up to date due to fund scarcity. ➤ More number of classrooms is required. ➤ Furniture is in adequate.
Opportunities:	<ul style="list-style-type: none"> ➤ Students have a chance to develop their skills in the best possible environment. ➤ Students can get first hand experience working with the faculty on their projects. ➤ Senior students are made leaders of different groups who have to lead other students under them, on their own providing them with an opportunity to learn leadership qualities. ➤ There is a museum within the campus which houses a lot of rare collection and works of great masters students have an opportunity to see and learn from them. ➤ The campus has a huge library which has a big collection of rare books not easily found else where.
Challenges:	<ul style="list-style-type: none"> ➤ Meeting the cost of upgrading the equipments in the photography section, computer lab and developing better infrastructure. ➤ Managing all classes due to strict shortage of faculty. ➤ Providing the students more opportunities to visit other institutes and universities for meeting and understanding what others are doing. ➤ Starting student exchange programme with other reputed institutions of the world. ➤ Upgradaion of courses according to modern technological developments.

52. Future plans of the department.

The department is moving forward with long strides to gain knowledge for this we have plans to invite international faculty and organize practical workshops and demos more and more. Direct interaction and involvement with experts from other regions of the world will provide students with an opportunity to learn different things and make them aware of current trends.

We have recognized our strong points and wish to further develop them to turn them into one of the best, not only in the country but also at par with other top institutes in the world. We have plans to introduce specialized Animation Courses, Videography Courses for which we need right kind of infrastructure.

Department of Fine Arts has its own identity in the field of painting in the country. Presently students are more involved in working with different mediums as well as using traditional styles of form and technique for their Creative expression. The special characteristic of the department is Lucknow style wash painting which is still apparent for the creative expression but its own way. Department has separate full fledged Ceramic Studio which gives ample opportunity to the students to expand their visual imaginary expression.

51. Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.

Strengths	<ul style="list-style-type: none"> ➤ Practical & state of the art technological know-how. ➤ Most of the faculty are practicing experts in their respective fields. ➤ Working with traditional material and technique in different manner in is the strength of department. ➤ Awareness of current trends in the field. ➤ Hard working and sufficient time span for the teaching and Studio facilities.
Weaknesses	<ul style="list-style-type: none"> ➤ Number of teaching faculty is far less than required. ➤ No Internet facility for students or faculty. ➤ Upgradation and modernization of Studio is required. ➤ Non availability of modern equipment in Ceramic & Graphic Studio. ➤ Furniture is inadequate.
Opportunities:	<ul style="list-style-type: none"> ➤ Students have a chance to develop their skills in the best possible environment. ➤ Students can get first hand experience working with the faculty on their projects. ➤ Senior students are made leaders of different groups who have to lead other students under them, on their own providing them with an opportunity to develop their leadership qualities. ➤ There is a museum within the campus which houses a lot of rare collection and works of great masters. Students have an opportunity to see and learn from them. ➤ The campus has a huge library which has a vast collection of rare books not easily found elsewhere.
Challenges:	<ul style="list-style-type: none"> ➤ Meeting the cost of upgrading the equipments in the Ceramic & Graphic Studios. ➤ Managing all classes due to strict shortage of faculty. ➤ Providing the students with more opportunities to visit other institutes and universities for meeting, understanding and awareness. ➤ Starting student exchange programme with other reputed institutions of the world. ➤ Upgradaion of courses according to modern technological development.

52. Future plans of the department.

The department is moving forward with long strides to gain knowledge. For this we have plans to invite international faculties and organize practical workshops and demonstrations . Direct interaction and involvement with experts from other regions of

the world will provide students with an opportunity to learn different things and make them aware of the current trends.

We have recognized our strong points and wish to further develop them not only in the country but also at par with other top institutes in the world. We have plans to develop our Infrastructural facilities like Ceramic, Graphic/Mural Studios and well equipped furnaces and introducing Silk Screen printing technology and Computer Graphics.

