

Webinar on Industrial Revolution for Mechanical Engineers

A webinar was organized by the **Training and Placement cell of Faculty of Engineering & Technology, University of Lucknow** on **Industrial Revolution for Mechanical Engineers** in association with AIS Glasses for all the students of the Mechanical Engineering Department on 20th April 2020.

Objective of the webinar:

This webinar is specifically aimed at Mechanical students to make them familiar with the conceptual as well as practical knowledge of industries. This webinar focus on the process of evolution from handicrafts & agrarian economy to one dominated by Artificial Intelligence & IOT. During the webinar, participants also learn how find the job opportunities in the current scenario.

Highlights:

Webinar was presided over by **Prof. R.S Gupta, Coordinator/Incharge, FOET, University of Lucknow** who inaugurated the webinar. Introduction of the programme was given by Er. Sandeep kumar Gupta and Er. Prashant Kumar Singh. Expert **Er.Azir Pragya** talked about the different phase of industries from agrarian & handicraft economy to one dominated by the artificial intelligence and IoT. He shared basic introduction of IoT (Internet of Things) through slides and examples. The interactive session continued with the basic knowledge of techniques that are being used in the industries ,which not only helped students to understand the basic of IoT but also make them aware about the Artificial Intelligence. The session concluded with further queries from students and sharing resource for further learning and a formal vote of thanks.
