About the City of Lucknow

Lucknow, the Capital of Uttar Pradesh, is located in what was historically known as the Awadh region. It has always been a multicultural city known for its courtly manners, beautiful gardens, poetry, music, and fine cuisine patronized by the Persian-loving Shia Nawabs of the city. Lucknow popularly known as the 'The City of Nawabs', is also known as the 'Golden City of the East', 'Shiraz-e-Hind' and 'The Constantinople of India'. Today, Lucknow is a vibrant city that is witnessing an economic boom and is among the top ten fastest growing non-major-metropolitan cities of India. It is the second largest city in the state of Uttar Pradesh. The unique combination of its cultured grace and newly acquired pace is its most promising feature that augurs well for the future. The exquisite monuments that were built during the ancient times are still preserved for the present to see and cherish. The favourite tourist spots include Bara Imambara, British Residency, Chhattar Manzil, Jama Masjid, Rumi Darwaza, Clock Tower, Moti Mahal, Shah Manzil, Mubarak Manzil, Lakshmana Tila, Hussainabad Imambara, Constantia and Ambedkar Udyan.

Connectivity/Reaching Lucknow

The City is well connected with the rest of India by Air, Rail & Road transport. Flights operate from its Chaudhury Charan Singh International airport in Amausi to nearby places like Delhi, Patna, Ranchi and also other cities like Mumbai. Lucknow can be easily reached from Delhi, Kanpur, Agra, Allahabad and Dehradun with major highways passing through Lucknow being N.H.-25, N.H.-28 and N.H.-56. The main Campus of the University is around 13 Kms from the Amausi Airport, 5 Kms from Charbagh Railway Station.

About Faculty of Commerce, University of Lucknow

Faculty of Commerce has been serving as one of the prominent constituents of University of Lucknow ever since its inception in 1921. It has acted as a platform for providing commerce education to the masses including significant number of foreign students. The faculty comprises three full-fledged departments namely Deptt. of Commerce, Deptt. of Applied Economics and Deptt. of Business administration. It offers B. Com. and B. Com (Hons.) Programmes at UG level and M.Com. (Applied Economics), M.Com. (Commerce) and M.B.A. at Masters level apart from Ph.D. and D.Litt. programmes in all the three departments. For providing professional exposure to the students, a six month Certificate course on GST has been initiated and the Faculty also has been an accredited centre for ICAI, ICFAI and CMA.

About the Conference:

Since the inception of economic reforms, India has been witnessing a remarkable growth in various fields including banking and finance, foreign trade, IT etc. Now it is moving towards a developed nation status from a developing one. During last few years, emphasis has been given to the schemes on digitalization, skill enhancement, self employment generation, cleanliness, inclusive growth, system approach, tax system etc for making India more vibrant, advanced and self-sufficient.

Our national leaders specially Hon'ble Prime Minister Sri Narendra Modi has a very clear and wide vision for making India a strong, secure, prosperous, and happy nation. The vision is to take India to greater heights imbued with all the qualities of an advanced and prosperous nation. A transparent and flawless system, skilled and aware population, an effective and inclusive education policy, free of corruption, and taking our country to another level through the use of advanced technologies. **Vision 2022** promises to provide poor concrete houses, water and electricity. It also aims to double the income of the farmers, to give ample working opportunities to youth and women of our country. India is seen as free of corruption, casteism, terrorism, nepotism and a clean India. It seems to inculcate a new confidence in each individual to make India secure, prosperous and capable nation by 2022 through their sacrifice, hard work and a resolve to do something attitude. They are now urging citizens to help to create a 'New India'. The government at the center and state level has been working hard to change the overall picture of Indian economy. President focused on house for every family, on-demand power, better telecommunication, modernization of infrastructure, up gradation of road and railway networks, rapid and sustained growth, and a compassionate society. Making India digitally active would be a great step towards corruption free India and through all these efforts we would achieve **TRANSFORMED INDIA in the 75th year of our independence in 2022.**

Call for Papers

The conference seeks to provide multiple platforms to discuss issues/concerns/research findings/future perspective in the following tracks:

1. System
2. Population
3. Agriculture
4. Culture
5. Education
6. Global Scenario

The proposed conference will serve as an interactive forum to discuss contemporary issues with reference to above mentioned sectors. It would enable the academia, corporates, research scholars and people from public and private sectors to share their research findings, personal experiences, doubts and issues relating to reforms in the pertinent sectors.

Submission Guidelines