48. Give details of “beyond syllabus scholarly activities” of the department. : The department regularly holds various extra curricular activities to inculcate qualities of discipline, coordination and cooperation. Activities like Workshops, Demos, Annual Sports, Kala Mela, NSS, Annual Art Exhibition provide several chances to learn with fun.
49. State whether the programme/ department is accredited / graded by other agencies? If yes, give details. : NA
50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied. :

Department of Sculpture has its own identity in the field of sculpture in the country. Presently students are more involved in Stone Carving and getting much more expression from a cool medium like stone. The excitement behind the formal aspect is special contribution of the department. Presently permanent material is not regularly being used by the young artists, specially in teaching institution but the students of department of sculpture are using permanent material in different manners which is very effective as a Visual language.

51. Detail five major Strengths, Weaknesses, Opportunities, and challenges (SWOC) of the department.

Strengths	<ul style="list-style-type: none"> ➤ Practical & state of the art technological know-how. ➤ Most of the faculty are practicing experts in their respective fields. ➤ Working with traditional material and technique in different manner in is the strength of department. ➤ Awareness of current trends in the field. ➤ Hard working and sufficient time span for the teaching and Studio facilities.
Weaknesses	<ul style="list-style-type: none"> ➤ Number of teaching faculty is far less than required. ➤ No Internet facility for students or faculty. ➤ Upgradation and modernization of Studio is required. ➤ Non availability of modern equipment in Ceramic & Graphic Studio. ➤ Furniture is inadequate.
Opportunities:	<ul style="list-style-type: none"> ➤ Students have a chance to develop their skills in the best possible environment. ➤ Students can get first hand experience working with

	<p>the faculty on their projects.</p> <ul style="list-style-type: none"> ➤ Senior students are made leaders of different groups who have to lead other students under them, on their own providing them with an opportunity to develop their leadership qualities. ➤ There is a museum within the campus which houses a lot of rare collection and works of great masters. Students have an opportunity to see and learn from them. ➤ The campus has a huge library which has a vast collection of rare books not easily found elsewhere.
Challenges:	<ul style="list-style-type: none"> ➤ Meeting the cost of upgrading the equipments in the Ceramic & Graphic Studios. ➤ Managing all classes due to strict shortage of faculty. ➤ Providing the students with more opportunities to visit other institutes and universities for meeting, understanding and awareness. ➤ Starting student exchange programme with other reputed institutions of the world. ➤ Upgradation of courses according to modern technological development.

52. Future plans of the department.

The department is moving forward with long strides to gain knowledge. For this we have plans to invite international faculties and organize practical workshops and demonstrations. Direct interaction and involvement with experts from other regions of the world will provide students with an opportunity to learn different things and make them aware of the current trends.

We have recognized our strong points and wish to further develop them not only in the country but also at par with other top institutes in the world. We have plans to develop our Infrastructural facilities like Bronze Casting Foundry, well equipped stone carving shade, modern ceramics foundry and proper display area.

University of Lucknow

Evaluative Report

Institutes

(2012-2013)

Institute of Management Sciences (IMS)

The Institute of Management Sciences is a pioneering Institute in the field of modern management education. It is the focal point for providing the input for efficient and pragmatic approach to problem solving for improvement in the different fields of business. The Institute is located on the second campus of the University (near Engineering College). It is housed in a magnificent building having adequately/ appropriately furnished class rooms and all requisite facilities.

The continuing endeavor of IMS is to evolve itself as an Institute that can provide skilled professionals to the industry and is also world class not in terms of material modernity of infrastructure or size but in terms of contextual relevance of the institution by way of contribution to the society, growth and value-based development.

The student body of IMS is meticulously selected (through a 3-tier entrance test at all India level) and carefully nurtured in an atmosphere that is creative, harmonizing and yet challenging. Management education forms the core of higher education system in this country. Lucknow University has been one of the pioneering institutions imparting quality management education in this country. Keeping tune with times, this University has again been a torch bearer for starting self-financing courses in different sectors of management. Accordingly, it now has 13 courses at three levels: Post Graduate, Under Graduate and Diploma.

