Prajapita Brahma Kumaris Vishwa Vidyalaya

A blood donation drive camp was organized by Happy Thinking Laboratory and Counseling & Guidance Cell in collaboration with Social Service Wing (RERF) and Brahmakumaris on August 23 and 25, 2025, at the Happy Thinking Laboratory, 3 Floor, ONGC Building, University of Lucknow. The primary objective of the event was to encourage voluntary blood donation and contribute to saving lives.

The camp was inaugurated at 11:00 AM by Prof. Manuka Khanna, Hon'ble Vice Chancellor, University of Lucknow. Prof. M. Priyadarshini, Director, Happy Thinking Laboratory and Dr. Vaishali Saxena, Director, Counseling & Guidance Cell, who addressed the gathering and emphasized the importance of donating blood. A team of qualified doctors, nurses, and volunteers ensured that the process was conducted smoothly, safely, and hygienically. Before donating, all volunteers underwent a medical screening to check their eligibility. Many students, staff members, and local residents enthusiastically participated in the event. By the end of the day, over [50 Units] units of blood were successfully collected. Each donor was provided with refreshments and a certificate of appreciation. The camp also aimed to spread awareness about the benefits of blood donation. Posters, banners, and pamphlets were displayed around the venue to educate people and clear common myths. Many first-time donors expressed satisfaction and a sense of pride in being able to contribute to a noble cause.

The organizers ensured that all safety protocols were followed, and the donors were cared for throughout the process. Medical professionals were present to handle any emergency situations, though none were reported. The event concluded at 4:00 PM with a vote of thanks by [Prof. M. Priyadarshini], who thanked the medical team, volunteers, and all donors for their valuable contribution.

The blood donation camp was a great success, both in terms of participation and impact. It helped raise awareness and demonstrated how collective effort can help save countless lives.
