

Workshop organized by IQAC Cell

Theme- “Interaction Workshop on Facilities and Opportunities at DST”

Date- 10 January 2018

Resource Person- Prof. Rajiv Sharma, Secretary SERB, DST, New Delhi

This workshop for all Science Faculty Members held at Physics auditorium and was organized By IQAC University of Lucknow and about 110 participants were present.

Prof. Rajiv Sharma highlighted various schemes and programmes facilitated by Department of Science and Technology (DST). He informed that DST has initiated scheme “Fund for Improvement of S &T infrastructure (FIST) in academic and educational institutions; he further clarified that this scheme is intended to provide basic infrastructure and other enabling facilities for carrying out research and development activities. Prof. Rajiv Sharma also informed that DST has also set up sophisticated analytical instrument facility in different parts of country to provide analytical instrument support to the researchers in the country.

He further insisted about the provision of support by DST to organize National or International scientific and technological events in the country organized by academic institute/ national research and development institutes. He also indicated about DST support for following programme for support research in basic and applied areas- SwarnaJayanti fellowships, fast track scheme for young scientists (FAST), Science and engineering research council.

In general, this workshop was very informative and beneficial to all science faculty members as, they can make use of these in the area of research promotional activities.