As per the initiation of the Government of U.P. and A.I.C.T.E., Several of these courses were approved by A.I.C.T.E. and were subsequently brought under one administrative control mechanism. The Institute of Management Sciences was finally created on May 3, 2001. IMS is established, as a Super Market of Management Courses. Each course of the IMS shelf is super specialization in itself. It offers a variety of courses for different sectors of the market. If MMS caters to the core management arena, MBA (CM) has a focus for corporate sector. MBA (ME) has a typical marketing focus and MBA (IB) caters to the requirements of the international business. MHRM & IR looks at the crucial Human Resource problem and MBA (FC) has a typical appetite for financial issues. MBA (Tourism) prepared human resource for the crucial tourism sector.

The four undergraduate courses of Bachelor of Business Administration (BBA), Bachelor of Management Sciences (BMS), BBA (International Business) and BBA (Tourism) provide

opportunities for future preparation, attitudinal fine tuning and personality development for higher course, besides providing job opportunities.

Weaknesses	<ul style="list-style-type: none"> ➤ No full time Director, Placement Officer and regular faculty programme -wise ➤ Lack of trained support staff ➤ Limited size of core faculty to run multiple programmes.

	<ul style="list-style-type: none"> ➤ Faculty cadre lacks faculty at Associate and Professor Level ➤ No large sized availability of auditorium ,sports facilities and girls hostel in second campus ➤ Physical library lacks new titles ➤ Poor access to campus due to lack of public bus service
Opportunities:	<ul style="list-style-type: none"> ➤ To get established as a separate FACULTY OF MANAGEMENT in the University based on proven experience of running specialized courses ➤ To integrate UG – BBA Programme into 5 year integrated Programmes in Management ➤ To capitalize on demand for research programme by offering M. Phil or Ph.D subject to regular faculty appointments ➤ To offer consultancy to small businesses, entrepreneurs and government. ➤ Take up projects in the are of financial literacy, marketing research etc
Challenges:	<ul style="list-style-type: none"> ➤ Poor investment in industry within the state is a major challenge for opportunities to place students locally within the state. ➤ To meet the expectations of industry for improved communication and thought process in the students. ➤ Lack of administrative autonomy which slows decision making to move with speed for competing with ever expanding private players for augmenting, updating and maintenance of faculty, infrastructure and technological resources ➤ Highest fee in the university system for management students has created higher expectation of students

	<p>for facilities and faculty strength</p> <p>➤ To keep the staff motivated due to differences in the service conditions and benefits of self -financing programmes as compared to approved staff of the university.</p>

Institute of Tourism Studies**Institutional Profile:**

Institute of Tourism Studies (I.T.S.) is a premiere institute providing high-quality education in the field of tourism management and providing consultancy to the industry. The Institute was established in the year 1994 under the flagship of the University of Lucknow. Equipped with a fraternity of young as well as experienced professionals, the Institute is churning out enthusiastic and efficient young professionals every year to serve the ever-growing tourism industry; the industry, which is poised to be *numero uno* in the 21st century. Thirteen dynamic batches of “Masters of Tourism Management (M.T.M.)/MBA (Tourism)” and ten batches each of Bachelor of Tourism Administration (BTA)/BBA (Tourism) and Post Graduate Diploma in Travel Management (PGDTM) are already serving the industry in high recognition. Besides, two batches of DIAT & CRS (Diploma in International Airline Ticketing & Computerized Reservation System) have also been well received by the market.

The last seven years have seen the Institute grow steadily in terms of quality education and competent faculty. Today, the Institute enjoys a high degree of repute by esteemed organizations of the tourism industry. The other distinguishing feature is the approval of A.I.C.T.E. and financial support from the U.G.C. for conducive atmosphere of professional education.

Currently the Institute is flourishing on an independent campus in the Lucknow University premises and provides the state of art facilities to its students that include a rich library with an exhaustive collection of books, audio-visual aids etc. Regular seminars, symposia, workshops, case studies, trade fair, cultural events etc. are a part of various activities organized by the Institute to give the students an in depth exposure and enhance their personality.

