ANNOUNCES RESIDENTIAL TRAINING PROGRAMME

DIGITAL TRANSFORMATION FOR ORGANIZATION

November 18-22, 2019, Port Blair

PROGRAM OBJECTIVE

The world is experiencing a digital transformation age. Social media, mobile computing, data analytics and cloud computing have an impact worldwide. To become a digital organization requires much deeper changes than just investing in the latest digital technologies.

Organizations will have to search for new business models, fundamentally rethink their operating models, rethink how they attract and promote digital talent and reflect on how they measure their accomplishment. The Digital change management needs to address capabilities & vision to develop novel technological architectures, intra- & inter-organizational competence for collaboration and networks for innovation.

The program is designed to provide the participants an understanding of digital transformation in their business environment and the scope of organizational change needed to embrace digital change and the extent of capability building needed for digital transformation.

COURSE COVERAGE

The program has been designed with the objective of inspiring the participants to learn to leverage these digital technologies for creating a novel digital vision for their organization in the new era of digital economy.

The key objectives of the program are:

- To understand the evolution of the digital technology
- To understand the need to undergo digital transformation
- To examine the challenges in driving digital transformation
- To develop a road-map for digital transformation of organization
- To understand the benefits to be derived from digital transformation

TARGET GROUP

The programme is aimed at officials of all levels from state and central Governments, Public Sector Units, Financial Institutions and/or Academic Institutions. No prior experience of handling IT or e-Governance projects is essential.
