Block or allow pop-ups in Chrome

By default, Google Chrome blocks pop-ups from automatically showing up on your screen. When a pop-up is blocked, the address bar will be marked Pop-up blocked. You can also decide to allow pop-ups.

If you still get pop-ups after disabling them, then you could have malware.

Turn pop-ups on or off

1. On your computer, open Chrome.
2. At the top right, click More ⋮ > **Settings**.
3. At the bottom, click **Advanced**.
4. Under "Privacy and security," click **Content settings**.
5. Click **Popups**.
6. At the top, turn the setting to **Allowed** or **Blocked**.