The Objectives:

A common aim - ‘To put in our best’ is shared by the faculty, the students and the administrative staff alike. We are committed to be socially responsive through co-operative, entrepreneurial and creative endeavors. At the same time, the drive to attain individual excellence, in order to achieve professional growth is encouraged all along. A strong sense of integrity underlines all our efforts.

To aid our endeavor and to keep abreast with the changing times, the courses are designed to focus on:

- The fundamental concepts in Travel and Transport, Hotel, Tours and Leisure related services.
- The nature, scope and the trends in the areas of modern tourism.

- The technical, human and conceptual skills to sharpen and develop the- students' personality.
- Research and inference studies of various tourism related aspects.

Library:

The students have complete access to extensive collection of textbooks, journals, travel and trade magazines and all the leading newspapers of the country via an extremely well equipped library of the institute itself. Along with this, the students are also eligible to use the Library of the University -The Tagore Library- one of the largest libraries in India.

Computer Centre:

Within a very short span of time, the Institute has also built up its very own Computer Centre with the latest software and State of Art technology. In addition, the students are also entitled to use the computer centre of Lucknow University.

Computer Reservation System (CRS):

In pursuance to the changing demand of the industry, the Institute has started imparting practical training on Computer Reservation System (CRS), namely Amadeus and Abacus. Thorough knowledge of working on CRS package gives the students an edge in their placements. Institute also signed a MOU with Abacus Distribution System for certification from Abacus itself.

Institute of Developmental Studies

To meet the challenges of emerging scenario in the twenty first century and to optimally exploit the new (even qualitatively new) opportunities, the country needs vigorous result - oriented inter-disciplinary efforts, of a nature and scale, rarely needed before. The efforts at the highest intellectual level have to be directed towards research, leading to strategies for growth with social justice and progress and understanding of scientific processes, consultancy of an interdisciplinary in nature on specific problems requiring a time bound solution and development of a new breed of leaders (Managers, Technocrats, Population Scientists etc.) equipped with appropriate knowledge and skills and ability to acquire new knowledge/skills on their own, a vision of things as they could be, a concern for fellow human beings and the confidence to face unknown. Anticipating the potential unleashed by the globalization and anticipating the future demand for personnel, the Institute of Development Studies was established in September 1994 in the premises of Lucknow University, Lucknow. The Institute envisages an educational mission of inter-disciplinary nature by net-working the knowledge, efforts and expertise available in the fields of various disciplines (in and outside the campus) for providing the best technical advice to government executives, policy-makers, planners and researchers. The Institute was established in 1994 by the University of Lucknow, as the recognition of the fact that development studies, encompass a wide spectrum of disciplines, and hence inter-disciplinary institute provides a natural habitat for the same.

In the realm of development studies, isolated or independent application of any discipline is neither feasible nor desirable. There is unanimity in academic and policy-making circles that the process of development is related with complex and conflicting sets of economical, social, political, legal and other parameters. The mechanics, dynamics and problems of the process of development can be meaningfully studied and analyzed only by taking resource to a multi-disciplinary approach. Accordingly, the usual obsession of traditional academicians for maintaining separate identities of their respective disciplines by keeping them separate and nurturing them only from within is being fast replaced by an interactive model.

The Institute is located on the bank of Gomti river in the heart of historic city of Lucknow and operating under the auspices of one of the premier academic centres of the country - "Lucknow University". The proximity of Lucknow University, Baba Saheb Ambedkar University, Indian Institute of Management, Sanjay Gandhi Post Graduate Institute of Medical Sciences, centre of learning and research, the seat of state government, growing industries all make the location of such an Institute at Lucknow very appropriate. It is to be noted that the Institute is getting financial assistance in terms of non-plan grants from state government and also has received development grants from the Ministry of Finance, Government of India.

Teaching:

Master of Arts in Development Studies (MA-DS) Programme, a two year, full time, professional post-graduate programme designed for the social sector development.

