alled it may drop its op- position to the extension of a global agreement to not impose tariffs on electronic transmissions such as digital downloads and streaming, two senior diplomats said.

India's Commerce Minister Piyush Goyal had on Thursday cast doubt on US efforts to permanently extend the moratorium - which is set to expire this month - during a World Trade Organization meeting in Cameroon this week, saying it warranted "careful

agree to an extension of two years, two senior diplomatic sources said, in the first sign of an opening in its position, ahead of the WTO meeting on the matter on Saturday.

It is unclear, however, if a short term extension would be satisfactory to the US. The US trade Representative (USTR) Jamieson Greer said on Thursday Washington was not interested in a temporary extension to the ban, only a permanent one. Reuters reported. Business leaders say an extension is

not diplomats said US and Indian positions were still far apart.

A third senior diplomat said that members are trying to forge a middle path of extending the moratorium beyond the next ministerial meeting - between five and 10 years. It was uncertain if the US or India would accept a middle ground, they added. The extension of the e-commerce moratorium during the WTO meeting in Yaounde is being seen as a key test for the global watchdog's relevancy, fol-

(MBIT), highlighting con- tinued strong momentum India's 5G adoption and its consumption trends. The report reveals that an India monthly 5G data use grew 70% year-on- year to reach 12.9 exabytes B) in 2025, contributing nearly 47% of overall mo- le broadband traffic. Average monthly mo- le data consumption per er increased to over 31 1 in 2025, representing 18% compound annual growth rate over the past years. This growth re-

fects the rapid expansion of enhanced Mobile Broad- band (eMBB) and growing demand for data intensive use cases such as AI appli- cations, 4K video stream- ing and cloud gaming. Overall data traffic crossed 27 EB per month in 2025, reflecting sustained growth driven by expand- ing 5G coverage and the growing availability of af-

cently from the previous year. Growth has also accel- erated across Category A, B and C circles, indicating deeper nationwide pen- etration of 5G connectivity.

India's device ecosystem is also evolving rapidly. The number of active 4G devices reached 892 mil- lion in 2025, of which over 383 million are already 5G capable, while over 99% of smartphones shipped during the year supported 5G, strengthening readi- ness for multi-band de- ployments in 5G.
