About Institute of Management Sciences

The Institute of Management Sciences traces its history to 2001, when it was established as an umbrella Institute for the management programmes being offered through various departments of the University of Lucknow. The Institute currently offers specialized MBA programmes catering to the different functional areas and having sector specific focus viz. **MBA (FINANCE AND CONTROL), MBA (HUMAN RESOURCE), MBA (MARKETING) AND MBA (INTERNATIONAL BUSINESS)** and three undergraduate Bachelors business programs Viz. **BBA, BBA (INTERNATIONAL BUSINESS) & BBA (MANAGEMENT SCIENCE)** along with a **MBA-5YRS. INTEGRATED PROGRAM.**

About the Webinar

The economic indicators around the world are reflecting a grim situation. The United Nations Department of Economic and Social affairs have predicted that the global economy could shrink by around 1% in 2020 due to the coronavirus pandemic, India being no exception. There is an urgent need to protect the health of both the economy as well as its citizens. As the current pandemic hammers business profits, increases uncertainties and risks due to lockdowns and curfews, it is imperative to understand and estimate the behaviour of economic parameters, financial markets, corporations and government policies post the pandemic. Covid-19 would impact all sectors of the economy as every form of activity comes to a standstill. Firms are finding it difficult to manage the resources of business, whether finance, human resource or operations. MSME sector which is a major contributor to the country's GDP and exports would find it extremely difficult to sustain post Covid-19. The operations of the corporate India would also evolve during this unprecedented pandemic. Companies are losing incomes with each day in lockdown. What were earlier seen as assets by the banks are gradually turning into big risks.

The webinar aims at giving a detailed insight into the post Covid-19 recovery process with special emphasis on the corporate and MSME sectors, which form the foundation of Indian economy. The eminent speakers will highlight the key features of future business, individual and economic decisions.