Recent development experiences have brought out four important lessons for developing countries like India. These important lessons are:

- (a) Macro-economic stability is sine qua non for the attainment of the stipulated rate of economic growth,
- (b) The strategy for all-round prosperity should be formulated on the basis of a comprehensive and holistic approach to development,
- (c) The strategy of development should cater to the basic needs of the people at the grass - root level, and

(d) Sustained development should be rooted in processes that are socially inclusive and responsive to changing circumstances.

These important lessons are strategically crucial so far as the development challenges confronting the third world countries are concerned. However, the development policies dictated by sophisticated growth models of the developed countries characterized the heterogeneous and disintegrated money markets, governments' prompt accountability to be electorate in the grip of the revolution of rising expectations, over - ambitious economic planning, unbridled growth of consumerism, ready and generous availability of foreign aid and unstable polities coupled with aggressive populism, inter alia, call for an inter-disciplinary approach to the study of the problems of development.

Institute of Women Studies

The Institute of Women's Studies, Lucknow University was established in 1997 and started a two-year post-graduate course leading to the degree of Master of Arts in Women's Studies since then. In 2002 the Institute organised seven special lectures and three workshops for the students and teachers of Women's Studies. It also organised the annual Shivadasani Memorial Lecture by Professor Kumkum Sangari of Delhi University. The Institute started a unique campaign for Gender sensitisation, focusing on the students of various Departments and Associated Colleges of Lucknow University. The campaign includes a poster exhibition, a street play, songs and an open-house discussion and interactive session with the students. The exhibition, songs and street play were displayed and enacted repeatedly in the U.P. Youth Festival also, and it got extraordinary attention and appreciation from the media and also from the participants who came from different cities to our University. The campaign was taken, on demand, to Allahabad University as well.

In 2003 the Gender Sensitisation Campaign continued with success. Follow-Up programmes were held in some of the Colleges/Departments where we had gone in 2002 and several new Colleges were covered. The Campaign is continuing till date. The Institute took up another new programme in 2003 under the title "Meet Women of Accomplishment" with a view to interacting with those women who have accomplished special goals or positions, and to share their life-experience with the students who are yet to shape their destiny. Under this Series five achievers visited the Institute and had long sessions with the students and the Faculty. These achievers came from different back- grounds: two were teachers of great repute, one scientist with several awards to her credit, one journalist (the only women resident editor in U.P.) and one famous poetess. The students had acquaintance with a plurality of life-stories and multiplicity of the strategies which a woman may adopt to reach a worthwhile destiny.

Population Research centre

The Population Research Centre, formerly known as Demographic Research Centre, was established in July 1966 in the Department of Economics, University of Lucknow, Lucknow with the financial support of the Ministry of Health and Family Welfare, Government of India, New Delhi. This is the only Institution of its kind in the most populous state of the country. Its primary aim is to carry out researches and studies on demographic features, patterns and trends in Uttar Pradesh, their underlying factors and their impact on economic and human resource development. It also undertakes studies to extend research support to the changing strategies of the country's Family Welfare Programme.

The Centre, as an integral part of the Department of Economics, started with a core staff of twelve persons-nine research workers and three supporting staff. The Head of the Department is the ex-officio Director of the Centre. Within a short span, the Centre, because of its important research contributions in the field of population, was accorded the status of a fully developed centre in 1972. At present the staff strength of the Centre comprises 23 persons-15 research workers and 8 supporting staff. The research staff includes one Additional Director, one Joint Director, two Assistant Directors, four Research Investigators, four Field Investigators and three Tabulators.

The research thrust of the Centre has been on different aspects of V.P.'s population, particularly fertility, infant and child mortality, mutuality, population education, migration and evaluation of national programmes on women and child development and family planning. The research studies of the centre are normally based on the data collected through large scale field surveys conducted in different districts of the state. In addition, the analysis of secondary data collected in different surveys and Government Reports are carried out in the Centre over the years.

Over a passage of 37 years, the Centre has completed about 140 research studies on the above mentioned areas.

During the year 2003 the Centre has organized:

1. Three days Training Workshop on POPLINE BIBLIOGRAPHIC REPRODUCTIVE HEALTH DATABASE (sponsored by International Institute for Population Sciences, Mumbai) March 11-13, 2003. The workshop was attended by 20 participants belonging to various institutions located at Lucknow. .

