

## Workshop organized by IQAC Cell

### Theme-HTML and Scripting Language two-day Workshop for Students

**Resource Person: - Dr. Punit Misra**

**Date: - 25 and 26 Feb 2020**

This workshop for students was organized by IQAC LU and was held at APJ Kalam Auditorium, ONGC Building and about 52 students were present.

Resource person Dr. Punit Misra introduced and informed the students about HTML (Hyper Text Markup Language) and Cascading style sheets (CSS), he emphasized that both these are the core technologies used to build web page. HTML provides the structure of the page, CSS the (visual and aural) layout, for a different type of devices. He further classified that along with graphics and scripting, HTML and CSS are the basis of building web pages and web applications.

Dr. Punit Misra further insisted that prime objective of this workshop is to improve fundamental knowledge of students about the application development for the internet using HTML.

Dr. Punit Misra also insisted that after this workshop student will be able to create an HTML documents, and establish adequate formatting for presentation purposes, import, insert and modify images, insert and manipulate tables, establish and maintain internal and external link to available resources, they will be able to use special effect to make the expressive, evocative documents. This workshop was worth as, students got opportunity to interact, learn and explore the HTML and scripting language use.