2. Two days Regional Conference of the Indian Association for the Study of Population on "Emerging issues on Population, Health and Environment in Northern States of India" (November 13-14,2003). In this conference key note address was given by Dr. Francois M Farah UNFPA Representative for India and 35 research papers were presented by outstation and local members of the association.

Major studies completed during April 2002- March 2003:

1. Process evaluation of RCH camps, Training of traditional birth attendants (Dais), and outreach sessions schemes in Uttar Pradesh.
2. An evaluation of training centre under family welfare programme in Uttar Pradesh and Uttranchal.
3. An assessment of rural health infrastructure and manpower in Uttar Pradesh.

Studies in progress at the end of April 2002- March 2003

1. Assessment of regional variation in family planning and maternal child health care in Uttar Pradesh.
2. Regional variations in awareness of HIV (AIDs) in Uttar Pradesh.
3. Verification of utilization of building constructed under IPP- VI project in Uttar Pradesh and Uttranchal.
4. Verification of last doses of immunization, third ANC and PNC check up in Varanasi district of Uttar Pradesh.,
5. Unmet need for family planning in Uttar Pradesh.

**Institute of Mass Communication in Science
and Technology**

The Institute of Mass Communication in Science & Technology was established in 1995 with the support of National Council for Science & Technology Communication (NCSTC), D.S. T., Ministry of, Science & Technology, Govt of India, New Delhi with the twin objectives of popularization of Science & Technology and stimulation of scientific temper among the masses. This programme was initiated by Prof. M.S. Sodha, FNA, former Vice-Chancellor, Lucknow University with active involvement of Prof. V.D. Gupta, Former Vice-Chancellor, Gorakhpur and Allahabad University. The Institute got strengthened under the leadership of Prof. Bhoomittra Dev, Former Vice-Chancellor, Rohilkhand and Gorakhpur University. To attain these objectives a Master's programme (M.Sc. Tech) consisting of three semesters was initiated with the intake capacity of 15 students from science post-graduate and graduates from the medical and engineering fields. The aim of this academic programme was to prepare Science & Technology Communicators, who could design, maintain and manage systems that ensured smooth flow of useful information from scientists & technologists to the Industry and Society.

To make this skill and job oriented academic programme more attractive, meaningful and market need oriented few modifications were made such as:

- i. The name of this programme changed to "M.Sc. in Mass Communication in Science & Technology" instead of M.Sc. (Tech.).
- ii To attract young dynamic and fresh talent the eligibility was brought to the level of graduation from Science, Medical and Engineering disciplines.
- iii. The duration of 18 months was also changed to 2 years consisting of 4 semesters, each of 6 months duration.
- iv. On the advice of University Grants Commission, New Delhi, the syllabus was extensively revised with the incorporation of employment and skill oriented topics such as, Computer education, Information technology, Advertising, Public Relations, Newspaper Management & Printing, Audio Visuals, Press laws, History, Philosophy and Popularization of Science & Technology.

Field work and Project were designed so as to educate the students with the practical knowledge and experience of Media, Computer and Science related activities. Preparation of experimental Newspaper/Tabloid bulletin, pamphlets etc. were also a part of academic exercise. The students have been regularly providing services of media-related jobs and managing various National and International Conferences, Symposia & Workshops etc. being organized by National Research laboratories, Govt. departments and NGOs e.g. 89th sessions of Indian Science Congress and various seminars hosted by different departments of Science faculty and other local CSIR Institutes were covered by our students by making reports, press-releases, pamphlets etc. They have worked on several projects based on various topics from Science & Technology field and also useful topics for the Society. Such work is under progress of population. This year Institute is also willing to extend the academic programme by enrolling students for PhD. in the subject. Active interactions being regularly organized between Scientists, Research labs and our students. The placement of our students has been satisfactory. Our students are getting employment in Media Houses, Corporate sectors and other organizations in India and Abroad. Our students have also been qualifying in U.G.C. NET examinations.

This academic programme has now become a highly professional and job oriented with the persistent and active efforts of Director of the Institute, Prof. A.K. Sharma, faculty and staff.

Centre of Bioinformatics**Objective:**

The University of Lucknow, established in 1921 is a leading and largest residential university in the State. The Bioinformatics Infrastructure Facility (BIF) Centre (supported by DBT), at Department of Biochemistry, University of Lucknow, was established in the year 2007. The Bioinformatics Infrastructure Facility (BIF) Centre is well equipped with various hardwares & softwares, (Exome Horizon, MATLAB, Discovery Studio, DNA STAR etc.), Servers for Database Application, Desktop machines, and high speed Internet Connection. Department of Higher education, Government of Uttar Pradesh, Lucknow has selected our Bioinformatics facility as a Centre of Excellence in Bioinformatics.

Major activities of the centre:

- Short term Training/workshops for students, researchers and faculties in the area of Bioinformatics.
- Long term (3-6 months) project work for post graduation (Biotechnology/Bioinformatics) students.
- Bioinformatics teaching/practical, as a part of M.Sc. Biotechnology and Biochemistry curriculum, to the students of this department.
- Database development for medicinally important secondary metabolites.

Research activities in the following areas:

- Genomic, Proteomics and metabolomics of lignin biosynthetic and degradative enzymes such as Cinnamyl Alcohol Dehydrogenase, O-Methyl Transferase, β - DGlucosidase, Peroxidase and Laccase.
- Novel drug target identification and drug designing using comparative genomics, proteomics and metabolomics.
- Drug target identification and drug designing for anticholinergic, anti-inflammatory, anti-diabetic and anti-cancerous.

**Dr. Giri Lal Gupta Institute of Public
Health and Public Affairs (GLGIOPH)****Background**

India has had a long tradition of health education, training and research. A large network of public health related research institutions developed over the 20th century, some having been set up in the colonial period and most others added post-Independence. The All India Institute of Hygiene & Public Health, the ICMR and its various institutes, the NICD, NTI, NIHFW, the CSMCH at JNU and the PSM departments in medical colleges have been engaged in public health education, training and research for periods ranging from over hundred years to thirty years.

However, by and large, the understanding of medical professionals, nurses and other health workers about public health is inadequate, both at the policy-making levels and at the various implementation levels.

With emphasis on processes of decentralization and district level planning, there is increasing requirement for public health expertise, both to analyse the epidemiological situation and to use the analysis to do health systems planning and programming.

Various committees like Bhore Committee (1946) and Mudaliar Committee (1961) strongly recommended the setting up of departments of preventive and social medicine (PSM) in medical colleges; post-graduate training of two types – a shorter training in PSM/Public Health for health workers (three months to one year); and a longer training for specialists in preventive health work for teaching, research and administrative needs of the public health system (3-5 years); training of nurses in public health and a cadre of public health engineers, public health inspectors and public health laboratory workers to be trained by the All India Institute of Hygiene and Public Health and other institutions.

India has historically made "an inadequate effort to address public health problems." Over the years, spending on health has amounted to around 1.5% of gross domestic product, with an even lower proportion being spent on public health. Even those few public health measures that have been funded have had limited efficacy because of poor execution. Fundamentally, the institutional base for health services is weak," nongovernmental organisations are underutilised, and finally, but perhaps most significantly, the private sector is "gigantic," virtually completely unregulated, and offers "some of the best and the worst care seen anywhere."

Efforts are being made to set the situation in positive direction. Public Health Foundation of India (PHFI) has been formed and the ball has been set rolling.

On the other plane, a group of highly professional and socially conscious people came together with an aim to make a paradigm shift in the field of public health in India and chose Uttar Pradesh to start the intervention and subsequently foundation stone was laid for **Dr. Giri Lal Gupta Institute of Public Health and Public Affairs**. The institute is a result of the association of some nationally eminent people like;

1. Sri Vinod Gupta: A product of IIT, Kharagpur, Chairman & CEO, *infousa*
2. Prof. A S Brar, Vice Chancellor, University of Lucknow
3. Sri B K Goswami, IAS (Retd.), Chairman, Vinod Gupta Charitable Foundation, New Delhi.
4. Sri A D Sharma. Vice Chairman, Vinod Gupta Charitable Foundation, New Delhi and illustrious son of Dr. Shanker Dayal Sharma.
5. Padm Shree Dr. Nirupam Bajpai, Senior Development Adviser & Director, South Asian Programs, Center on Globalization & Sustainable Development, The Earth Institute at Columbia University, New York.
6. Sri G B Patnaik, IAS, Principal Secretary to the Governor, Uttar Pradesh
7. Dr. Pooran C. Pandey, Director, Times Foundation, Delhi.

This Institute has been created to fulfill following objectives:

- (I) To develop health manpower by providing post-graduate training facilities;
- (II) To conduct researches relating to various health problems and disease in the community;
- (III) To provide the support services in urban (slum) and rural areas;
- (IV) To support and guide various programs at National level. and
- (V) To act as a comprehensive, capacity building, training and awareness generation institution.

The Institute is running following courses at the moment:

1. Master of Public Health
2. Post Graduate Diploma in Medical, Health and Wellness Tourism
3. Diploma in Health and Hygiene

The Institute is housed in its own building in the New Campus of the University. It is a state-of-art building constructed through generous contribution by Sri Vinod Gupta.

GLGIOPH also offers a basket of services/programs; the cost of which depends upon the requirement, number of persons, types of service (short term and exhaustive), number of days and logistical needs.

In our one year's existence, we have done some work that may indicate our intentions. Following are the main activities of the Institute in 2007-08:

1. Foundation laying ceremony of the Institute and address to the Institute staff & students by Dr. Giri Lal Gupta on September 12, 2007.
2. Organised Guest Lecture of Dr. Altaf Lal – US Health Attaché for South Asia on 16 Sept 07 as part of 60 years of Indo-US relations
3. Student of Diploma in Health Hygiene & P.G. Diploma in Wellness Tourism participated in a seminar organized by SEHAT Foundation in J.K. Hall , Department of Social Work , University of Lucknow , Lucknow , on 29 Oct.07 **“Disease Control & Health Promotion: Current & Future Challenges in Achieving Millennium Development Goal”**
4. Blood donation camp was organized at Blood Bank CSM Medical University, Lucknow on 27 Nov 07 in association with the International Georgian Alumni Association (Medico – Social Work) India.
5. A study tour of DHH students at Balaji Nirog Dham – A Health Center at Bhakhtawarpur, Delhi from 2-5 Dec 07.
6. Participation of DHH & PGDWT student in an International Conference on Naturopathy, 21-25 February, 2008 at Jhijnholi, Sonipat (Haryana) organised by International Naturopathy Organisation, sponsored by Department of AYUSH, Ministry of Health & Family Welfare.
7. MoU signed with Indian Medical Association – UP Branch for sharing the data, Knowledge, organizing common events, exchange of resource persons on Health issues.

10. A survey done by DHH student of sample of 1000 upper middle class family for assessment of health status & medical expenses per annum on gender & age group basis.

11. 100% placement of DHH & PGWT students in a **project'' Green Blood'' Campaign run by NGO Life-Wings for Lucknow region**, the mother agency based at Pune (MAH) - GWG Group, the project is certified by Maharashtra State Khadi & Village Industries Board in May 08.
12. A study tour of PGDWT student to Dudhwa National Park, 7-9 June 2008.
13. Workshop on NRHM: Issues and Concerns, December 24, 2008, University of Lucknow.

Added value to the intervention by GLGIPH

- *Excellent training quality* for being a premier public health institute and resource center in Uttar Pradesh
- *Emphasis on improving community health simultaneously.*
- *Support in National Rural Health Mission by providing trained manpower like ASHA.*
- *Better job prospects* for BPL youths as GLGIPH enjoys an outstanding rapport in government health departments, NGOs and multinational development agencies.
- *Cost effectiveness* as GLGIPH possesses a vast infrastructure in terms of buildings, consultants, library and human resource as well.
